Frequently Asked Questions

License Agreement

## **Please read this first :**

Read everything first in this guide before you try to edit or upload the files to your webhost.

This may seem to be intimidating if you are setting this up for the first time. But after you have set-up everything, managing your autoresponder from your Admin Control Panel is so easy !

Most of the questions you will have has already been answered in this user manual.

You can allways view the most updated manual in

<http://www.autoresponderunlimited.com>

Back-up all the files first before editing anything. This way, you will always have your original files if something goes wrong. You can install your autoresponder script in unlimited number of domains. So it is a good idea to have a back-up copy of the original files.

## **System Requirements:**

- Unix Operating system (linux/FreeBSD)
- Perl5 Interpreter (standard on unix machines)
- SendMail (standard on unix machines)
- Works without CRON jobs (which are not allowed on many servers)
- Your own cgi-bin directory

The Autoresponder Unlimited scripts were tested to work in most servers. Follow these instructions carefully and you should have no problems in installing it. If after installing and you are still having problems, please ask first your webhost before contacting us . Any decent webhost should be able to help you. On our part, we will help you with any script related concerns, but we could not help you in resolving your problems with your webhost.

## Overview of how the autoresponder works:

- 1) Setting up your activation page
- 2) Installation of the autoresponder scripts
- 3) Setting up and managing your autoresponder accounts in the Admin Control Panel
- 4) Testing your autoresponder

## Setting up your Activation Page:

If you are wondering why we put this step as number 1 is because a lot of first time users FORGET to do this step and complain that the autoresponder is not working. This is a very important step so be sure you follow the simple procedure here.

The first thing that you need to do is to determine which page of your website will be the activation page. The activation page is the one which will “activate” your autoresponder scripts to work. In our experience, the **best page to become your activation page is your homepage** which is the most frequently visited page of your website.

After you have determined which is your activation page, edit this page and paste the following scripts anywhere between the <body> and <body > tags of your HTML.

<http://www.yourdomain.com/cgi-bin/autoresponder/activate.cgi>

Do not upload yet this webpage. You will still need add your subscription box in this webpage. Just remember, this is called your **activation page**.

## Installation of the autoresponder scripts

Unzip the file called autoresponder.zip. Be sure you remember the directory where you unzip the files. After unzipping, you should have the following files

- (1) **html folder** – there is nothing to edit /change in the files inside this folder.
- (2) **autoresponder folder** – open it, it should contain the following 4 files:
  - config.cgi
  - activate.cgi
  - ar.cgi
  - Lite.pm

You need to edit only the file called **config.cgi**.

When you first opened the **file config.cgi** you might notice that it looks garbled. There is nothing wrong with the file. Close it. Open the same file in wordpad. You notice that it looks ok now.

You will find detailed explanation in the config.cgi of what variables to change. What you are doing here is configuring the script. **You only have to do this one time.**

After editing the config.cgi, you are now ready to upload your files to your web host.

## Uploading the Files to your WebHost

Upload first the html folder to your root directory. This is the directory where you normally keep your index.html or your home page.

Now look for your **cgi-bin** directory.

Upload the autoresponder folder under the cgi-bin directory. **BE SURE that you upload the autoresponder folder as ASCII and NOT BINARY.**

You need change the permission of your **autoresponder folder and the files** inside it.

- Set the permissions or CHMOD for the **ar.cgi** file to **'755'** or **rwxf-r-x**
- Set the permissions or CHMOD for the **config.cgi** file to **'755'** or **rwxf-r-x**
- Set the permissions or CHMOD for the **activate.cgi** file to **'755'** or **rwxf-r-x**
- Set the permissions or CHMOD for the **lite.pm** file to **'644'** or **rw-r-r**
- Set the permission or CHMOD for the **autoresponder folder** to **'775'** or **drwxrwxr-x**

**Important Note :** In some web host, you have to set the permission of the      Autoresponder folder to **'777'** or **drwxrwxrwx** for it to work. Try first **'775'**, then if it doesn't work (like you cannot add a new account), then change it to **'777'**

If you have followed everything correctly, we're now ready to manage our autoresponder.

You can now log-out from your webhost while you study how your Admin Control Panel.

## How the Admin Control Panel Works

To login into your admin control panel, open your browser and in the URL address type

[www.yourdomain.com/cgi-bin/autoresponder/ar.cgi](http://www.yourdomain.com/cgi-bin/autoresponder/ar.cgi)

Enter the password that you created in the config.cgi

When you are in the Admin Control Panel, the first thing that you want to do is to create your autoresponder nickname.

The nickname is how you will identify your different autoresponders. For example, you have several domains or several webpages where you wanted to put the subscription box. For each subscription box, you may want different autoresponder messages. So you may want to create different nicknames.

Enter a nickname in the text box.

Click on the Add Account Button.

Once you have created your nickname, click on the link.

You will see Admin Settings.

The Admin Settings will only show whenever you click on the nickname link.

There is one Admin Settings for every nickname or autoresponder.

This allows you to use as many subscription boxes that you can set-up in your webpage.

### How to configure your Autoresponder Settings

This is the screenshot of how your Admin Settings would look like.

**Autoresponder Unlimited 2. Admin Settings**

**Autoresponder:** test

**Active prospects:** 0

Select a nickname for your new account (3-8 letters and digits)  
  
**Add Account**  
Select the account(s) you want to remove and click this button:

Autoresponder Settings	
'From' name: <input type="text" value="Tess Rupprecht"/>	Add unsubscribe link: <input checked="" type="checkbox"/>
'From' email: <input type="text" value="tess@yahoo.com"/>	Send report to admin: <input checked="" type="checkbox"/>
Redirect after registration to: <input type="text" value="http://yourdomain.com/thanks.html"/>	
<b>Save Settings</b> <b>Generate HTML Code</b>	

**Here's a very simple explanation of each item:**

**Add Account Button :** You can create as many account as you want. One account would correspond to one subscription box where your subscribers will enter their name and email

**From Name :** This is the name that will show in your email messages to your subscribers.

**From Email :** This is the return email address that will show in your email messages. You can choose any email address that you want even the free ones like yahoo or hotmail. Just remember, the autoresponder won't create an email account for you. You need an existing email address. Why? This is the address that your subscribers will use when responding to your autoresponder messages.

**Add Unsubscribe Link :** We highly recommend that you check this box. This link will appear in all your email messages that will be sent to your subscribers. This will allow your subscribers click on the link if they **don't want to receive anymore email messages** from you.

**Send Report to Admin :** We highly recommend that you check this box. An email will be sent to you to notify you when someone subscribes. The email message will contain the subscriber's name, email, date and even the IP address. This will serve as a proof that they actually subscribe to you. For this purposes, you will be called admin.

**Redirect After Registration to :** Type in the path where you will send your subscriber's after they subscribe, or after they click on the subscribe button. This is normally the page where you tell them "thanks for subscribing" or an order page. This is entirely up your marketing strategy.

**Save Settings :** Don't forget to click this to Save the information that you just entered above.

**Generate HTML Code :** When you click this button, the HTML code for your subscription box will be automatically generated for you.

**Add New Message :** Click this button to start typing your email messages or your autoresponder messages. You can attach any kind of file up to a size of 2 MB. Remember you can customize your email messages to include the first name, last name, email address and date today.

**Intervals :** This refers to the number of days when you want to send the messages or when you want your subscribers to receive the messages.

For example, you want your new subscriber to receive the message immediately after subscription. Then you want them to receive emails from you daily for the next 3 days. Your intervals should look like this:

- 0 - send the message as soon as your visitor subscribes
- 1 - send the message 1 day after your visitor's subscription
- 2 - send message 2 days after your visitor's subscription
- 3 - send message 2 days after your visitor's subscription

There is no limit to the number of messages you can send.

You don't have to start with 0. You may want to start sending the messages 3 days after your visitor's subscription. In this case you will enter 3 in the interval box.

Or you may want to send your messages at different intervals. For example, if you want to send your message every other day only, your intervals will look like this:

- 0 - send the message as soon as your visitor subscribes
- 2- send the message 2 days after your visitor's subscription
- 4- send message 4 days after your visitor's subscription

**Import Prospects :** Allows you to enter manually the name + email addresses of anyone. You can also cut and paste the data from another file.

**Export Prospects :** Allows you to view online the names of your active subscribers.

### **Some Important Reminders:**

After all the messages had been sent to your active prospects, it may look like some of your users may have disappeared! Don't panic, your users did not disappear. If you check your **cgi-bin folder**, there is a file called **collect.txt**. This file contains all the names + email addresses of your subscribers.

If you want to send messages to these subscribers gain, just import them to any account that you want. To import these subscribers to your autoresponder, just copy and paste the email addresses from the text file to your autoresponder, then click on the Import Prospects Button.

### What to do after you have configured the Autoresponder Settings :

After you have set-up everything in the Admin Control Panel you need to test first that your autoresponder is working.

From the Admin Control Panel, click on the the button **Generate HTML code**. **Copy and paste** the HTML code to the webpage where you wanted the subscription box to appear. Copy this to your **activation page**. Remember your Activation Page ? Go back to step 1 to review it.

#### Autoresponder: **test**

Copy and paste this code into your HTML document:

```
<form method="POST" action="http://www.buy-from-us.com/cgi-bin/version2/ar.cgi"><input type="hidden" name="mode" value="register"><input type="hidden" name="ar" value=test><div align="center"><center><table border="1" cellSpacing="0" bgColor="#COCOCO" cellpadding="2"><tr><td align="right"><font face="Tahoma" size="2">Name:</font></td><td><font face="Tahoma" size="2"><input type="text" name="user" size="20"></font></td></tr><tr><td align="right"><font face="Tahoma" size="2">Email:</font></td><td><font face="Tahoma" size="2"><input type="text" name="email" size="20"></font></td></tr><tr><td align="right" colspan="2"><div align="center"><center><p><font face="Tahoma" size="2"><input type="submit" value="Subscribe" name="B1"></font></td></tr></table></center></div></form>
```

Copy and paste the code into your HTML page where you wanted the subscription box to appear. Your subscription box will look like this. You can change how it looks.

Save your activation page and upload your webpage to your webhost.

Now you are ready to test if your autoresponder is working.

Open your browser and go to your webpage (or activation page)

Enter your name and email address in your subscription box.

You will be re-directed to the webpage that you specified in the Admin Control Panel "Redirect after registration to".

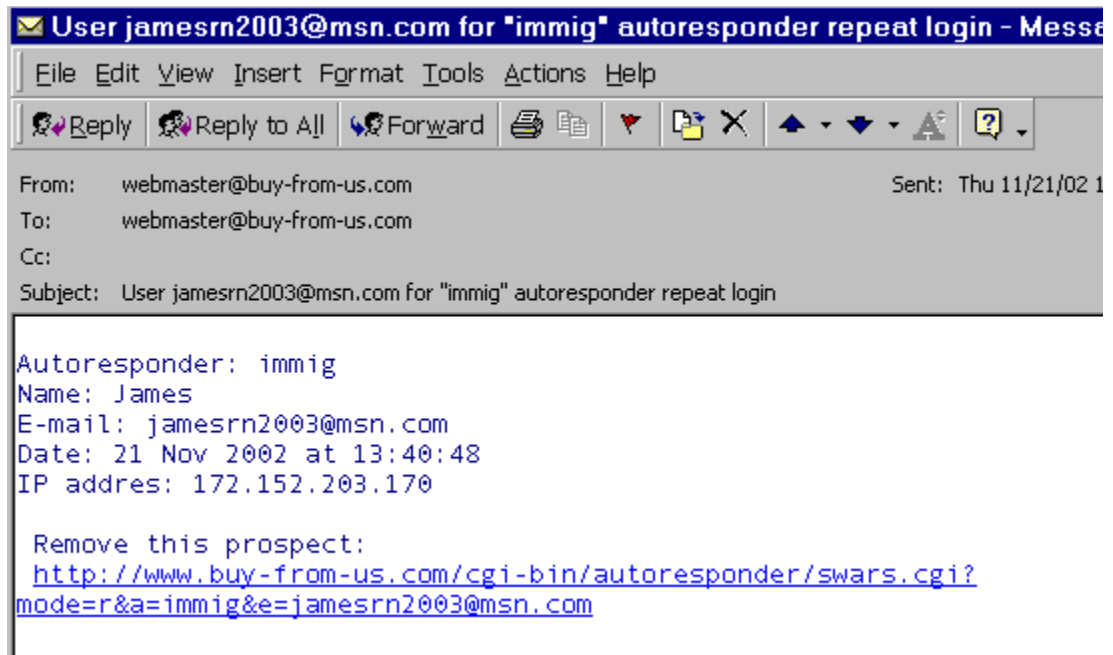

Now check your email box which you have specified in the FROM EMAIL in the Admin Control Panel.

You should receive the autoresponder message. This is the same message that your subscribers will receive. You will notice that there is a link at the bottom of the email to unsubscribe.

You will receive another email. Let's call this the admin email. Everytime someone subscribes, you will receive a notification email. There is also a unsubscribe link so you can also unsubscribe this subscriber.

If you don't want to receive any admin email after everyone subscribes, go back to the Admin Control Panel and uncheck the box "Send Report to Admin"

This is a sample email that you will receive everytime someone subscribes. You will notice that the email contains a lot of information about the user. I highly suggest that you keep this emails. You can also unsubscribe this user if you want by clicking on the link.

If you receive the first email, you know that the autoresponder is working.

Congratulations!

## Frequently Asked Questions:

### Why do I have to set the permissions ?

We have already set the correct permissions to the file. However sometimes after you unzip the files, these could be lost. Just be sure that you set the correct permission after you uploaded the files

### When I opened the cgi scripts in Notepad, it looks corrupt.

This can happen sometimes. There is nothing wrong with the files. Close the file that you just opened in Notepad. Just open the same file again in Wordpad.

You will see that the files looked fine now.

### I am getting an internal server error when I access the login page.

There is something wrong with one of the following:

- Check the config.cgi. Be sure that all the variables are set correctly.
- Check the page where you are activating the activate.cgi scripts.
- Check the permissions of each cgi script.
- Did you upload the scripts as ASCII and not binary? They should be uploaded as ASCII to work.

### How do I send an email to my subscribers every other day?

Login to your admin control panel.

Add a new account or edit the account that you have created.

Under the Add Message be sure to set the interval to 2,4,6,8

## **License Agreement:**

According to our lawyer we should put this here. When agreeing to purchase the software, you are agreeing to these terms.

### **Autoresponder Unlimited License Agreement**

THESE TERMS AFFECT YOUR LEGAL RIGHTS AND OBLIGATIONS

YOU SHOULD CAREFULLY READ THE FOLLOWING TERMS AND CONDITIONS BEFORE USING THIS PRODUCT. IT CONTAINS SOFTWARE, THE USE OF WHICH IS LICENSED BY THE 29<sup>th</sup> FLOOR ENTERPRISES TO ITS CUSTOMERS FOR THEIR USE ONLY AS SET FORTH IN THE LICENSE AGREEMENT BELOW (the "License Agreement").

INSTALLATION OR USE OF THE SOFTWARE INDICATES YOUR ACCEPTANCE OF THE TERMS AND CONDITIONS OF THE LICENSE AGREEMENT. IF YOU DO NOT AGREE TO ALL OF THE TERMS AND CONDITIONS OF THE LICENSE AGREEMENT, DO NOT INSTALL OR USE THE SOFTWARE.

This License Agreement is made between you and The 29<sup>th</sup> Floor Enterprises ("29thFloor "). We (the "Licensor", which term includes its authorized suppliers) is authorized to license the Software to you (the "Licensee").

#### **I. Definition of Product**

The term "Software" means the Autoresponder Unlimited product and may also consist of product documentation, tools and utilities, and miscellaneous technical information (each, a "COMPONENT," and collectively "COMPONENTS," of the Software). This Software License agreement defines your rights to the Software and the COMPONENTS the Licensee has elected to receive as part of the Licensees purchase.

#### **II. License to Use the Software**

Upon acceptance of this Agreement, 29thFloor hereby grants you a non-exclusive, non-transferable license and limited right to:

1. Install and use unlimited copy of the Software on unlimited servers, provided that:
  - You do not receive any payment from the user for use of the Software;
2. Make a single copy of the Software for archival purposes, provided:
  - The copy contains all of the original Software's proprietary notices; and
  - You maintain accurate and up-to-date records of the location of the copy made;

3. Receive the Software in more than one medium, provided that, regardless of the type or size of medium received, you may use only one medium and may not use, install, sell assign, sublicense, rent, lease, grant a security interest in, or otherwise transfer any right in the other medium(s).
4. Subject to Section II.1, operate simultaneously on, move, or upgrade the Software to other hardware platforms on which the Software may operate and/or move to other sites.

### **III. License Restrictions**

You agree not to (and will not allow, direct or authorize any third party to):

1. Use, or permit any other person to use, the Software, including permitting others to access the Software for their own purpose, except in accordance with the terms of this License Agreement;
2. Reproduce, adapt, vary, modify, decompile, enhance, translate, reverse engineer, reverse assemble, create a derivative work of, or otherwise attempt to discover any source code of the Software or communicate the same to any other person, or reduce the Software to human perceivable form;
3. Have any software or other program written or developed based on the Software or based on any of the confidential information referred to in section III 9.;
4. Copy or distribute the Software by any means, other than as permitted in subsections 2(a) and (b);
5. Sell, assign, sublicense, rent, lease, grant a security interest in, or otherwise transfer any right in the Software or distribute or network any portion of the Software or related materials;
6. Remove any proprietary notices or labels from the Software;
7. Install the Software on computers used by unlicensed and/or unauthorized individuals;
8. Use the name, or trade-marks of the Licensor or of any of its affiliates, licensors, third party content or service providers, distributors, dealers or authorized suppliers, ("Representatives") in any advertising, publicity releases, reference lists, media such as but not limited to CD-ROM or sales presentations, without its prior written consent;
9. You acknowledge and agree that the structure, sequence and organization of the Software are the valuable trade secrets of the Licensor. All information, data, drawings, specifications, documentation, software listings, source or object code which the Licensor may have imparted and may from time to time impart to you, relating to the Software or any other 29thFloor product, is proprietary and confidential. You agree to hold such trade secrets and proprietary information in confidence and further agree to use the same solely in accordance with the provisions of this License Agreement and will not at any time during or after expiry or termination of this License Agreement, disclose the same, whether directly or indirectly, to any third person without the Licensor's prior written consent.

### **IV. Additional Copies**

Additional copies may be purchased at any time during the term of this Agreement by contacting 29thFloor at [www.autoresponderunlimited.com](http://www.autoresponderunlimited.com)

### **V. Support and Maintenance**

29thFloor will provide support and maintenance for the Software for one full month after the purchase date.

## **VI. 29<sup>th</sup> Floor's Intellectual Property Rights**

The Software and each component part of the Software is the valuable proprietary intellectual property of 29thFloor. You acknowledge that any and all of the trademarks, including "OptinEmailCollector", trade names, copyrights, industrial designs, patents and other intellectual property rights used or embodied in or in connection with the Software shall be and remain the sole property of 29thFloor. You further acknowledge and agree that ownership of, and title to, the Software and all subsequent copies thereof regardless of the form or media are held by the Licensor. THIS LICENSE AGREEMENT DOES NOT GIVE YOU ANY INTELLECTUAL PROPERTY RIGHTS IN THE SOFTWARE OR ANY COMPONENT PARTS OF THE SOFTWARE. The Software is protected by copyright laws and applicable international copyright treaties, as well as other relevant intellectual property laws and treaties. The Software is licensed, not sold.

## **VII. Disclaimer of Warranties**

The Licensor makes no warranty with respect to the Software or its performance at any time. You acknowledge that Software in general is not error-free and agree that the existence of errors shall not constitute a breach of this License Agreement. YOU ARE USING THE SOFTWARE "AS-IS", AND AT YOUR SOLE AND EXCLUSIVE RISK, WITHOUT ANY WARRANTY FROM THE LICENSOR.

TO THE MAXIMUM EXTENT PERMITTED BY LAW, 29THFLOOR EXPRESSLY DISCLAIMS ANY AND ALL WARRANTIES, TERMS, OR CONDITIONS, EXPRESS OR IMPLIED, EITHER IN FACT OR BY OPERATION OF LAW, STATUTE, EQUITY OR OTHERWISE, INCLUDING, BUT NOT LIMITED TO, WARRANTIES, TERMS OR CONDITIONS REGARDING THE SOFTWARE, RELATED DOCUMENTATION, AND OTHER MATERIALS AND TECHNICAL SUPPORT, INCLUDING THEIR MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, SATISFACTORY QUALITY, OR NON-INFRINGEMENT OF THIRD PARTY RIGHTS. 29THFLOOR ALSO DOES NOT WARRANT THAT THE SOFTWARE SHALL PERFORM ERROR FREE OR WITHOUT INTERRUPTION, OR THAT IT IS FREE FROM BUGS, VIRUSES, ERRORS, OR OTHER PROGRAM LIMITATIONS, NOR DOES 29THFLOOR WARRANT ACCESS TO THE INTERNET OR ANY OTHER SERVICE INCLUDING THIRD PARTY SERVICES TO WHICH YOU MAY CONNECT THROUGH THE SOFTWARE. NO ORAL OR WRITTEN INFORMATION OR ADVICE GIVEN BY 29THFLOOR AND ITS LICENSORS, THEIR RESPECTIVE EMPLOYEES, DISTRIBUTORS, DEALERS OR AGENTS SHALL INCREASE THE SCOPE OF THE ABOVE REPRESENTATIONS, WARRANTIES OR CONDITIONS IN CONNECTION WITH THE SOFTWARE IN THIS AGREEMENT. 29THFLOOR MAKES NO REPRESENTATIONS OR WARRANTIES REGARDING ANY THIRD PARTY CONTENT, EVEN IF ACCESSED THROUGH THE SOFTWARE BY MEANS OF A LINK OR OTHERWISE, INCLUDING WITHOUT LIMITATION ANY REPRESENTATIONS OR WARRANTIES REGARDING THE OWNERSHIP OR FUNCTIONALITY OF SUCH CONTENT.

## **VIII. Limitation of Liability**

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, 29THFLOOR, AND ITS REPRESENTATIVES ALSO EXCLUDES FOR ITSELF AND ITS SUPPLIERS ANY LIABILITY HOWSOEVER CAUSED, WHETHER BASED IN CONTRACT OR TORT (INCLUDING NEGLIGENCE), PRODUCT LIABILITY OR OTHERWISE, AND SHALL NOT BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL, INDIRECT, SPECIAL, OR PUNITIVE DAMAGES OF ANY KIND, OR FOR LOSS OF REVENUE OR PROFITS OR INVESTMENT OR THE LIKE, LOSS OF BUSINESS, LOSS OF INFORMATION OR DATA, OF OTHER FINANCIAL LOSS OR PERSONAL INJURY ARISING OUT OF OR IN CONNECTION WITH THE SALE, INSTALLATION, MAINTENANCE, USE, PERFORMANCE, FAILURE, OR INTERRUPTION OF THE SOFTWARE, EVEN IF THE LICENSOR OR ITS AUTHORIZED REPRESENTATIVE HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

IN THE EVENT ANY EXCLUSION, LIMITATION OR OTHER PROVISION CONTAINED IN THIS LICENSE AGREEMENT SHALL BE HELD TO BE INVALID FOR ANY REASON AND THE LICENSOR OR ITS REPRESENTATIVES BECOME LIABLE FOR LOSS OR DAMAGE, SUCH LIABILITY IS LIMITED TO THE AMOUNT OF THE LICENSE FEE PAID BY YOU FOR THE SOFTWARE AND NO MORE.

#### **IX. Indemnity of Licensor**

YOU AGREE TO INDEMNIFY 29THFLOOR FROM AND AGAINST ANY AND ALL CLAIMS, PROCEEDINGS, ACTIONS OR DEMANDS WHICH MAY BE BROUGHT AGAINST 29THFLOOR, AND AGREE TO INDEMNIFY AND HOLD 29THFLOOR HARMLESS FROM AND AGAINST, ANY LOSSES, REAL OR PERCEIVED, THAT OCCUR, OR THAT 29THFLOOR MAY SUFFER, SUSTAIN OR INCUR, AS A RESULT OF, OR ARISING OUT OF, YOUR USE OF THE SOFTWARE OR YOUR BREACH OF ANY OF THE TERMS OF THIS AGREEMENT, INCLUDING WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, WORK DONE IN ACCORDANCE WITH YOUR SPECIFICATIONS INVOLVING INFRINGEMENT OF ANY COPYRIGHT, PATENT OR OTHER PROPRIETARY RIGHT OF A THIRD PARTY.

#### **X. Force Majeure**

The Licensor shall be under no liability to the Licensee in respect of anything which may constitute breach of this License Agreement arising by reason of force majeure, namely, circumstances beyond the control of the Licensor.

#### **XI. Terms and Termination**

This license is effective upon installation of the Software and is effective until terminated. You may terminate it at any time by destroying the Software and documentation together with all copies and all of its component parts. It will also terminate immediately if you fail to comply with any term, condition or provision of this License Agreement.

Immediately upon termination, you agree to destroy the Software and all copies thereof, and all other tangible items and materials in your possession, power, or control embodying the Software, including all of its component parts. Your obligations in Sections III and VI shall survive termination.

#### **XII. Export Restrictions**

You acknowledge and agree that the Software is subject to restrictions and controls imposed by U.S. and Canada export and import laws. You agree to comply with all applicable international and national laws that apply to the Software, including U.S. and Canada export regulations, as well as end-user, end-use and destination restrictions issued by Canada and the U.S. and other governments.

### **XIII. Assignment**

You may not assign, sub-license or otherwise transfer this License Agreement or any rights hereunder without the prior written consent of the Licensor.

### **XV. Waiver**

Failure or neglect by either party to enforce at any time any provision of this License Agreement will not be deemed a waiver of that or future enforcement of that or any other provision.

### **XVI. Headings**

Headings are inserted for convenience of reference only and are not intended to be part of or to affect the meaning or interpretation of any of the terms and conditions of this License Agreement.

### **XVII. Entire Agreement**

This License Agreement constitutes the entire agreement of parties with respect to the subject-matter set out herein and replaces and supercedes any and all prior or contemporaneous oral or written agreements, representations, negotiations or other dealings between you and 29thFloor.

### **XVIII. Invalidity of Provisions and Severability**

In case any of the provisions of this License Agreement should be invalid, illegal or unenforceable in any respect, the validity, legality or enforceability of the remaining provisions contained herein shall not in any way be affected or impaired thereby.

### **XIX. Applicable Law**

This License Agreement shall be subject to, construed by and enforced in accordance with the laws of the Province of Alberta, Canada, and the parties do hereby irrevocably submit and attorn to the jurisdiction of the courts of the Province of Alberta for all matters arising out of or in connection with this License Agreement.

### **XX. Amendment**

This License Agreement can only be modified by a written instrument signed by you and the Licensor.

Thanks for purchasing the AutoresponderUnlimited software.
