Sales letter for
“Instant Publisher Business-In-A-Box”

Dear Friend,

As you can see, I have attached a ONE MILLION DOLLAR BILL to the top of this letter. Why have I done this? Well, there are two reasons:

1. I have something very important to tell you and I needed some way to get your attention.
And . . .
2. Since this letter is all about you earning some serious money with very little effort, I thought that using a Million Dollar Bill as an "eye-catcher" was especially appropriate.

Announcing the ultimate "Business-In-A-Box" for cashing-in like never before . . .

"Now You Can Earn Profits Of Over 12,000% By Owning The Rights To This One-Of-A-Kind Product That Practically Sells Itself"

Hi! My name is COLLIN ALMEIDA. I've been in the Direct Mail business for over ten years and I'm always on the look-out for the "ultimate" product.

You know, that once in-a-lifetime product... The kind of product that sells itself, has tremendous profits, makes customers happy, and can be offered on full auto-pilot roll-out.

While these types of products do exist, they are extremely rare, and most people in this business never get to feel the thrill that comes from the tidal wave of responses this type of product generates.

Subscribers to my marketing newsletter often call me wanting to know what is the quickest and easiest way to get into the direct mail business and earn a lot of money.

Until recently, I had a hard time coming up with an answer except to say, "Have the right product at the right time." And even that answer wasn't really enough.

See, these days, the definition of the right product is a lot different than it was just a few years ago. The market has changed, consumers have changed, and even the methods of advertising products and taking orders has changed.

And this is good news! . . .

You see, getting into the direct mail business is now easier than ever. With all the exciting new methods of reaching customers (e-mail, fax, the Internet, CompuServe, etc.), making real money with a direct mail project can be accomplished without ever leaving your desk!

Of course, even with all the great new methods of reaching customers, you still need the right product at the right time. And that's the hitch. It's hard to find the right product.

By: Michael Kimble

Ask anyone in the business and they will tell you the same thing. (Yes, there are a lot of products out there. But most are, at best, a waste of time.)

Basically, it boils down to this . . .

If you want to make money in direct mail, and you want to make it quickly, you need to find the right product and offer it to the right market at the right time.

And that's what this letter is all about . . . helping you find the right direct mail product (and project) for these times. A project you can roll-out effortlessly and make a lot of money quickly!

But before we go into that, let me share with you what I think are the key characteristics of the "right" direct mail project. See how many on this list you agree with.

Checklist For Finding The "Right" Direct Mail Project . . .

The "Right" Direct Mail Project will have all of the following characteristics:

- ◉ Potential customers want the product so badly they will respond to any ad that offers it! (This means you don't have to buy expensive ads. Simple, low-cost ads will do!)
- ◉ The product has such a high perceived value almost any price you charge seems like a bargain! (Customers value the product so highly they are happy and eager to pay your price!)
- ◉ The product appeals to people who have money, and who want to spend it now! (If you don't think this is important, try selling something to people who don't have money!)
- ◉ The product costs you only a fraction of the selling price! (You want a large enough profit so it only takes a few sales to make serious money!)
- ◉ The product is easy to ship, and easy to keep on hand. (You shouldn't have to worry about renting a warehouse to store inventory, or worry about how difficult it is to package and ship the product. You want it to be easy -- a "no brainer".)
- ◉ The product requires no support, and is self-sufficient. (You sure don't want to spend hours on the phone with customers explaining how to use the product!)
- ◉ You can handle customer orders using an order taking service. (When hundreds of phone orders start coming in, you don't want to be the one who has to take all the calls!)
- ◉ Your customers call you back and order more. (When your customers actually get their hands on your product, you want them to be so impressed with what they

received that they'll call you back and order more! You can double your profit on each sale by having the next product (the back-end) ready for them when they call!)

So what do you think? A pretty good wish list, right? And wouldn't you love to find a direct mail project with all these characteristics?

Well, if your answer is "Yes", then you're going to love the rest of this letter!

If your answer is "no", then read on anyway. I guarantee you will be entertained and you might be surprised at what you discover. (But how could you not be interested in a product with all these characteristics?) Anyway . . .

The direct mail business is a real adventure.

Much like panning for gold. When it works, when you find gold in your pan, it's a lot of fun! And even when there's no gold in your pan, you're learning. You're learning how to pan, where to pan, and even what size pan to use.

So, I've been doing a lot of panning lately. And I've found a lot of gold. (Coming up with successful projects seems to get easier the more you do!) But more important than finding gold, I've come up with what I think is a better way to find gold in the first place.

And that way is to . . .

Sell Something To The Other Gold Miners!!!

While all the other miners are knee deep in mud panning for gold, I want to be the one standing on dry land selling them the pans (or any other supplies they need).

This is the way fortunes were made in the Old West. (Levi Jeans to name just one.)

And it is the way fortunes are still being made today. By selling the tools miners (or entrepreneurs) need to find their fortune.

And that's what the "ultimate" product is all about. Showing YOU how to be the one who's selling the tools needed to make money!!!

Here's How It Works:

You know all those books, reports, and manuals you see advertised in the back of most magazines? The ones that show you "How To Start Your Own Direct Mail Business", or "How To Start Your Own Newsletter", or "How To Make \$40 An Hour With Your Video Camera"? Well...

Those books and reports are the back-bone of the direct mail business. They have been around forever, and continue to be one of the easiest and most profitable ways for people to get into the direct mail business.

It's a fact. Ask almost anyone in the direct mail business today, and they'll tell you they got their start by running small ads for reports like, "How To Get Government Land Free" or "Sure Fire Ways Of Raising Instant Cash".

And they'll also tell you the things they learned, and the money they earned from these ads led to bigger and better projects. But these first ads, they were the starting point.

Anyway, just about everyone has heard success stories about people selling these reports. (Have you heard the one about the housewife who sold 112,000 copies of a guide to grocery store coupons?)

It is these stories, plus the ease of actually doing it, that tempts so many people to start out in this business by placing small ads offering various "how-to" books and reports.

And that's where The Ultimate Direct Mail Project comes in . . .

See, because there are an estimated 30 million people wanting to get into the direct mail business, and most of these people will get their start selling how-to publications, we decided to put together the "ultimate package" that would appeal to them.

We did a lot of research, contacted writers and publishers, and after extensive negotiations (involving transfers of money), we were able to acquire the . . .

Reprint And Duplication Rights To Over 750 How-To Books, Reports And Manuals!!!

That's right, we secured the reprint and duplication rights to over 750 "how-to" books, reports and manuals, the kind you see advertised in the backs of all the magazines!

The subjects of these publications range from "Money Making" and "How To Get Into Business", to "How To Lose Weight" and "How To Have Better Health".

Like I said, these are the kind of books and reports you see advertised just about everywhere. Many were written by well known authors, many by unknowns.

But all have one thing in common . . .

For Every One Of These Reports, There's Someone, Somewhere Willing To Pay For Them!

Just to give you an idea of the wide appeal of these reports, here are just some of the titles:

As you can see, there are some pretty interesting (and marketable) titles on this list. Probably titles you've seen for sale and maybe even a few you've bought yourself!

Anyway, I've obtained the rights to all of these publications, and I decided to make them (along with hundreds more!) available to entrepreneurs who wanted to try their hand at selling them.

But, this is NOT the ultimate product! This is just a small part of it. The real product turns out to be much bigger!

It starts with a CD-ROM (an IBM compatible CD that runs in both Windows and Windows 95) we created called the ...

**"Instant Publisher CD-ROM:
750 How-To Books, Reports, And Manuals
You Can Reprint & Sell"**

With the "Instant Publisher CD", you can quickly review, edit, or print any of the 750 books, reports, and manuals. Once printed, these publications can be sold, given away, or distributed in any way, without any royalty payments due ever!

This means anyone anywhere in the world, armed with this CD-ROM, a computer and printer can instantly be in the business of selling books and reports!

And while this is a pretty appealing product in itself, the price makes it even more appealing.

You see, the price for this magic CD-ROM containing "750 How-To Books, Reports, And Manuals You Can Reprint & Sell", is just . . . \$149!

But, this is not for you!

See, while this is a great product anyone in any way connected with the information business absolutely must have, it is not for you! (But just imagine owning 750 publications you can reprint and sell any way you want!!! You could use these as stand-alone products, premiums to help sell other products, lead generators, or any other way you wanted . . . the choice is yours!)

But the truth is, you don't want to buy this CD-ROM. Not if you want to make real money. If you want to make real money, and make it for a long time, you want to be selling this CD-ROM to others!!! (Remember, you want to be the one selling the tools to the miners!)

You want to be the one getting \$149 from the legions of customers who will want to buy this kind of high-value product. You want to be the one who's running ads that say . . .

750 How-To Books, Reports, And Manuals You Can Reprint & Sell. Complete text with ready to use ads. Get all 750 on CD. Call 1-(512) 328-4442 for a FREE info pack.

Imagine what would happen if you had this ad running in almost any magazine, newspaper, or newsletter. Or on the Internet, or on CompuServe (or just about anywhere else!).

The results could be overwhelming! And also quite profitable!

Here's how easy it is . . . (This is just one of several ways you can sell the CD!)

Prospects will read your ads and call your answering machine or voice mailbox requesting the FREE info pack. (You can get a voice mailbox for about \$10 per month. And, we'll even recommend a voice mailbox service that will transcribe all the names and addresses of your prospects and fax them to you on a daily basis!)

Once you start getting a response from your ads, you'll immediately want to send your prospects one of the direct mail sales letters we supply to you.

Assuming you had an ad like the one on page 5 running in a few magazines, you would want a way to take and process the orders. The easiest way, the way that guarantees the most orders with the least work, is to use an order taking service.

The one we recommend you use, will provide you an 800 number, answer calls, and take orders 24 hours a day. And, at your request, they will even . . .

Accept And Process Credit Card Orders For You!!!

That's right! The order taking service we recommend can do it all!

With this service, you do not need to have a credit card merchant account! Because, they'll accept and process all credit card payments on their merchant account for you!

All you need is a fax machine so they can fax you copies of all the orders they take for you. (Every two weeks this service sends you a check for all the credit card orders they processed for you!)

Using a service like this frees you from the responsibility of setting up an office, hiring employees, buying and installing phone equipment, and getting involved with other negatives of running a business. (Plus, it will give you time to enjoy the fruits of success a project like this can deliver!)

Running on auto-pilot like this means all you have to do is check your fax machine once a day, ship all the orders that come in, and make out your bank deposit! And that's why this is . .

The Ultimate Direct Mail Project!!!

Once you start, it basically takes care of itself!!! (Of course, you'll have to remember to keep placing those low cost ads each month.)

Let's Take A Look At The Profit Potential:

OK. So you know about the product. You've seen one of the ads, and you've seen how you can run this project on full auto-pilot. But what about the profit potential? How much money can you make?

Well, let's see . . .

The CDs sell for \$149 each. If you get just one order each day, you'll earn \$4,470 a month. If you get two orders each day, you'll earn \$8,940 a month. And should you get just four orders a day, you'll earn a whopping \$17,880 a month!!!

Of course, you'll have to deduct the cost of the CDs from each \$149 sale. The CDs cost (and this is real embarrassing for me to admit) \$1.15 each.

This means you earn about \$147 from each sale!

Let me repeat that. Each time someone orders the CD, you earn almost one hundred-fifty dollars!!! (That's a profit of over 12,000%!!!)

Which means, if just 100 people place an order . . .

You Earn Almost \$15,000.00!

And, if just 1,000 people place an order . . .

You Earn Almost \$150,000.00!!!

And best of all, you won't have to work too hard to do it!

You just fill the orders when they come in. Filling the order means writing the customer's name and address on a CD-ROM mailer (these cost 23 cents each), placing a copy of the CD-ROM into the mailer, adding 55 cents postage, and mailing it. That's it!

Each time you do that, you earn \$147! (If you wish, you can have the order taking service ship the CDs to your customers for you!)

And, when your customer gets the package and tries the CD-ROM, he'll be so happy with what he sees, he'll often call your order taking service and ask if you have any other products you can sell him! (Your answer will be yes! Keep reading!)

One thing's for sure: Your customers will love the "Instant Publisher CD"! Here's what they're saying:

"I just received the 'Instant Publisher CD-ROM' and I love it! This jam-packed, full of information CD gives me more money-making information than I'll ever need! I can read the reports and absorb all the knowledge; and, I can sell them and keep all the profits!"

Kevin Wright, Oklahoma

"The 'Instant Publisher CD' is one of the most phenomenal products I've ever seen! If anyone has any kind of need at all for 'how-to' information, this is the CD to have. What's exciting is the fact that the information on the CD can be reprinted and sold. I give it two thumbs up all the way!"

-- Millard Grubb, Illinois

"The 'Instant Publisher CD' is loaded with good, useful information. I am quite impressed with the quality of the reports on the CD. I'm using the reports as bonus items with one of my products."

-- Reed Schwartz, Washington

Think about this: For the bargain price of \$149, your customers get a "library" of 750 how-to publications that are easily worth thousands of dollars. And on top of that, your customers

By: Michael Kimble

can reprint and sell these publications . . . and they keep all the profits!

By now, you're probably wondering . . .

**"What does it cost to get involved with this
Ultimate Direct Mail Project?" . . .**

Well, I've got some good news. Getting involved with this "Business-In-A-Box" is going to be very affordable. Here's why:

The last CD-ROM reprint rights package I offered required an investment of almost \$5,000. For the people who could afford this kind of an investment, it represented a tremendous bargain. They received the reprint rights to seven top CDs, and a starting inventory of 350 CD-ROMs.

And, they could sell directly to the big guys . . . Wal-Mart, K-Mart, QVC, and the Home Shopping Club. Already, I've heard some pretty amazing success stories from people who invested in those rights.

But this time, I felt an obligation to offer something more affordable, something in a price range people could be comfortable with, especially if they were just starting in this business. But in order to do that, I had to place one restriction on this package. And that restriction is . . .

The "Instant Publisher CD-ROM" can be sold only to end-users. It can not be sold to distributors, wholesalers, or anyone else for resale. That means you can run ads forever, and sell to everyone who responds to your ads, but . . . you cannot sell these CD-ROMs to resellers.

And actually, this is good for you. That's because not only does this restriction allow me to offer this product at a comfortable price, but it also protects you from anyone who might try to flood the wholesale market with copies of this CD-ROM.

In a nutshell . . .

**This "*Business-In-A-Box*" puts you in the business of selling
a high-value, high-profit CD-ROM to eager consumers.**

You do NOT need a computer, or any computer experience. And we get you started by supplying you with everything!

Here's what you get with your CD-ROM "Business-In-A-Box":

1. You get a "**License Certificate**" giving you the legal right to reprint, duplicate, and distribute our CD-ROM called the "Instant Publisher CD: 750 How-To Books,

Reports, And Manuals You Can Reprint & Sell".

2. You get a **starting inventory of 50 copies** of the "Instant Publisher CD: 750 How-To Books, Reports, And Manuals You Can Reprint & Sell". These first 50 CDs will give you enough inventory to earn almost \$7,500.00!!! After that you can replace the CDs in your inventory for \$1.15 each!

3. You get a **Silver "Master" CD-ROM** of the "Instant Publisher CD: 750 How-To Books, Reports, And Manuals You Can Reprint & Sell". You can use this master disc to have additional CDs made!

4. You get a **sample of the Ready-To-Ship Package**. This shows you how to package and ship this product so you can create maximum customer satisfaction and generate additional profits!

5. You get an easy-to-follow **Marketing Guide for the "Instant Publisher CD: 750 How-To Books, Reports, And Manuals You Can Reprint & Sell"**. This 3-ring binder book gives you everything you need to successfully market this CD-ROM. Here's a sample of what you'll find in this comprehensive book:

a) **Ready-to-use direct mail sales letters, display ads, and classified ads** (with suggestions on where to place the ads)! These camera-ready ads have already been tested and proven for you! Use them to immediately start making money!

b) **A ready-to-mail press release**. Use this to get free publicity (and generate more orders) for the "Instant Publisher CD: 750 How-To Books, Reports, And Manuals You Can Reprint & Sell"!

c) **How to start marketing the "Instant Publisher CDs" on a \$150 budget!** This simple plan will show you how to start selling your CD-ROMs with a total, out-of-pocket marketing budget of only \$150 (or less)!

d) **A step-by-step plan for putting this project on "auto-pilot"**. This includes the name of the company that will process your orders. And remember, they can even process VISA, MasterCard, and American Express orders for you on their merchant account!

e) **Where and how to get CD-ROMs reproduced for as low as 80 cents per CD!** Plus, the phone number of our CD-ROM duplicator, where you can order CDs in quantities as little as 250 and won't have to pay a mastering fee!

6. And, you get **unlimited telephone support from me for one full year!** If you have any questions about marketing, mailing lists, or whatever, just call me! However I can help you, I will. You are not alone with this project!

As you can see, this "Business-In-A-Box" gives you everything you need to succeed! There's nothing left to chance and there's nothing for you to guess about!

When you get your package, all you need to do is open the box, set-up your order taking system, and place the ads. It's that simple!

The Investment . . .

As I mentioned earlier, we wanted to make this project affordable. We have been able to do so by restricting your sale of this CD to end-users only.

By making this restriction, we are able to offer this complete "Business-In-A-Box", with all the components, for a one-time investment of just . . . \$995. (You only have to sell seven of the CDs in your starting inventory to recover your investment! You can easily do that in one week!)

Let's take a look at the profits you'll earn:

I've been extremely successful at selling the course for \$397. Of course, you can sell it for any price you wish. (Just to give you something to compare it to -- I know of one marketing course with 18 audio tapes that's being sold for \$997.00!)

If you sell the course for the bargain price of \$397 . . .

You'll Earn A Whopping \$359 On Each Sale!!!

This is a VERY profitable product for you to own! The potential for you to make a ton of money with it is incredible!

Now you may be wondering . . . why am I willing to offer you the reprint rights to this goldmine? (My wife, Denise, wanted to know the same thing.)

Well, the answer is quite simple. There are literally millions of potential customers for the Direct Mail Bootcamp. And, there's no way you, me, or any other licensee can reach them all. (Even if we marketed the course like crazy for the next 10 years!)

You see, direct mail is a BIG, BIG business! The other day, the Direct Marketing Association faxed me a report that said . . .

390 BILLION DOLLARS Worth Of Goods & Services Were Sold By Direct Mail In 1997!!!

Can you imagine that? 390 BILLION DOLLARS!!! Because direct mail is such a powerful medium, there's a tremendous demand for the type of insider information that's found in the Direct Mail Bootcamp Home Study Course.

And what's interesting is this: The demand for direct mail know-how appeals to all kinds of people. For example, I've sold the Direct Mail Bootcamp to dentists, advertising executives, chiropractors, sales professionals, real estate agents, accountants, and even to a couple of college students. It seems like everyone wants to know how to succeed with direct mail!

Let's Do Some Brainstorming! . . .

One way you can easily sell the Direct Mail Bootcamp course is by marketing it to the 9.5 million small business owners who are out there! Also, there are an estimated 37 million opportunity seekers in the U.S. that are hungry for the information found in the Direct Mail Bootcamp! (With tens of millions of people to market to, it should be easy for you to consistently pull in over \$100,000 per year!)

Any business or individual who wants to attract new customers, prospects, clients, patients, etc., AND/OR sell more of their products or services, is a prospect for the Direct Mail Bootcamp.

The bottom line is this:

You're going to make a lot of money with the Direct Mail Bootcamp! There's a BIG, hungry

market for direct mail "know-how". (And it's growing each year!) When you own the rights to this course, you become the supplier of that know-how.

Here's what you get with your Direct Mail Bootcamp Business-In-A-Box:

You simply mail the sales letter to these leads.)
6. You get **reprint rights to all of the glowing testimonials**. (The testimonials you'll own the rights to are enclosed with this letter.)

As you can see, you get a LOT more than just reprint rights. You get a complete "Business-In-A-Box" that gives you everything you need to succeed! There's nothing left to chance. And there's nothing for you to guess about.

And here's the best part: This new "Business-In-A-Box" can run on . . .

Full Auto-Pilot!!!

Once you start mailing out the sales letters, you're going to need a way to take and process all the orders you get. The easiest way, the way that guarantees the most orders with the least amount of work, is to use an order taking service.

One of the services we recommend you use, will provide you with an 800 number, answer all calls, and take orders for you 24 hours a day. And, at your request, they will even . . .

Accept And Process Credit Card Orders For You!

With this order taking service, you do not need to have your own credit card merchant account. Because, they will accept and process all credit card payments on their merchant account for you! (Every two weeks this service sends you a check for all the credit card orders they processed for you!)

When all the orders start coming in, you can have the tape duplicator that we use ship the Direct Mail Bootcamp to your customers for you (for about \$38). Remember, our duplicator keeps the entire course in stock (books and everything). This means you do not need to invest in an inventory. And, you don't have to bother with fulfilling all your orders -- they'll do it for you! (Under your mailing label.)

You'll Never Find An Easier, Sure-Fire Way To Earn This Kind Of Money!

If you're looking for a reliable way of making some serious money with almost no effort required, then THIS IS IT! The Direct Mail Bootcamp is a HOT product with a golden track

record! It's extremely profitable! It appeals to millions! And, it runs on full auto-pilot.

Right now, you can own the complete Direct Mail Bootcamp Business-In-A-Box for a one time investment of \$2,277.

As you can see, I've kept the investment for this "Business-In-A-Box" as low as possible. I know I could charge more for this package -- a lot more. Here's why:

First of all, the sales letter you get, the one written by Bill Myers, is valued at \$10,000.00! (But, it's worth much more than that.)

You see, Bill's copywriting fee for writing an 8-page sales letter is a . . .

Non-Negotiable \$10,000.00!

As you know, most good direct response copywriters (the ones who know how to write killer copy) charge anywhere from \$3,500.00 to \$15,000.00 just to write an 8-page sales letter. And then, after they write the letter you still don't know how well it'll work. You'll have to test it.

With this package, you get a sales letter that has already been tested and proven for you -- numerous times! It's a letter that's pulled in hundreds-of-thousands of dollars in sales! IT IS A PROVEN WINNER!!!

For the one-time investment of \$2,277, you get reprint rights to a sales letter that practically sucks money out of peoples' wallets... PLUS, you'll own reprint rights to the most comprehensive course there is on the subject of direct mail! You get a complete "business-in-a-box" for much less than what most copywriters charge just to write a letter!

And listen to this: A while back, two reprint rights licenses were offered for the Direct Mail Bootcamp videos. Those two licenses quickly sold for . . .

\$18,000.00 each!!!

(One of those Licensees has already earned over \$300,000.00 selling the Direct Mail Bootcamp!!!)

Right now, you have an opportunity to own the entire Direct Mail Bootcamp Business-In-A-Box for a fraction of \$18,000.00! And, the sky's the limit on how much YOU can earn!

This "Business-In-A-Box" is complete and ready-to-go. All you do is open the box and plug into the simple, auto-pilot marketing plan. The next thing you know, you'll be filling out deposit slips for all the orders you receive.

To obtain the rights to this package, you can use your VISA, MasterCard, American Express,

Discover card, or we can even take your check over the phone or by fax.

And to make it easy, you can use our **"Easy Installment Plan"**. This allows you to pay in three equal monthly installments of \$759.

Once you own the duplication and reprint rights, there are no on-going royalties or fees. And, there is no limit to the number of courses you can sell! You own the product and you keep all the profits!

Dear Friend,

If you can use more new customers... and I mean TONS of new customers, I've got great news for you. Now there's a powerful, inexpensive new way to bring in all the highly qualified leads you'll ever need. The kind of leads that will rocket your sales right off the charts!

Think of what this means. Instead of pouring money down the drain trying to bring in new business, your lead generation programs will actually be extremely profitable. In fact, by using one of the strategies I'll show you, prospects will gladly pay you to add their name to your house list!

And that's not all. I'll also show you how you can pay yourself a handsome bonus for using this remarkable program to increase your sales and profits! (I'll give you ALL the details a little later in this letter.)

Now, I know all of this might sound a bit incredible, especially if you're struggling with traditional techniques to try and bring in more new business. But I assure you that once you have all the facts, you'll be amazed how easy it really is.

The COSTLY TRUTH About Bringing In New Business . . .

There's this myth that high quality leads are easy to get. You know, just run an ad or two, or mail an offer to a rented list, and you'll be swamped with new business.

Unfortunately, nothing could be further from the truth. These days the cost of advertising, the declining quality of mailing lists, increased postage costs, and stiff competition make getting leads much more expensive and far more difficult than ever before.

This probably comes as no big surprise to you. Because if you've done any lead generation lately, you've probably produced mediocre results, if not a complete disaster.

Let's face it, if it was so easy to pull in hordes of new customers, everybody would be rich. But you and I both know that simply is not the case.

The problem is, regardless of what kind of business you're in, to keep growing and increasing your profits, you must keep bringing in a healthy flow of new customers.

By: Michael Kimble

With people moving, switching to your competition, and dropping out of the marketplace as their interests change, you're faced with a monumental challenge: either keep bringing in a steady stream of new customers or risk going out of business.

A Foolproof Way To Bring In More And More New Business

Fortunately, there is an answer. Over the past two years, I've tested and perfected TWO powerful lead generation mailing formats that produce explosive results. I've put these formats into a manual with foolproof step-by-step instructions called the **New Business Power Marketing Program**.

Frankly, these two deceptively simple formats work so well, you'll never again have to worry about getting all the new customers you need. In fact, many times when I've used these formats, the flow of new business has been so immense, I simply couldn't handle it all at once. I literally had to stop running the program! Be prepared, you may have to do the same.

Just as important, these formats won't cost you an arm and a leg to use, either. Besides producing phenomenal results, they're dirt cheap to put into action.

Here's The Difference That Makes This Program So Much More Profitable Than Anything Else You've Ever Seen:

I'll be very frank with you. The lead generation techniques that are being taught and used today just do NOT work. If they did, you'd be rich, not frustrated!

The problem is that the marketing books and the so-called "experts" continue to rehash the same twenty year old techniques. But here's something you can bank on: if those techniques aren't working for you now, there's no miracle that's going to make them work any better in the future. Stick with them, and you put your business at serious risk.

What's so different about the **New Business Power Marketing Program** is that two years and tens of thousands of dollars were spent to develop, test, and finely hone it into a blockbuster System that will literally BRING YOU MORE NEW BUSINESS THAN YOU CAN HANDLE.

As I mentioned earlier, the flow of new business can be immense when you use these powerful formats. Many times, they've produced such massive response, I actually had to cut back my program in order to keep up with the flow of new business!

The best news is, the **New Business Power Marketing Program** is incredibly simple and inexpensive to put into action. You could easily have it up and bringing in new customers within a week! And your marketing costs are just a fraction of what you'd pay to run ordinary lead generation programs that get mediocre results.

Here's How To Start Boosting YOUR PROFITS Right Away

This program was specifically designed to make sure you increase your sales and profits in the shortest time possible. These powerful formats can be put into action IMMEDIATELY.

All you need to do is spend about 30 minutes reading the manual that shows you how to put the system into overdrive immediately. Then, select the format that best suits your business and kick it into high gear.

The **New Business Power Marketing Program** works for any type of business. If you sell by mail, it will work like crazy. If you have a service business, it will grow your client list by leaps and bounds in record time. Do you own a retail store? Then get ready for an amazing surprise, because this program will increase store traffic like nothing you've ever seen.

The fact is, this program is so powerful and so flexible, I can't think of a single business that couldn't get immense benefit from it immediately.

The manual for this program is designed to get you up and bringing in more sales in record time. After quickly but thoroughly showing you why these two lead generation formats work so well, the manual gets right down to clear, step-by-step instructions on precisely how to use them in your business.

Here are the powerful advantages you'll gain by using this program:

- ◎ **You'll generate more HIGH-QUALITY leads than you ever dreamed of by using these two powerful formats.** Each format is laid out and explained in comprehensive detail.

You get samples of the two advertising pieces I actually use to generate tons of leads for my own business. All of the copy is there for you to use word for word. But that's just the start. Next, each sample piece is broken down block by block. Each block is thoroughly explained so you understand precisely why it works and why it's critical that you create your own pieces in the precise order that's given to you.

- ◎ **Foolproof directions for customizing both formats to gain maximum advantage for your own business.** The examples used in the manual to illustrate the techniques are the same pieces I use in my own business. And to make sure they'll work for your business, you get detailed instructions that take all the guess work out of customizing them.

You get all the details on how to customize BOTH formats for mail order businesses, retail businesses, and service businesses. Nothing is left to chance. Using this system, you'll be able to adapt each format to the specialized needs of your own business in about an hour. This lead generating system works for ANY business!

- ◎ **Start pulling in more sales and profits super fast.** The manual for profiting from these formats is lean, tight, and right to the point. Quite frankly, it doesn't take all that much space to lay the formats out in comprehensive detail.

So your time is not wasted with a bunch of fluff or filler. What you get are both lead generation formats and precision instructions for using them to make the most money for your business.

- ⦿ **Discover how to get prospects to actually pay you to have their name added to your house list.** This technique eliminates all your costs and turns lead generation from a losing proposition to a lucrative profit center. Proven in the trenches, you'll love what it does for your bottom line!
- ⦿ **BONUS! You also get a SPECIAL REPORT called, "Secrets of Converting More Prospects To Cash Paying Customers."** This Report reveals insider information for getting maximum sales from the leads you generate. This is new information that's never been written about before. It's yours FREE, but only for the next 7 days!

Here's The Bottom Line...

The **New Business Power Marketing Program** gives you everything you need to hit the ground running and bring in truck loads of new business immediately.

Think about this for a minute. What would it be like to have the confidence of knowing your lead generation program is as effective as possible... that you never have to worry again about having enough business... that, at will, you can run circles around your competition and they'll never know what hit them!

How would you feel knowing you are one of a select few who can count on increasing your profits year after year rather than blowing a major hole in your bank account? How would you feel having to scramble to hire more employees to keep up with all the new business even if everyone else seems to be laying off their best people? I know you'd feel great!

This is precisely what you'll gain from this powerful new program. In this very real sense, the **New Business Power Marketing Program** will change your life and your employees' lives forever.

Here's How To Get Started

You can start bringing in all the qualified leads you can handle for as little as \$297. There are three different program options:

Silver Program \$ 297
Gold Program \$ 497
Platinum Program \$1497

The Silver Program

The Silver Program includes everything I just told you about. You get both formats, actual copies of each format the way I use them in my own business, the comprehensive manual, plus the Bonus Report, "Secrets Of Converting More Prospects To Cash-Paying Customers."

The Gold Program

Earlier, I said I'd show you how to pay yourself a handsome bonus for using this program. Here it is! You get everything that's in the Silver Program plus the right to resell all three of these programs at a full 50% commission.

Just use the complete marketing materials I'll provide you with to make your sales. Then, keep your 50% and send the other half to my office, and we'll ship your orders within 24 hours. Look at it this way. Just two orders of the Silver Program pay you back your entire investment!

The Platinum Program

If you want to reap maximum profits, this is the program for you. It includes all the goodies from the Silver Program, **plus unlimited reproduction rights for all three programs!**

With unlimited reproduction rights, you get the masters for reproducing each program. Best of all, you fill your own orders and you keep every cent you take in on every sale! Plus, you get a COMPLETE MARKETING PLAN AND SALES MATERIALS TO MAXIMIZE YOUR PROFITS.

Here's why all three programs give you the best bargains you'll ever find. If you were to hire me to create either of these powerful lead generation formats for your business, it would cost you a minimum of \$4,000. Together, these formats represent at least \$8,000 worth of value.

In addition, you don't have to do any costly testing to prove these formats work. I've done all the work for you by investing tens of thousands of dollars to test, fine tune, retest, and perfect these formats. You're getting the exact formats and word-for-word copy I've used to DOUBLE THE PROFITS of my own business.

Plus, if you choose either the Gold Program or Platinum Program, you get even MORE VALUE for your investment!

There's one last thing to consider. It's important. Getting over \$8,000 worth of value is great, but the crucial factor is what it will do for YOUR business.

What's it worth to YOU to be able to generate all the new business you can handle at will? I can't put a dollar figure on that. Only you can. But I can tell you this, that kind of powerful advantage is truly invaluable.

There's Just One Slight Catch

If you'd like to take advantage of this offer to get more highly qualified leads than you can handle, there is one slight catch. You see, the **New Business Power Marketing Program** does not come with a guarantee.

Here's why. Because this Strategy is so simple to use, and all the copy is provided word-for-word, there's no way to stop someone who is dishonest from photocopying the program and returning it.

I've tried to come up with a way to protect against this, but unfortunately, that isn't possible. Therefore, I will not be able to offer a guarantee with this program. So if you aren't certain you want to apply it and reap the tremendous benefits, please don't order it.

However, if you want to substantially grow your leads and sales, these ingenious, proven in the trenches formats will let you achieve this in record time.

Take Control Of Your Financial Future Starting Today!

As you already know, the FREE Bonus Report, "Secrets Of Converting More Prospects To Cash Paying Customers" is only included if you order within the next 7 days. The techniques in this report alone are worth a small fortune. Which means the phones in my order department will be ringing off the hook. And once the initial print run of this powerful program is sold out, I'll have to return your payment until we decide to offer it again.

So if you're really serious about maximizing the profits of your business, you will have to act NOW. You need to take immediate action.

It's easy to do. Right now, while it's fresh in your mind, pick up the phone and call my 24-Hour Order Line at **1-800-998-3189** and place your order.

If you want to secure your financial future... if you want to stop gambling on how well your business will do... if you want to take control of how much more profitable and pleasurable your business can be, this is the opportunity for you.

Cash, checks, money orders, and credit card orders fill your mailbox

By: Michael Kimble

day-in, day-out -- whether you're on the beach, or in the shower... it doesn't matter, because your business is crankin' in the money no matter where you are, or what you're doing!

And here's the awesome part: By the end of the month, if you've received just one order a day, you've earned yourself **\$7,170.00!**

Now if all this sounds good to you, you must read on; because your life is about to change completely for the better!

It's important to understand that the business I've just described is not a fantasy. And it's not magic. What it is, is the normal operating procedure of a successful mail order business.

No doubt, you've already heard about this kind of business and you've probably read stories about people who have made fortunes in it. And it's true, fortunes have been made and are still being made in the mail order business.

But for most people, it's not the enormous income potential that attracts them to this business... **it's the lifestyle.** Let me explain:

You see, in most businesses, success means having to become a "slave" to the business. This is especially true in the retail and service businesses where your customers control your life and set your schedule.

And you know, quite honestly, for a lot of people becoming a slave to their business is really not a problem. They don't seem to mind having to baby-sit the store everyday.

They don't mind being tied to a cash register, or having to continually deal with employees, inventories, overhead, wholesalers, distributors, and all the rest just to make a measly 15% profit.

But for a select few, life is too short to become a slave to any business. Especially when there are less complicated, less risky, and far more profitable ways to earn a great income without being tied down.

And, that's what the mail order business is all about -- **earning a good income while enjoying a great lifestyle!** In this business, you are the master. You call the shots. And you have the freedom to enjoy your success.

As a matter of fact, a lot of people feel like the mail-order business

is the "ultimate" business. Maybe it's because of all these great benefits:

- ⦿ **This business has low start-up costs... anyone can get started in it!**
- ⦿ This business offers high profits and low risks which means more money in your pocket!
- ⦿ **There is no direct selling involved -- that means no rejection for you because all selling is done through ads or sales letters!**
- ⦿ You don't need to hassle with employees... you can do it all yourself!
- ⦿ **There is no inventory to buy or to worry about.**
- ⦿ You don't need a store front or office... which would cost you hundreds of dollars a month just to keep up and running! **You can operate this business from anywhere in the world -- as long as you have a phone and a mailbox, you're in business!!!**
- ⦿ And best of all, success in your own mail order business means you can spend your time however you want! Spend it with your loved ones, traveling the world, enjoying your hobbies, or just living the good life. The choice is totally up to you!

So, what does it take to succeed in your own mail order business? Well, in most cases, the people who are making tons of money in mail order have three things going for them:

1. They sell **products that have a lot of profit** in them.
2. They have **a market that has money** -- and a market that wants to buy what they're selling.
3. They have the **right marketing materials** to communicate and motivate that market. (advertisements, press releases, direct mail letters, etc.)

If you've got these three things going for you, your chances of making a lot of money are pretty darn good. So, the big questions are:

"Where do I get such hot products?"

"Where do I find the market?"

And...

"How do I reach them?"

The answer:

"The Mail Order Business-In-A-Box"

The Mail Order Business-In-A-Box gives you everything you need to start making BIG money in your own successful mail order business, in just a few short weeks!

With the proven products, and the marketing and advertising program you get, you could easily be earning 2, 3, 5, or even 10 thousand dollars a month in no time flat!

You get all the right ingredients -- the "recipe" you need for total success in this business! The entire process is pretty simple... here's all you have to do:

First, you place classified or display ads in one of the thousands of newspapers or magazines offering your prospects an opportunity to order various products from you. (We'll give you several proven, ready-to-use ads -- and we'll show you how to place these ads at discount prices!)

Then, after your ads appear, you begin processing the orders as they come in. If you choose, you can take these phone orders yourself.

Or, using the information we supply, you can set up a low-cost telephone order taking service to take the orders for you. And, if you're not set-up with a credit card merchant account, no problem -- **they will process all credit card payments on their merchant account for you!**

After each order has been recorded, you package and ship the products to your customers. (We supply you with a cover letter you can use, sources for shipping materials, and samples of products ready to ship.)

And finally, (this is the fun part!) after the products have been shipped, you get to deposit all the profits into your bank account!!

That's it... That's all there is to it -- it really is that simple when you use the **Mail Order Business In-A-Box!**

When you order the Mail Order Business In-A-Box, you'll own unlimited reprint and duplication rights to some of the hottest products that have ever been made for this type of marketing!

This means that when a customer orders a product from you, your only cost will be the cost to reproduce and deliver that product! This

completely cuts out the middle-men, and means you get to keep all the profit!

There are no on-going royalties or fees! And, there is no limit to the number of copies or duplicates you can make!!!... it's as if the product were your very own -- one that you created yourself!

You can make money from these products however you'd like -- for as long as you'd like -- there are absolutely no strings attached, and no restrictions on how you use these products.

You can market them as we suggest, or you can market them by any means you like. NO restrictions, and there are NO hidden catches.

Usually, you'll be able to get video tapes duplicated for as little as \$3.31 each. Audio cassettes for about 60 cents each. And books for as little as 47 cents (although some of the larger books will cost more).

Plus, you get a list of our very best contacts who you may want to use to get your tapes copied! We'll even give you the name of the tape duplicator we use. They keep these products in stock and they'll ship them to your customers for you! (No need for you to invest in an inventory.)

Obviously by keeping the costs so low, your profits can be spectacular! Here's a quick example of the kind of profits you can make:

In your package, there's a great book called The Unfair Advantage Letter Book. This huge book is filled with over 200 pages of proven money-making ads, letters, and press releases -- it retails for \$99.00. Yet, it only costs you \$12.00 to print and deliver to your customer.

That means you get a whopping 725% profit! And, this is one of the least profitable items you'll be selling!

So, the minimum profit you can expect on a single order will be over **\$80.00!** And the **maximum profit will be over \$200.00!!** With profits like these, it doesn't take many orders a month to start making some real BIG money!

Heck, with just 20 orders, you'll earn over \$4,000 a month! And averaging just one order a day means you can easily earn over \$7,000 a month! Think about the money you'll make with several orders a day! The sky's the limit!

Now, let me shift gears here and tell you about everything you get in

the **Mail Order Business In-A-Box** package... First, let me say that all of the products in the **Mail Order Business In-A-Box** are proven sellers, designed to appeal to people who have money to spend.

These people are already in the habit of spending money on products of this nature and in this price range.

However, I must warn you... this package isn't for everyone...

Before you start counting all the money you're going to make with this project, there is something you need to know. If you're broke, or down to your last penny, I honestly don't think this opportunity is for you.

If you're having financial problems; or if you've got to borrow money to afford this project, then I really don't think this is for you.

Or... if you're looking for some sort of "magic pill" to fix everything in your life, then this isn't for you either. There's no such thing -- and there's no use in wasting your time or mine... OK?

On the other hand, if you're looking for an honest, honorable way to take you to the level of personal success and financial freedom you desire; a way that is proven to work... **then this turn-key Mail Order Business-In-A-Box is exactly what you need!!!**

Especially if you can afford to invest in your future and financial success.

Now, to make this project work, you're going to need four simple and basic things:

1. You need sufficient resources to invest in this opportunity.
2. You need the ability to get books reprinted, tapes duplicated and everything packaged ready to ship to your customers. (We'll give you sources for this.)
3. You need the ability to place classified ads, display ads, and send out the direct mail pieces supplied to you. And...
4. You need the discipline to fill orders promptly. We recommend that you ship all orders within 24 hours. You can either ship the product yourself, or let an order fulfillment house do the work for you. (Remember, you get the name of our tape duplicator -- they'll ship the products to your customers for you.)

The complete **Mail Order Business-In-A-Box** is available for a one-time investment of **\$1497... PLUS** if you order within the next 7 days, you get all the FREE BONUSES!

Maybe.

But why put yourself through it all?

Why go through the cost and the hassles of finding a money-making product?... it's a lot of work, and it can take years to do. Are you really interested in wasting the next 3 to 5 years of your life trying to nail-down a winning product?

**Sales letter for "OBE Reprint
Rights Package"**

Here's the secret of . . .

"How To Avoid The Pain & Discomfort Of Product Development"

*. . . yet still be able to earn a good income as an
Independent Publisher of information and software.*

Dear Friend,

One of the most difficult and time consuming tasks in the information publishing business is having to continually create new products to sell. Coming up with good products is hard work, and unless you have the tools and time to develop them yourself, it's easy to keep putting it off until "someday".

Well, my friend, we all know "someday" usually never comes.

The biggest problem most information publishers face is this: unless you develop the products yourself, you don't own them. And when you don't own the product, you usually end up having to pay someone else a huge chunk of your profits each time you sell their product.

In most businesses, this is the norm. You buy products from someone else at wholesale, and then you sell them at retail, hoping to survive on the margin. Unfortunately, the markup is generally 50% or less. Which means if you buy something at \$10 wholesale, you'll generally sell it for \$15, and try to survive on the \$5 you get to keep . . . which is not easily done.

Of course, all the marketing costs, overhead, and taxes come out of your slice of the pie, not the wholesaler's.

Now this system works fine if you're a big company like Wal-Mart, where you average a billion dollars in sales each week. If you also average a 25% margin, you have up to \$250 million a week in potential profit. And that's enough to keep the babies fed.

But most of us don't have sales figures that come anywhere near Wal-Mart's. And most of us in the publishing business don't want to give up 75% of each sale to a wholesaler. That's why you want to work so hard to develop your own products . . . so you can keep all the profits yourself.

Consider the advantages of being able to bypass the wholesaler. If you sell \$1,000 worth of products purchased from a wholesaler, you might get to keep \$250, at best. The rest goes

back to the wholesaler. But when you sell \$1,000 of products you own outright...

you keep all the profit!!!

Being able to keep all the profit yourself quickly adds up in your favor. When you sell \$2,000 of products you own, you get to keep all \$2,000. But to be able to keep \$2,000 in a wholesale arrangement, you would have to sell \$8,000 in products . . . four times as much!

Of course, the actual amount of sales needed to match wholesale versus outright ownership depends on the wholesale pricing arrangements, but you get the general idea. It's much easier to make a good living when you get to keep all the profit yourself!

But to be able to do that, to be able to keep the entire profit . . .

you must own the product!

And that's the problem. In most cases, owning the rights to reproduce a product means you must first develop it. And developing products can be a very time-intensive process. Unfortunately, most would-be entrepreneurs simply don't have the time to develop their own products (and as a result, they miss out on the huge advantage of selling products they own).

Even people who do have time to develop a product quickly discover that it usually takes more than one or two products to be successful. Customers love being able to buy packages, combinations of products and premiums, and they love to get FREE gifts. And if that's what they want, then that's what you have to offer them . . . more than one product at a time!

In our own business, you may have noticed that we almost never offer a single product. Instead, we create great packages filled with books, CD-ROMs, and other interesting premiums. We know that by doing so, we greatly increase the "perceived value" of the product, and therefore end up with many more sales.

In addition, by adding premiums to our packages, we create a better "OBE" or Out of Box Experience. The "OBE" is the reaction your customers have when they open a package from you. And the "OBE" has a tremendous influence on whether your customer will value the product or be disappointed with it (which leads to product returns and payment refunds).

For that reason, it is important to be aware of, and continually trying to improve, the "OBE" of the products you sell. This can best be accomplished by making sure the customer is impressed by the box the product is packaged in, as well as its contents.

To achieve the highest "OBE", you'll want to have a professional-looking shipping label on the outside of the box, and on the inside, a warm cover letter thanking the customer for the order, a printed invoice with all the ordered items listed, and, of course, the product and premiums in good condition and packaged well.

If you get the "OBE" right, you'll have a happy customer, one who will value the product, appreciate your professionalism, and be happy to do business with you again. But if you get the "OBE" wrong, you run the risk of having a disappointed customer who will return the product, demanding a refund. (Also one likely to tell his friends about the bad experience he had with your company.)

Our Own Approach To A Great "OBE"

Now that we know the value of doing it, we spend a lot of time and effort trying to achieve a great "Out of Box Experience" for our customers. If you've ordered anything from us lately, you probably have a good idea of how we do this . . .

**by creating a professional looking package
and including unexpected bonuses!**

We get the professional look by using the **"Order Desk Pro"** software package (which prints invoices, shipping labels, and envelopes). And we enhance the value of the products we deliver by including a copy of a remarkable new book titled, **"301 Direct Mail Tips, Techniques & Secrets"**, plus one of our most popular CDs, **"593 Business Letters."**

This seems to create an exceptional "OBE" and has resulted in many, many repeat orders.

Now, You Can Do It Too!

As you may know, we occasionally offer reprint and duplication rights to books, CD-ROMs, and video tapes we produce. People who acquire the rights receive all the benefits of product ownership (the ability to make and sell as many copies as they like), without being burdened by development efforts or ongoing wholesale pricing arrangements.

Owning the reprint rights to one of our books, videos, or software packages allows you to do what you want with the product . . . sell it by itself, package it with other products, add it to your catalog, sell it on your website, even give it away as a premium to attract new customers. The only restriction is that you cannot resell the duplication rights to others.

Anyway, I've decided to make the reprint and duplication rights available to a few of our most popular products in a very special package. This special package includes:

- ◎ **Reprint and Duplication Rights to the newly revised "301 Direct Mail Tips, Techniques & Secrets". This latest version of this highly rated book (written by Bill Myers) is 190 pages long, is professionally printed and bound with a color cover, and is an ideal product for the income opportunity or business market.**

In this latest printing, we have removed the price (so you can price it as you choose), and have removed all the ads for our products. This is one of the most popular books

ever developed by Bill Myers, and now you can own reprint rights to it! The reprint rights allow you to reprint and sell the book as your own, and keep all the profits for yourself.

We provide you with a camera-ready master copy (which you can take to your printer), a 3.5 inch diskette master (in Pagemaker format), and 20 copies of the book as a starting inventory. This is truly the quickest and easiest way for you to get into the profitable book publishing business! (We've found the best selling price for this book to be \$29.95)

- ⊙ **You get Reprint Rights to a 4-page direct mail sales letter that sells the "301 Direct Mail Tips, Techniques & Secrets" book for you!** This sales letter was written by a very prominent direct-response copywriter who charges \$7,500.00 to write an 8-page sales letter. This potent letter works! We send you the sales letter on diskette and we'll even customize it for you with your name, address, and phone number.
- ⊙ You can make a LOT of money mailing out this sales letter! Remember, the **"301 Direct Mail Tips, Techniques & Secrets"** book appeals to opportunity seekers and to business owners. There are literally hundreds of mailing lists that you can mail this letter to.

This package also includes:

- ⊙ **The Reprint and Duplication Rights to a second book, "Promoting Your Business On The Internet."** This book is the ideal back-end product for the "301 Direct Mail Tips, Techniques & Secrets" book. "Promoting Your Business On The Internet" is a hands-on guide for bringing any business to a worldwide market. It shows your customers step-by-step how to run their business "Internet style". You get a master copy of this book as well. (This book easily sells for \$29.95 -- but of course you can sell it for whatever you want -- or give it away free to enhance your customers "OBE".)
- ⊙ **The Reprint and Duplication Rights to "593 Business Letters" on diskette.** We've taken this popular premium item, and moved it to diskette so that it's easy for you to duplicate. The diskette contains everything found on the "593 Business Letters" CD, including over 600 letters, legal documents and forms, all of which can be viewed and printed with the automatic Windows/Windows 95 interface.

This diskette makes a great companion item for almost any business related product, and costs you very little to produce (blank diskettes cost as little as 23 cents each).

With the reprint and duplication rights, you can duplicate and sell as many copies of this diskette as you like, and keep all the profits for yourself. We include the master diskette, 20 diskettes, the diskette label master, and complete instructions for

duplication. This is a great product to offer as a FREE premium, something everyone likes to have around... or sell them for \$35 each (or whatever) -- it's your choice!

And in addition to these great products, you also get . . .

- ⊙ **Your very own copy of the "Order Desk Pro" software package.** This is a complete order entry, sales tracking, customer database management system! If you sell anything by mail, classified or display ads, over the telephone, or on the Internet, you need this software! It keeps track of all your customers and orders, prints invoices and shipping labels, maintains inventory, tracks ads and sales letter performance, and provides instant reporting of every phase of your business.

"Order Desk Pro" runs in Windows 95, and is network ready (you will also need Lotus Approach, which costs under \$60). "Order Desk Pro" comes with an easy-to-follow 3-ring binder Reference Guide, a ready-to-use demo and tutorial, Internet support, and it's so easy to use, you'll be up and running in no time! You'll love what this software does for your business!

Software systems similar to "Order Desk Pro" are advertised in direct marketing trade publications for \$795.00 and up! You get this powerful system -- **FREE!**

So what do you think? A pretty good package, right? We've done our best to put together products you can use right away, in a package that will retain its value over the long haul.

But for this to be of any value to you, it has to be affordable. So with that in mind, we're making the complete package available to you for . . . \$677.

That's right, you get . . .

1. Reprint Rights to the new, 190-page "301 Direct Mail Tips, Techniques & Secrets" book.
2. Reprint Rights to the 4-page sales letter that sells the book.
3. Reprint Rights to the "Promoting Your Business On The Internet" book.
4. Reprint Rights to "593 Business Letters" (a Windows/Windows 95 diskette).
5. Your very own copy of the "Order Desk Pro" software package (a comprehensive order entry, sales tracking, invoice and label printing, customer database, and sales management system).
6. 20 copies of the "301 Direct Mail Tips, Techniques & Secrets" book .

7. 20 copies of "593 Business Letters" on diskette (with instructions on how to duplicate).

8. Master copies of everything!

...all for a one time investment of only \$677!!!

You can use your VISA, MasterCard, American Express, or Discover card. We can even take your personal or company check over the phone or by fax. And for your convenience, you can make **two easy payments** of \$338.50 spread 30 days apart.

If you've been looking for products and premiums you can sell and keep 100% of the profit, you won't find any better than these. Plus, you'll get the software you need to track all your orders and automatically print professional looking invoices and shipping labels sure to impress your customers.

To get it all, call our 24-Hour Order Line at: **1-800-998-3189** and ask for the **"OBE" Package**. If you prefer, you can fax the enclosed Registration Form to: 1-800-368-4740.

**Sales letter for "Business 6-Pack"
CD-ROM reprint rights**

"How To Cash-In On The Booming Demand For CD-ROMs"

(Without ever touching a computer!)

**Here's a rare opportunity for you to quickly and easily
earn BIG profits (2,000% or more) with CD-ROMs! .**

Dear Friend,

If you want to create a huge (and immediate) cash-flow for yourself or your business, this is going to be one of the most exciting messages you'll ever read!

Here's why: This letter is going to show you how simple it is to cash-in on the exploding CD-ROM market . . . without ever having to touch a computer!

That's right! Even if you don't own a computer, you can reap tremendous profits (2,000% or better) with CD-ROMs.

CD-ROM Sales Are Booming!

CD-ROM sales have more than doubled every year for the past five years! Starting from almost nothing, CD-ROM sales are now approaching (hold on to your seat) FIVE HUNDRED MILLION DOLLARS A MONTH!!!

And while anything generating 500 million dollars in sales a month is big (bigger than the U.S. movie industry), this is . . .

Just The Tip Of The Iceberg!

See, right now only about 55 million computer owners are behind this incredible buying spree.

Experts predict that, within one year, there may be as many as 100 million computer owners wanting and buying CD-ROMs... and if there are enough CDs out there to meet the demand, sales could possibly reach...

ONE BILLION DOLLARS A MONTH!!!...

Whew!!! How'd you like to own the exclusive rights to a few CD-ROM titles around then? With close to a BILLION dollars a month spent on these CD-ROM titles, even a very small piece of this pie would be mighty tasty!...

By: Michael Kimble

The Profits On CD-ROMs Are Absolutely Staggering!!!

Consider this:

It costs less than \$1.25 to duplicate, package, and shrink-wrap a CD-ROM disc. And, on the average, that same CD-ROM will retail for \$40 or more. This means each retail sale can generate a...

Two Thousand Percent Profit Margin!!!

And any way you look at it, 2,000% is a tremendous profit margin!! But that's not even the best part!

Read on.

In today's market, it's not uncommon for a CD-ROM title to sell ten thousand copies a month. Some of the bigger titles sell ten times that. One recent title, "Critical Path", is said to have made 12 million dollars in its first 60 days!! (How would you like to have to deal with that -- 12 million dollars in 60 days!)

Of course, not all CD-ROM titles are smash hits like "Critical Path". Most aren't. But in this business, it doesn't take a smash hit to make money. A dead-end title selling just a few hundred copies a month can still generate tens of thousands of dollars in profits!! (Imagine what owning four or six "dead-end" titles could do to your bottom line!)

But it gets even better ...

OK. The demand for CD-ROM titles is here. And there's no doubt selling these things generates a hefty profit. But what about marketing expense? How much does it cost to generate a sale?

The good news for people marketing CD-ROMs is that just about everyone wants to buy them. Consumers, retailers, wholesalers, exporters, even direct mail and catalog companies are begging to buy CD-ROMs!! They'll take just about every title they can get their hands on! (Their customers are demanding it!)

This Means If You Own A CD-ROM Title, You Won't Have Any Problems Finding Customers For Them!

In fact, you can do a very lucrative business just selling your CD-ROMs to wholesalers (who desperately need CD-ROMs to satisfy their markets).

In a wholesale arrangement, the CD-ROM title owner gives up a bit of profit, but in return eliminates most marketing and order taking expenses, almost all office overhead, and ...

Still Makes BIG Money!

It's a pretty good arrangement, one where everybody benefits.

With a set-up like this -- high demand, high profit margins, low production costs, and almost non-existent marketing costs -- it's no wonder everyone is talking about the money to be made publishing and selling CD-ROM titles!

But you can do more than just talk about it. You can . . .

Become A Player!

OK. So how can a non-technical, under-financed entrepreneur get in on this gold mine? How does someone with little or no computer background become a CD-ROM producer almost overnight?

The answer is quite simple:

Acquire the "Reprint Rights" to CD-ROM titles!

To make real money in this tidal wave of opportunity, you need to have at least one CD-ROM title on the market, and you've got to get it out there soon! Wait too long, and you'll miss the boat.

If you've got the skills, the tools, the training, and the patience to produce CD-ROM titles, then by all means do so now!! Unfortunately, not many people have the skills needed to produce a polished, consumer-ready, CD-ROM title. And those that do are in high demand . . . (with high price tags attached!)

But if you can't produce your own titles, or don't want to delay getting into the market while your title is being produced, your next best option is to acquire the reprint and duplication rights to existing CD-ROM titles.

When you acquire the reprint and duplication rights to a CD-ROM title, you get all the benefits of owning the product, without undertaking the development costs. (The average CD-ROM title costs \$150,000 to develop.)

Owning the duplication rights allows you to market the CD-ROMs as you choose -- you can sell to retailers, wholesalers, exporters, catalogers, home shopping shows, computer stores, direct mailers, direct to consumers, and on the Internet. The choice is yours. And so are the profits.

Get a few titles out soon, and you can ride the tidal wave of demand and high profits all the way to the bank!

Of course, you'll first have to find someone willing to sell you CD-ROM reprint and duplication rights. And hopefully that someone will offer you the rights at a reasonable price, and on a "no-royalties", "no-strings-attached" basis.

The good news is . . . that "someone" is us!!! . . .

As CD-ROM developers, we are able to offer you reprint and duplication rights to a number of our CD-ROMs at affordable prices.

But, there's only a limited number of duplication and reprint rights "licenses" available to these new CDs. Because of this, the reprint rights to these CD-ROMs are being offered on a first-come, first-served, no-royalty and no-strings-attached basis.

This means when you acquire CD-ROM reprint rights from us, you can duplicate and sell the CD-ROMs as many times as you like (even in the millions), and you will never owe us any additional royalty payment.

You own the product. The only restriction is you can not resell the duplication rights to others. Other than that, you can do what you want.

**This is the quickest, easiest, and most
profitable way for you to get involved
in the lucrative CD-ROM business!
Before you know it, you'll be making more
money than you can shake a stick at!!**

Right now, you can acquire the reprint and duplication rights to six individual CD-ROM titles. Think about how you might get 2 or 3 of them and sell them as a package. (Packages with more than one CD-ROM are hot, hot sellers!!)

Also, think about how you could package all six of them together and make a bundle! Or, if you'd like, simply pick-up the reprint rights to only one CD-ROM and sell the living daylights out of it! The choice is yours!

When you get the reprint rights to any of these CD-ROMs, you're getting all the advantages of owning a CD-ROM without putting out all the expenses of developing one!

Now, let me tell you about each of the six CD-ROMs you can get the reprint rights to. (Reprint rights to the individual titles are priced as marked.) We call all six CDs the **Business 6-Pack For Windows 95**.

Now, I want you to keep something in mind: All of these CD-ROMs were put together with the end-user in mind.

That's why they're all:

Let's take a look at what you get once you own the reprint rights to a CD-ROM title:

1. You get a **"License Certificate" of Reprint and Duplication Rights** for each CD-ROM you own the rights to. (You'll need this License Certificate to get your

CD-ROMs duplicated.)

2. You get a **Silver Master** CD-ROM Disc for each CD-ROM you own. (You can use this as your duplication master.)

3. You get a handy **User's Guide** for each CD-ROM. (This shows your customers exactly how to run the CDs in both Windows and Windows 95.)

4. You get **50 copies of each CD-ROM** that you own the rights to, packed in sharp jewel cases. You can easily sell-out of this starting inventory and quickly recover all of your investment and MORE!! Or, you can use these CDs as product samples, or distribute them any way you choose.

5. You get the **CD-ROM Guide To Profits book**. This 3-ring binder book includes a market overview, sample ads, sample press releases, pricing strategies, success stories, plus our own break-even analysis and profit potential spreadsheet software! This is your complete guide for marketing CDs.

6. You get **sources of CD-ROM duplicators** which includes information on how to get your CDs duplicated for as little as 83 cents per CD!

As you can see, you get just about everything you need to start cashing in on the high demand for CD-ROMs. But don't be misled... In addition to the above, you'll need:

Time: Let's face it... anything worthwhile takes time to get off the ground -- including this project. Realistically, you should figure investing about 15 hours to get this project going. Most of your time will be spent mailing out the press releases, price sheets, and sample CDs we supply to you.

Desire: You need real desire to see any project through to the finish. And while this may be one of the easiest projects you could undertake, you'll still have to have the desire to see it through if you want to profit from it.

Capital Resources: Yes, it takes some money, but fortunately, not as much as you might expect to pay for unlimited duplication and reprint rights to six proven CD-ROM titles!

There's no doubt about it... this opportunity is not for everyone. In fact, there'll only be a few special individuals who will recognize this opportunity for what it is -- and be in a position to take advantage of it.

But, if you can afford success, and recognize this as an opportunity that matches your desires and skills -- then go for it!!

With this "turn-key" package, you get everything you need to succeed! Nothing is left to chance and there's nothing for you to guess about.

Sales letter for "Group M's Mailing List"

You can make a fortune with this exclusive mailing list . . .
(It's like owning the goose that lays golden eggs!)

"Here's A Rare Opportunity For You To Own & Cash-In On Group M's Million Dollar, 'Hyper- Responsive' Mailing List Of HOT Proven Buyers!"

And if you don't have a product or service to sell, keep reading! . .

I'm gonna tell you . . .

"How You Can Easily Create A Hot-Selling Information Product (In 3 Hours Or Less!) That The Group M List Would Just Love To Buy From You!"

Dear Friend,

Now you can own... mail to as often as you like... and earn unlimited amounts of money (forever!), from...

Group M's Million Dollar Mailing List of proven mail order buyers!

And, if you don't currently have a product or service to offer, I'll show you how you can almost instantly create an information product that you can sell to the "Group M List"!

The "Group M List" is a Million Dollar mailing list. This is because over the past several years, it's generated MILLIONS OF DOLLARS in sales!

Just in the last year and a half alone, the customers on this list have earned me over \$500,000.00!!! When you own this HOT list of hyper-responsive buyers, there's just no telling how much money you'll make.

Who knows, during the next year and a half you may even earn more than \$500,000.00!!

Every single time I've mailed to the "Group M List", it's been profitable. Just think about that... if you knew you could make money every time you mailed, think how much that could be worth to you!

The last time I mailed to the list, it generated \$24,928.00 in orders over a three week period. And not long ago, I mailed to it and earned \$64,925.00 -- from a single mailing! When you

By: Michael Kimble

mail to this list, you'll make some serious money.

Right now, I'm offering an extremely limited number of copies of this potent list. And I hope you'll be one of an elite group of successful marketers to own and profit from it.

Your Mailing List Is Everything...

As you know, in direct marketing the list you mail to is everything. You can have the best product or service in the world... but, *if you don't have a responsive mailing list of proven buyers, your direct mail campaign will be a failure!*

The most difficult, expensive, and time consuming part of any business is building your own list of customers.

For example, to build a mailing list of only 1,000 customers could easily cost you several thousand, if not tens-of-thousands of dollars. Sure, it'd be worth it, but you'd be making gambles all along the way. And, it takes a very long time to build a list.

Let's take a look at what's involved in building your own mailing list:

First, you'd have to run dozens of classified and display ads that generate leads or that sell your product or service. That would cost you a fortune, right there.

Then, you'd have to pay even more cold, hard cash to follow-up with your leads.

Another way to go about building a list is to spend thousands of dollars renting mailing lists and testing them. You'd have to gamble on the responsiveness of each list and pay the huge costs of printing and mailing thousands of direct mail pieces.

All this just to get 1,000 customer names!

Here's an example of what I'm talking about:

A friend of mine recently rented a "responsive" mailing list and it cost him \$125.00 per one thousand names rented. He had to rent a minimum of 5,000 names and this was just for a one-time mailing. (When renting lists, 5,000 names is the typical minimum.)

This means he had to pay \$625.00 "rent" for a one time use of those names. He only wanted to test 1,000 of the names, so he had to pay an extra \$500.00 for 4,000 names he wasn't even sure he wanted to use!

If the list is a flop, he basically has to "eat" that extra \$500.00! Renting mailing lists is risky business. Even if you think you have the best list broker in the world... you never really know for sure if a list is going to be responsive or not, until you test it.

Then, my friend had to pay \$635.00 for printing and postage to mail 1,000 sales letters to the list he rented.

Let's add it all up (printing, postage, and list rental): **He spent \$1,260.00 just to TRY a list to see if it's responsive.** Now if it is responsive, he'll do great!

But if it's not responsive, look at all the money he's lost!... a whopping \$1,260.00 down the drain just to TEST a list!

Do you see why I call it a gamble?

Now, I'm not saying you should never rent a list. After you've got an established mailing list and have run some successful direct mail campaigns, selectively renting lists and testing them can be a great way to "grow your list."

But why gamble right now if you don't absolutely have to -- when you can OWN a list of proven mail-order buyers?

Take a look at the advantages you instantly gain when you own the "**Group M Million Dollar Mailing List**":

1. **You'll own a highly-responsive list of proven mail order buyers!** (I've gotten a response rate as high as 13.41% when mailing to this list!)
2. Because you own the list, you can mail to it as often as you like and in any quantities you like! (If you just want to mail a few hundred letters a week to generate a steady income, you can . . . or you can roll out the entire list!)
3. **The customers on this list buy high-ticket items.** (They've spent as much as \$18,000 in the past -- and not much less than \$70!)
4. Many of the customers on this list are **multi-buyers!**
5. **If you offer reprint rights**, the customers on this list are already educated as to what reprint rights are... they are constantly looking for and willing to pay for reprint rights! (More so than most other lists.)
6. They are looking for hot opportunities to make money... if you've got an honest, ethical way of making money, you couldn't own a better list!
7. Because they're interested in direct marketing, **they open and read their mail!** (This is a benefit you're not likely to get with many other lists!)
8. The only way you could access these names in the past was to do a joint venture with me and give me half your profits!... Now, all the profits are yours to keep!

The "Group M List" has got to be one of the most responsive, highest paying lists there is available. And now it can be yours!

"Tell me more about the Group M List."

There are 5,343 names on this list. Most of the people on this list are small business owners, entrepreneurs, or opportunity seekers. If you have a product or service that appeals to these groups of people, then owning and mailing to this list can make you a LOT of money!

Another positive thing about the "Group M List" is that when you mail to it, your direct mail piece will get read. You see, the people on this list are fascinated with and interested in direct mail marketing. And because of this, they open and read their mail! **They're reading this letter just like you are!**

The names on this list are the cream-of-the-crop! In fact, when you own the names on the "Group M List", you'll own many of same the names that are found on the mailing lists of these prominent marketers: Ted Nicholas, Gary Halbert, Bill Myers, Jay Abraham, Bob Serling, Brad and Alan Antin, Don Bice, Brian Keith Voiles, Jonathan Mizel, and others.

The people on the "Group M List" love buying through the mail! They'll buy just about anything from you that will benefit their lives, including

- ✓ Books, reports and manuals on almost any subject
- ✓ Home study courses
- ✓ Newsletters
- ✓ Audio tape sets
- ✓ CD-ROMs and software
- ✓ How-to video tapes
- ✓ Business opportunities
- ✓ Financial offers
- ✓ Reprint rights to hot products
- ✓ Seminars, and
- ✓ Success and self-help products

By now, you may be wondering . . .

"Why are you selling the Group M List?"

Two reasons:

1. First of all, it's a profit center for my company. And if you own a substantial mailing list, you should consider selling or renting yours too. And, here's a proven fact about direct mail you might not know: the more a list is mailed to, the more responsive it becomes.

2. Secondly, I do not want to rent the "Group M List". This is because I don't want to waste my time dealing with and hassling with list brokers day in and day out. And besides, I'd much prefer to see you profit from this list than a bunch of strangers.

The only reason I can think of that would keep you from wanting this "Million Dollar" list is that you don't have a product to sell. Well guess what!?

When you invest in this list, I'll give you an incredible set of FREE GIFTS that will show you step-by-easy-step . . .

How To Create A Hot-Selling Information Product On Any Subject, In Just 3 Hours!!!

"What kind of investment is required to own this list?"

Before I answer this question, let me remind you that you can easily "blow" thousands of dollars renting and testing other mailing lists. And once you do find a list that works, you'll have to rent it each time you mail to it.

When you own the "Group M List", it's yours permanently! You can mail to it as often as you like -- forever! And keep in mind that over the years this list has generated millions of dollars in sales -- it can do the same for you!!!

Your one-time investment to own this valuable list (and the gifts) is only \$1,497. Heck, the very first time you mail to this list, you could easily recover this investment by 10, 20, 30, even 40 times or MORE!!!

To order, you can use your VISA, MasterCard, American Express, or Discover card. We can also accept your personal or company check by phone or fax.

Think about it: you will actually own one of the most responsive mailing lists in the business. And you can mail to it as many times as you want, in any quantities.

With this list, you'll be able to mail your offer to a highly qualified list of people who have demonstrated they can and do buy products, especially information products, through the mail.

But there are two restrictions:

First, you can use this list as many times as you like, but you cannot rent, trade, transfer, or resell the list to anyone else for any reason. (We have an agency monitor the use of this list.)

Second, when you use this list you may not in any way or form use the names Group M or Michael Kimble in your promotions. We don't want to give anyone the idea that we are endorsing any product or service or that we are in any way involved with unrelated offers.

I know this sounds a bit mind boggling. And, quite frankly, when I first decided to send you this letter I realized I had a serious problem.

My problem? How do I describe these powerful new strategies and techniques without making it sound like a bunch of hype? Or so seemingly extravagant you might be tempted to dismiss it?

But if you hang in here with me for a few minutes, you'll quickly see that what I have to show you is completely down to earth, quite simple to learn and apply, and devastatingly profitable.

The Costly Truth About Direct Marketing

There's this myth that it's easy to make big money in direct marketing with almost no risk. Nothing could be further from the truth.

I'll be completely honest with you: the worst losses I've ever taken have been on direct marketing projects. And the worst losses I've ever seen my clients suffer were on direct marketing projects.

This probably comes as no big surprise to you. Because if you've done a mailing or run an ad lately, you know (by the hole in your bank account) that what I've just said is absolutely true.

Here's something crucial you should know:

The reason you've been getting such horrible results is directly connected to the way you've been strategizing and carrying out your direct marketing projects.

You see, the direct marketing techniques people are using today haven't kept pace with the times. They're still based on strategies and concepts that worked 10 or 20 years ago -- but fail miserably now.

I'll tell you something else that's a sure bet. If what you're doing now isn't producing the kind of profits you need, it surely won't do any better in the future.

Times have changed so radically and customers' buying habits have changed so drastically, you simply can't afford to keep throwing money out the window on outdated strategies and techniques.

That's where **Maximum Profit Direct Marketing** comes in. This course is your direct ticket to restructuring all your direct marketing. The type of restructuring that will produce astounding jumps in your sales and profits in record time!

Here's What You Need To Start Cashing In On All Your Direct Marketing Projects

The strategies in this powerful course are unbelievably effective yet extremely simple to put into action. Quite frankly, they can make you so much money so quickly, your head will spin!

One more thing. The strategies and techniques in **Maximum Profit Direct Marketing** are new and completely different. They are not being written about by anyone else or taught in any other course on the market.

Now I realize I'm making some awfully big promises here. And I certainly don't expect you to just blindly take my word for it. So, listen to how well these strategies have worked for the

individuals and businesses who've used them.

Here's How Profitable These Techniques Have Been For Others -- In Hard Dollars And Cents!

"Using just a couple of your strategies, we literally tripled our sales in just 30 days. Plus, each month we continue to blow away the previous month's sales record! Best of all, it didn't cost us a cent more than we were already spending to achieve this phenomenal increase."

-- Alba-Marie Besteni, CEO
Special Efx Productions

"Your concepts immediately shot our profit straight through the roof. I increased my income on one project by a very real 917%!"

-- Phil Kratzer, CEO
National Response Corporation

"I'm in awe! I wasn't prepared for this. Your material went far beyond anything I've ever seen in both its highly valuable content and organization. I came away with one breakthrough idea after another for my business."

-- Raleigh Pinskey, President
The Raleigh Group Public Relations

"It crystallized my thinking. As the result of just one of your techniques, I was able to make an instant \$14,857!"

-- Don Alm, Owner
Advantage Marketing

"These techniques increased our sales by a whopping 328%!"

-- Bruce Elliott, President
The Gold And Diamond Center

You could be enjoying similar or even better results. **Maximum Profit Direct Marketing** will give you the new tools you need to get ahead and stay ahead. Right now and in the future.

You'll be amazed how quickly and easily this course can "grow" your sales and profits. That's because it's packed with simple, ingenious, inexpensive techniques that:

- 1. Flood your business with as many new customers as you can possibly handle.**
- 2. Increase the average dollar amount of every sale you make.**
- 3. Convert each customer you do business with from a one-shot sale to an eager, lifetime customer who buys from you again and again.**

4. Make sure you get the maximum number of referrals from existing customers, new customers, and even from prospects.

Now, you may have heard similar promises in the past, but . . .

**Here's What Makes This Course So Different --

Here's a list of just some of the powerful advantages you'll gain from this comprehensive course:

- ⦿ **Profit from the 18 key secrets of Maximum Profit Direct Marketing.** These are

the high-profit, proven "new rules" of direct marketing you can start using immediately to double your sales and profits. Once you kick them into gear, you'll seize so much market share, your competitors won't know what's hit them!

- ⦿ **Insider's secrets for bringing in more new customers than you can possibly handle.** For most direct marketers, lead generation is a costly, high risk proposition. You'll put an end to all that in short order. Find out how to turn lead generation into an extremely lucrative profit center. Plus, you get a powerful method for converting up to 75% more of your leads to paying customers.
- ⦿ **How to regularly make astounding profits with an ingenious yet simple way of structuring your offer.** This could easily be the most exciting, proven-in-the-trenches technique you'll ever discover.

You'll get fully documented details of several direct mail and marketing campaigns that produced outrageous profits using this **powerful, little-known way of structuring an offer**. This course will show you precisely how to produce consistent returns of 28 to 161 dollars for every dollar invested in marketing.

- ⦿ **The closely guarded secrets for qualifying customers and markets for maximum profits.** This is a simple, low-cost system for determining which markets are losers and which are high profit winners. A number of very savvy business people who have used this course were shocked to find out how little they actually knew about high profit qualifying processes. Some have said this one point alone was the catalyst for the major restructuring of all their direct marketing.
- ⦿ **The secret to making a fortune by developing the ideal product.** This accurate, inexpensive formula shows you how to develop obscenely profitable new products and services. This sure-fire process guarantees that you kill the dogs and run only with proven winners!

- ⦿ **Boost your profits with "Opportunity Cycle Selling".** Studies have shown that 80% of all customers buy the product they inquire about -- but not from the original company they first spoke to. That's because most companies drop a prospect who isn't ready to buy right away.

If you market this way, you're missing out on an immense, untapped resource. Opportunity Cycle Selling is a simple, inexpensive way to guide your prospects up the selling ladder from suspect to prospect to a cash paying customer.

You'll be pleasantly surprised by how disarmingly simple and non-intrusive this method is. Your potential in increased profits from this technique alone are truly staggering!

- ⦿ **Discover how to maximize your sales and profits through Precision Marketing Systems.** The real money in direct marketing comes from simple, turn-key marketing systems you can run over and over to get predictable, highly profitable results. This is one of the least understood aspects of direct marketing.

You'll gain a complete understanding of how and why these systems produce exceptional profits day in and day out. And you'll get all the details of a number of highly effective systems. - ⦿ **Actually profit from complaints and refunds.** Master a simple, fast-acting technique that turns customer complaints and refund requests into big profits for your business.
- ⦿ **The "Maximum Profit Power Formula".** Most direct marketers don't go out of business for lack of capital, they go out of business because they don't understand where the money really is in their market. This proven formula shows where the profits really are and precisely how to tap into them right away.

Plus, crucial information on how to "fail successfully". Anyone in direct marketing who tells you they haven't failed is either an amateur or a liar. The key is to learn from your failures and apply that knowledge to turning out winners.

- ⊙ **How to double your profits in record time with the "4-Step Marketing Turn-Around".** This has to be the fastest, easiest way to turn any company's sales around. Or make an already successful company even more profitable. This formula is so simple and foolproof, most business owners can't believe they never thought of it themselves.
- ⊙ **The single most damaging myth everyone still believes about direct marketing.** Huge sums of money are being lost every day in direct mail. This incredibly dangerous myth can put you out of business in short order. But if you recognize it and understand a few simple steps for turning it around, the profits are nearly unlimited.
- ⊙ **Double your success rate with this ingenious technique.** You'll get a simple, foolproof way to predetermine whether any ad or sales letter you're considering using will be a success or failure -- before you ever invest a dime in it!
- ⊙ **How to make certain your prospects immediately open all your direct mail.** There are dozens of new claims flooding the market on how to make sure your direct mail gets noticed and opened. Only 3 of them really work! This information alone can put thousands of dollars of extra profit in your pocket.
- ⊙ **Reap huge profits from an auto-pilot referral system that works like crazy!** Discover a simple, dignified way to get active customers, inactive customers, even prospects to swamp you with more referrals than you can handle.
- ⊙ **Win big with this instant cash generator.** A simple, five minute change in your advertising copy can result in windfall profits. Once you know exactly how and when to make this change, the sky's the limit!
- ⊙ **Why credibility is the crucial factor in the selling of any product or service.** How to get and effectively use all the credibility you'll ever need. Plus, how to "borrow" another company's credibility and use it to sell tons of your products or services.
- ⊙ **Plus, you'll get an incredible war-chest of ingenious "tricks of the trade".** These are the closely guarded secrets master direct marketers use to vastly outperform their competition time and time again.

Once you see these powerful techniques, you'll wonder why advertising agencies don't instruct their clients to use them all the time. The answer to that is simple. Ad agencies don't even have a clue that these techniques exist!

I'm sure you'll agree this is a rather astounding list of advantages you'll be getting. But I want to remind you that this is just a partial inventory of what you'll find in this comprehensive course. There's much more than I have space to elaborate on here.

For example, you'll also get...

... powerful techniques for generating as many leads as possible -- HOT, qualified leads too, not the "lookers" who waste your time and money.

... dozens of actual ads and sales letters you can duplicate, modify, use any way you want to sell your own products.

... secrets of powerful closing techniques.

... insider's tips for powerful offers, guarantees, order cards, bonuses and everything else it takes for a winning sales package.

... lucrative back-end selling systems.

And there's still much, much more!

Here's The Bottom Line!

When you complete this course, you'll have everything you need to hit the ground running and start racking up staggering profits immediately.

Think about this for a minute: Imagine what it would be like to have the confidence of knowing your direct marketing is as effective as possible. That it's letting you run circles around your competition.

How would you feel knowing you're one of a very limited few who can count on making huge profits with your direct marketing rather than blowing major holes in your bank account? How would you feel having to scramble to hire more employees when everyone else seems to be laying off their best people? I know you'd feel great!

This is precisely what you'll gain from this course. In this very real sense, **Maximum Profit Direct Marketing** will change your life and your employees' lives forever.

Here's How You Get Started

The cost of this unique course is just \$237 (plus \$6 shipping). I think you'll agree this is a tremendous bargain.

Here's why: This price includes everything I've told you about -- plus a number of extraordinary bonuses. In fact, one bonus is something that can easily pay you back more than the entire cost of the course. I'll tell you about the bonuses in a few minutes. But first, here's a little more about the course itself.

For starters, you get **8 audio cassette tapes** packed with all the breakthrough information I've just told you about. So you can listen and nail down every last bit of money-making detail in the convenience of your car, your home, or your office.

Then, there's the detailed **Maximum Profit Direct Marketing manual** with tons of information, checklists, and powerful tips and techniques for increasing your profits even more.

Plus, you get another manual called the **Direct Marketing Advertising Arsenal**. It includes dozens of actual ads and sales letters that have sold millions of dollars worth of products and services. You can copy them, change them, use them any way you like to make money for your own business.

That's quite a lot in itself. And we haven't even touched on the FREE bonuses yet!

But here's the real test of true value. If this were just another weak, lukewarm course that didn't deliver the goods, that would be a waste of your money. But, if you can master what you need to double or triple your profits, how much is that worth?

Now Let's Talk About Your FREE BONUSES!

As I've mentioned, I've come up with three nifty bonuses for you. Let's take a look at them.

FREE BONUS #1

A powerful audio tape interview with Jeff Paul (the guy that makes \$4,000 a day in his underwear) called **Direct Marketing Success Secrets**. Jeff is one of the most successful direct marketers in the country. I was absolutely floored by how Jeff laid it all on the line in this interview. He holds nothing back.

Jeff Paul's secrets for doubling or tripling the number of qualified leads you get and convert is well worth the entire cost of this course. And that's just the beginning. Jeff goes on to show you exactly what to do to sell more of your products more often. Then he reveals how to use his simple plan to easily produce a six or seven figure income year in and year out.

FREE BONUS #2

Two audio cassettes called, **"How To Find HOT Mailing Lists Using The Little Known Trade Secrets Of Big-Time List Brokers"**. It doesn't matter how good your direct mail piece is - if you mail it to a bad list, you're dead in the mail. With these two tapes, you'll discover the insider secrets of how to find hot mailing lists for what you're offering.

Direct Marketing Expert and Registered List Broker, Karen Anderson tells all at a \$5,000 per person marketing seminar. These fast-paced tapes reveal: how to use the "SRDS" list manuals the same way the pros do, how to know what questions to ask about each list to

ensure your success, how to talk the same language list brokers and managers use, what to look for when renting mailing lists, and much, much more!

FREE BONUS #3

Here's the bonus you've been waiting for -- the one that can easily pay you back more than the entire cost of this course!

When you purchase **Maximum Profit Direct Marketing**, you will be granted the right to sell this same package to your friends and associates at a commission of 60%! Just two sales pays you \$284.40 -- that's more than the cost of the entire course!

Now I'm not suggesting you set up shop and start selling this course as a new profit center. But look at it this way: once you start producing impressive profits, don't you know at least two other direct marketers who would want to do the same?

I'll provide you with all the sales materials you'll need. All you have to do is follow my simple instructions and you should easily pay yourself back more than the entire cost of the course.

As you can see, these bonuses alone are worth far more than the cost of the entire course. There is one catch though. If you want to get all of these bonuses for free, you need to order **Maximum Profit Direct Marketing** within the next 7 days. Otherwise, the bonuses will not be included.

Here's why. As you'll see in a minute, I'm offering this course with a double risk-free money back guarantee.

Now, I know from years of experience the few returns I get come from those people who can't take action. So I've added this powerful incentive to appeal to those of you who are motivated enough to take some real action. Which enables me to cut down on returns and keep the cost of this package to the bare minimum.

By the way, this technique is called a "decision filter". Giving your prospective customers a simple decision that separates the true players from the bench warmers.

I suggest you give this technique a try. It will improve the quality of your customers, cut down on returns, and enable you to pass the savings along to those customers who really deserve it.

**"Advertising Magic Is Like Nothing You've Ever
Seen Before On Creating Ads And Sales Letters That
Bring In The Business You Want!!"**

Brian's approach to coming up with hot ads is completely different than anything you've ever seen, read, or heard before -- and he's convinced anybody can do what he's doing, once they understand it!

Let's take a look at what people have to say about **Advertising Magic**:

"Your book is AWESOME!! I always thought you were a genius... now I know you are a genius! 'Advertising Magic' is not only the best thing ever written on how to write 'Killer' copy, but it virtually stands alone! It's awesome! Serling, Halbert, Kennedy, Nicholas, none of them have even scratched the surface compared to your 'Advertising Magic'. I can't put it down. There's more hard-hitting, profit-generating information in one chapter of your book than in the rest of my library."

-- Kenn Kerr, Former Walt Disney Creative Director (Reno, NV

"As a direct marketer for some 20 years and as Editor of a newsletter for home-based businesses, I have reviewed and used hundreds of books and courses on advertising and direct marketing. Your 'Advertising Magic' is in a class by itself. The course is power-packed with tested ideas worth hundreds of times more than the meager price you are asking. I was flabbergasted by the sheer amount of heavy duty knowledge your course contains and the ease with which you convey it."

-- Ed Durham, Home Income Report (Willingboro, NJ

"Your 'Advertising Magic' course is absolutely the best course on copywriting in the world... and I have bought two previous courses before yours. You are without a doubt the hands down winner in giving detailed and understandable copywriting information. You poured your heart, soul and guts into this product and you have given me a wealth of knowledge and I think your course was well worth every dime that I paid!"

-- Al Robinson, Successful Business Associates (Chicago, IL

"I recently got a copy of your 'Advertising Magic' course -- WOW! Let me just say that I personally spend over \$10,000 a year on books, tapes, and seminar programs to enhance my knowledge of direct marketing. I've read practically every book ever written on the subject of copywriting. Your course did an excellent job of synthesizing everything I've ever read or heard on the topic in one easy to understand course."

-- Brian Kay, Cash, Inc. (Port Washington, NY

"Writing ads and letters that really sell is the ultimate ticket to financial freedom. As far as making money goes, you just cannot learn a better skill than this one. Imagine. No matter what you want to sell, you can always come up with an ad or a letter to do the job. Anytime you need more business -- simply turn the tap on. Sounds too good to be true?? Well, it isn't. Not if you have the right tools at your disposal. 'Advertising Magic' is what I consider the best guide to writing ads and sales letters in the world. I don't say that lightly. Brian Keith Voiles has created some of the best ads and letters I've ever seen. And he's worked for some very famous (and rich) clients. If you want to learn the ultimate skill, I highly recommend Brian's course. The sample ads and letters included with the course are worth many times the investment. Even if you don't want to learn how to write ads and letters yourself, you are sure to find an ad or letter you can adapt to your business."

-- Peter Sun, Peter Sun Marketing (Australia

Brian usually charges \$225.00 for each critique... but you get both of them for FREE -- if you're one of the first 45 to order! (Because of Brian's busy schedule, he can only offer this FREE bonus to the first 45 who order.)

But, that's not where it stops!

Brian wants to make sure you get the very most out of each of your critiques, thus helping you to learn to put together ads that sell even better. So, not only do you get his advice over the phone...

If, after you put Brian's techniques to the test and try them for one full year, you find that Advertising Magic hasn't more than paid for itself, simply return it for a complete no-hassle refund. And the FREE bonus consultations and cassettes are yours to keep even if you do get your money back!

Plus, all six audio cassettes and the video come with a life-time warranty... if they ever break or wear-out for any reason, we'll replace them FREE of charge.

Think about it:

The worst that can happen is you'll come out \$450.00 ahead! (The two consultations are worth \$450.00) There's simply no way you can lose!

Here's how to get going:

You get Brian's complete "secret-system" for creating your own ads, sales letters, and promotional pieces. You get the 388 page manual, the six audio cassettes, and the video. PLUS, if you're one of the first 45 to order, you get the two, 30-minute advertising critiques for FREE! You get it all for the low, low investment of **\$297** (plus \$7 shipping and handling).

Now you may be thinking that \$297 is a lot of money to spend for a workbook and a set of tapes. But, this isn't just a book with a set of tapes.

This is Brian's proven, easy-to-use system for writing advertising that gets you results. It's the exact system he uses to write advertising for his clients at \$7,500.00 a pop!

And now you can get it for a fraction of \$7,500.00!

"What's the best part about this whole thing?"

Well, in my opinion the best part is this:

You'll gain a brand new skill -- the skill of creating powerful ads and sales letters that'll put money in your pocket time after time! A skill you can use to multiply yourself 1,000, 10,000, 100,000 times -- every time you place an ad, or mail a letter! Sure, you can go ahead and throw your same old ads and sales letters out to the marketplace again. And you can hope and pray that your next promotion works out.

But why put yourself through it all?

Why not invest in your ability to take control of your profits, increase your lifestyle, and make more money by getting yourself **Advertising Magic**. With it, you'll discover the real secrets of creating ads and sales letters that work like magic!

Let me tell you. If you go ahead and mail your next sizable batch of sales letters without putting them through Brian's simple, step-by-step system; the money you lose sending out a poor sales letter or ad could've bought you and all your friends a copy of **Advertising Magic**!

It's true. Think about this:

\$297 is really a painless drop-in-the-bucket compared to the money you're going to lose over your lifetime without this advertising know-how. Looking at it that way...

"Direct Mail Bootcamp" course**

Those Four Days Altered My Entire Thought Process!

"I Was Held Hostage For 4 Days By The Sharpest Minds In Direct Mail"

"And when it was over, I didn't want to leave. I had learned the ultimate skill... how to make real money anytime, anywhere. All my fears about not knowing what to do were gone. By day four, I had the formula down; I knew how to do it right, and even before I got home from the seminar, I had started a major direct mail project which may end up earning me \$20,000 this month!"

Dan Reynolds
Harrison, Arkansas

Dear Friend,

Everything you may have heard about the legendary **Direct Mail Bootcamp** is true.

Even the stories about what Gary Halbert did in the Al Capone suite at the Arlington Hotel are true. (Yep, Gary would have made Big Al proud.)

But the biggest story of all is what happened to me and those who participated in the bootcamp. We all learned the ultimate skill . . .

**How To Make A Good Income Anywhere, Anytime,
By Developing And Following Through Direct Mail Projects !!!**

It's true. No matter who you are or where you live in this country, you can learn how to make a good income doing nothing but coming up with and rolling out direct mail projects. And it's an easy business to get into. You don't need an office or storefront, you don't need retail clerks or salespeople, you don't need a heavy investment in inventory. In fact, all you need to get into the direct mail business is to . . .

Start Mailing Sales Letters !!!

Of course, just because you start mailing letters, doesn't automatically mean you're going to make money. That's because success in direct mail is kind of like baking a cake. To bake a cake, you use a recipe, put in all the ingredients in the right order, pop it in the oven, and you end up with a cake. But try to make that same cake without a recipe, and chances are you're not going to end up with a cake at all. In fact, you're probably going to end up with one heck of a mess!

By: Michael Kimble

And it's the same way with direct mail projects.

If you try to make money in direct mail, and don't know or don't use the "Recipe for Success in Direct Mail" (the recipe revealed by the experts at The Direct Mail Bootcamp) you're probably going to have the same kind of success rate you'd have if you tried to bake a cake without a recipe. Just about zero. (And you'd still end up with a big mess on your hands.)

But if you know, and use, the amazingly simple, **straightforward "Recipe for Success in Direct Mail"** (as revealed at the Direct Mail Bootcamp), you're going to discover it is easy to make money with direct mail ventures. And it's easy to pursue a lifestyle where all you do is come up with, and follow through on, direct mail projects. It's a real adventure, and an adventure that can make you rich, if you know the "recipe for success"!

And that was the purpose of the Direct Mail Bootcamp -- to bring together the best minds and top performers in the direct mail business for four solid days, so they could teach the **"Recipe for Success in Direct Mail"** to others. And that's exactly what they did.

Some of the experts who participated in the bootcamp were . . .

- ✿ **Ted Nicholas** - Has personally sold over \$200 million worth of products by direct response!
- ✿ **Gary Halbert** - His clients eagerly pay him \$15,000 an day for his marketing advice!
- ✿ **Bill Myers** - Known for his low budget direct mail projects that net high returns!
- ✿ **John Carlton** - One of the best copywriters alive today, known for getting results!
- ✿ **Phil Kratzer** - President of National Response Corporation; places 4,000 ads per week!
- ✿ **David Deutsch** - Ex-Madison Avenue Copywriter, now highly in-demand freelancer!
- ✿ **Carl Galletti** - Direct mail catalog expert, author, and direct marketing consultant!
- ✿ **Lisa Morrice** - President of On Target Communications, specializing in direct response!
- ✿ **John Eger** - A brilliant marketing strategist involved in two-step marketing & classified ads!
- ✿ **Karen Anderson** - List Broker specializing in joint ventures and endorsed mailings!

This amazingly talented group of people, all of whom make a living in some aspect of the direct mail business, came together for the first time ever for a single purpose . . .

To teach Direct Mail Bootcamp Participants everything they knew about creating successful direct mail projects !!!

And instead of just giving speeches, they spent four days demonstrating how to create successful projects in a logical, step-by-step process. Starting at the beginning with the very basics and sequentially working through each step in the entire process. Everything was covered, but just to be sure everybody got it, the experts actually . . .

Came Up With A Direct Mail Project And Developed It From Beginning To End Right There In The Bootcamp!

A complete project. From start to finish. From coming up with the idea, to defining the market, to creating the product, to developing the offer, to getting it all down on paper, even to mailing and taking orders. They did it all.

And in the process, they revealed the "recipe", the "template" for success in direct mail. And until you see for yourself, you'll never believe how easy it can be for you to make good money in this business (as long as you follow the proven formula).

Here are just some of the things the experts taught us . . .

- ✓ Why it is so important to **Define The Market First**, before you come up with the product. (Most people come up with a product, and then ask "Who can I sell it to?". That's the wrong way.)
- ✓ Where to find the **Ultimate Market To Sell Direct Mail Products To**. (And how to know before-hand if the people you are mailing your letter to are in the position to buy from you.)
- ✓ How to find the **Ultimate Direct Mail Product for your market**. (And how to get manufacturers and distributors to send you free samples of products they want you to sell!)
- ✓ How to **Avoid The Really Dumb Mistakes** behind almost all direct mail failures! (This alone can assure you of a 1000% better chance of success.)
- ✓ How to find **Start-Up Capital And Complete Financing** for any direct mail project!
- ✓ How to find names, addresses and spending habits of the group of **People Most Likely To Want To Spend Money With You!**
- ✓ How to write a "killer" direct mail offer that will **Make People Want To Send You Money!**
- ✓ How to **Master The Mechanics Of Producing A Direct Mail Offer That Really Works!**
- ✓ How to use **Premiums And Free Bonuses To Boost Your Sales Right Through The Roof!** (And why the best premiums probably won't cost you a dime.)
- ✓ How to estimate the **Profit Potential** and risk of any direct mail offer, and **How To**

Know In Advance Which Projects Will Be Big Winners before you invest a single penny!!!

- ✓ How To Use **The Post Office For Maximum Effect!!!** (Includes techniques to disguise bulk mail, getting the best postal rates, and timing your mail for best responses.)
- ✓ How to acquire the mail order rights to **Best Selling Books And Videos** for as little as \$250!
- ✓ How to get a **Print Shop to agree To Underwrite Most Of The Start-Up Costs Of Your Next Direct Mail Project!** (And how to use printing services to increase your response rate.)
- ✓ How to put your **Direct Mail Order Entry and Product Fulfillment System on Full Auto-Pilot!!!** (Get orders taken, charge cards processed and products shipped without your involvement!)
- ✓ What you must do to **Protect Yourself Legally** before you start any direct mail project!
- ✓ A strategy to **generate \$100,000 in 120 days starting with just a \$600 investment!**

The experts showed us all this and more! And they presented it in a way that made it easy to follow and simple to understand. More importantly, we learned success in direct mail can be almost automatic -- if you follow the recipe! The same recipe being taught to us by people who were actually doing what they were showing us how to do, and that was . . .

Raising Huge Sums Of Money With Direct Mail Projects !!!

But you know, it's funny. All the experts kept talking about was how they weren't in direct mail for the money, instead they were in it mostly for . . .

The lifestyle that having money permits them to live.

It's a strange way of thinking about money, but I guess they're right. It's not so much the money that's nice, it's what having money allows you to do.

See, when you have money, you don't need a job, you don't have to work for anyone else. And not having to show up for work every day frees up a lot of your time. Time you can choose how to use. Time to spend with your family. Or on your hobbies. Or on an adventure. Whatever.

The Choice Is Yours.

But, as the experts pointed out, having the choice to do what you want, and having the free time to do it, can become quite addictive. Once you taste this freedom, you'll find it hard to go back to your old job. You'll never want to work for anyone but yourself. And you'll know why those who are doing it say a career in direct mail is the **ultimate adventure!**

Being able to come and go as you want, to travel, to spend time with your family, your friends, or to just sleep late, are luxuries far more enjoyable than a big car or a fancy gold watch. (Or so say the experts.) According to them, the real reward of success is . . .

True Independence.

(And I always thought it was the money!) Anyway, listening to these successful people talk about their lifestyles was fascinating. And it made us realize that money isn't the goal. Money just provides a means of reaching many different goals, goals as different as the individuals who set them. (But money is not a bad thing.)

There is something that money brings, though. Something that none of the speakers actually talked about, but something that could be seen in all of them. There was an air of confidence, a feeling of security, maybe even an inner peace that made these people stand out in a crowd.

But maybe it wasn't the money, maybe it was the knowledge that they had discovered **a way to live well, no matter what happened in their lives.** They knew that anytime they needed money for anything, all they had to do was follow the recipe for success in direct mail. And in a few days, money would start filling their mailboxes.

A surprising thing about these experts is that they weren't at all hesitant to share the techniques they had mastered. They didn't hold back on anything, they told us everything, gave us advice and direction, and even told us about their biggest mistakes. It was amazing...

They had discovered a way to escape from the rat race, and didn't mind sharing the secret!

They were also honest with us. They told us direct mail is not some Get Rich Quick scheme. It is a way of doing business. A way to reach a huge audience of millions of potential customers without having to knock on a single door. Or without having to make a single sales call. It's all done by mail. (Which means you can launch projects from the kitchen table.)

And, because you can reach so many potential customers inexpensively . . .

Even a small success with a direct mail project can reap huge profits!

You don't need a sophisticated operation mailing hundreds of thousands of letters a week. In fact, using the *recipe for success*, you can earn \$20,000 or more per month, doing small mailings into the right market. You can keep your business small, yet still be able to make big money.

Another thing they taught was you don't need much money to get started (they really pounded this into our heads). In fact, they all agreed that having too much money is one reason many people fail! The logic behind this statement is surprising, but it turns out to be true.

Anyway, those lucky enough to attend the Direct Mail Bootcamp realized very quickly that they were part of something very special. This was one of those amazing, profoundly life-changing events you sometimes read about in the biographies of people who have made it big. No doubt sometime in the future, when some successful person is asked what was the turning point in his (or her) life, he (or she) will point to participation in the Direct Mail Bootcamp.

But not everybody could get in . . .

Unfortunately, not everybody who wanted or needed the kind of experience the Direct Mail Bootcamp provided was able to attend. Some people, still stuck in the rat race, couldn't get away from their jobs. Others had prior commitments they couldn't reschedule. And many just couldn't afford the thousands it would cost to fly to Hot Springs to participate in this event for a week.

Even some of those who had the free time, the funds, and an open schedule, found they couldn't get in. To their disappointment, they discovered that the limited number of open seats at this event filled up just days after it was announced (but that's no surprise considering what was being taught, and who was teaching it).

Anyway, if you are one of the ones who missed out on this life-changing experience, and want the **"recipe for success"** in direct mail, along with the private and confidential advice and direction from some of the best minds in the industry, you're in luck!

See, everything at the Direct Mail Bootcamp was professionally recorded onto audio tapes. And a complete library of these tapes, along with a **step-by-step direct mail workbook**, is now available to you.

And along with the tapes and workbook, you'll also receive . . .

**A Turn-Key, Ready-To-Use Direct Mail Project,
along with the REPRINT and REPRODUCTION RIGHTS
to the tapes and manual sold in the offer!**

We'll talk about that later, but first let's look at . . .

The Components of the Direct Mail Bootcamp Experience

When we began putting this package together we wanted to include everything that made this event so important to those who participated. And we also wanted to include some **Free**

Extras that would make the home version of the **Bootcamp Experience** even more worthwhile. And this is what we came up with starting with . . .

- ✓ The **complete minute-by-minute, hour-by-hour, day-by-day audio tape record of everything that went on at the bootcamp**. On these 24 tapes, you'll hear every speaker, every workshop, every presentation, every question asked and every comment made during the bootcamp. And for your convenience, the tapes are indexed by hour and subject matter. And for review purposes, the tape box cover has a brief summary of the information found on each tape.

Plus, along with the tapes you'll also get . . .

- ✓ A copy of **"Insider's Guide To Direct Mail Profits" workbook**. This big 3-ring binder direct mail workbook gives you the complete recipe to success in direct mail. It's full of vital information and has numerous checklists that will help you insure your project is a success. You'll love the way it's laid out. It's easy to follow, and you'll use it every time you start planning a direct mail project.

And in addition to all this, you get an **Extra Special Bonus**, exclusive to the home version of the Direct Mail Bootcamp Experience. A Bonus so unique, so special that by itself it is worth over \$1,000.00! But it's yours **FREE** with the Direct Mail Bootcamp Experience! Because . . .

One of the first things you're going to want to do after you've listened to the bootcamp tapes is roll out your own direct mail project. So, just to be sure you have one, when you order the Direct Mail Bootcamp experience, you will get . . .

A COMPLETE, READY-TO-USE DIRECT MAIL OFFER !!!

That's right, along with the complete set of tapes and the 3-ring binder workbook, you also get a **ready-to-use** direct mail project with the **REPRINT and DUPLICATION RIGHTS** to the tapes and manual being sold in the offer !!!

This means that when you're ready to go to market with your first direct mail project, you'll have one you can use. And . . .

You'll have the DUPLICATION and REPRINT RIGHTS to the products you are selling.

Which means when you roll out this project, the money you make from it is yours! No royalties or fees to be paid to anyone ever !!! And even if you decide not to use this project, **You Still Have The Right To Use The Tapes And Manual Any Way You Choose!**

It's Like Having Your Future Delivered To You On A Silver Platter !!!

Having the reprint and duplication rights means you can sell the tapes and manual individually, or you can package them up with other products, give them away as premiums, or just keep them until you are ready to use them. You can even turn this ready-to-use project over to your son or daughter and let them use it to build their college fund! It's up to you.

Here's what you get permanent reprint rights to: "How To Find HOT Mailing Lists Using The Little Known Secrets Of The Big-Time List Brokers" (two audio cassettes) and "How To Grow Rich With Direct Mail" (a manual). You even get a sales letter that sells these products for you!

Of course, there is no guarantee this project will make money for you. We have tested it, and it has (and still is) making money for us. But, there is no guarantee you'll get rich with it.

One thing's for certain though, you won't have to pay any royalties or copyright fees to us or anyone else when you sell this product. You get to keep the profits, and you'll only have to share them with Uncle Sam's favorite nephew, the IRS.

But before you start counting all the money you're going to make with this, **there's something you need to know.** We are not giving this material away. In fact, even though this is an amazing offer, we don't expect many people to be in a position to take advantage of it. And that's OK. Because this offer is not intended for everyone.

So...

**If you are broke, or down to your last penny,
or don't know where your next meal is going to come from,
or are mentally or emotionally disturbed . . .**

. . . then don't bother ordering the Direct Mail Bootcamp Experience. It isn't for you.

Or...

**If you're looking for a "magic" pill to fix all the problems in your life,
or can't or won't follow instructions, or don't want to listen to advice . . .**

. . . then this is not going to work for you either. It's not magic.

Or...

**If you are the least bit shady, and looking for a quick way to scam
unsuspecting little old ladies out of their life savings . . .**

Then look somewhere else. We don't want this kind of information to fall into your hands.

On the Other Hand . . .

If you are looking for a path which can take you to the level of personal success and financial

rewards that you desire, a path that has proven to work time and time again for others, the Bootcamp Experience might be exactly what you are looking for. Especially if you can afford to invest in your success.

Operating your own direct mail business offers you one of the most direct, hassle-free ways you can generate a substantial cash-flow quickly... if you know the recipe for success. And the complete **Direct Mail Bootcamp Experience** is the only opportunity of its kind for you to learn that recipe from some of the most successful names in the direct mail business.

But it's not free.

It's going to require an investment in money (to get the tapes) and time (to listen to them). If you sincerely feel you can make that investment, then read on. I've got some **good news** for you.

By now you know the **Bootcamp Experience** is more than a set of tapes. More than a library of carefully selected reference and resource material. And more than the reprint and duplication rights to a tested direct mail offer you can use to start making money right away.

It is all these things and more.

And combined with your desire to live your life on your own terms, it can be . . .

The Total Learning Experience That Changes Your Life!

There's nothing quite like the feeling of success. And that feeling can be yours. It is within your grasp. No matter who you are or where you live, you can have a profitable future with direct mail projects. And the Direct Mail Bootcamp Experience can be your launching pad.

OK. Let's talk a little more about the investment required. Tapes from other seminars of this caliber are usually priced in the \$1,000.00 range. And usually these tape sets are worth every penny of the asking price. But the problem is, not everybody can afford to invest that kind of money, especially right now. Life has its demands, and many of those demands are financial.

Still, an investment in one's future can sometimes be priceless -- if only one can afford to make that investment. (It's sad but true -- some people can't afford to be successful). Anyway, if you can afford success, and recognize this as an opportunity to fulfill your dreams, this is your chance to participate in the complete **Direct Mail Bootcamp Experience**, including . . .

- ✓ The **Complete Set Of 24 Audio Tapes** of the best minds in direct mail showing you how to do it right.
- ✓ The **Insider's Guide To Direct Mail Profits Workbook** of resource and reference tools

And...

- ✓ The **Ready-To-Use Direct Mail Offer** complete with reprint and duplication rights, plus everything else we mentioned in this letter...

... for only \$397

Yes, that's right! You get it all for only \$397! Our customers tell us that the **Direct Mail Bootcamp** is the most comprehensive and best thing they've ever seen or heard on the subject of direct mail! And we constantly hear success stories from people who have applied what they learned from this course.

To reserve your **Direct Mail Bootcamp Experience** you can use your VISA, MasterCard, American Express, or Discover card. We can even take your check over the phone or by fax. Call right now! The number to our 24-Hour Order Line is **1-800-998-3189**.

This is a very rare opportunity for you to experience what others will just dream about. The freedom and financial rewards of personal success. I hope you are able to take advantage of this.

Sincerely,

Collin Almeida

XINSERTCITY, STATEXX

Thanks to a revolutionary new CD-ROM, it is now easier than ever to get into, and start earning profits by selling reports by mail.

With the new Instant Publisher CD-ROM, you own the reprint and duplication rights as well as the complete text to 750 how-to books, reports and manuals!

No Royalties Due - Ever!

Having the complete text to 750 how-to books, reports, and manuals on a single CD-ROM is quite valuable. But this CD has a special value for entrepreneurs, as the publisher of this CD is providing these reports on a royalty free basis.

This means you are free to copy, edit, print and sell any or all of the publications on this CD-ROM!

So, in effect, owning the Instant Publisher CD-ROM instantly gives you a huge library of royalty free up-to-date publications you can change or edit any way you wish, and then reprint and sell!

Easy-to-Use!

Even though we don't have

much computer experience, we were so intrigued by the profit potential, we decided to give this product a try. So throwing caution to the wind, we placed the CD into our IBM compatible computer and started the program.

We were immediately presented with a selection of various report categories including Business, Mail Order, Health & Safety, Hobbies and more.

We chose the Business area, and were instantly presented with a menu of report and book titles. We discovered by simply clicking on any title, we could see the complete text of that title.

After browsing through many titles, we decided "The Complete Streamlined Guide To Selling Information By Mail" might be an interesting report we could sell. So we clicked on it, and the program transferred us to its on-board word processor. From there we were able to view and edit the full text of this well written guide.

With one additional click of the mouse, we were able to print the guide, in book format, ready to market. It was so easy!

We continued to explore the

CD. As we did so, we were continually amazed at the diversity and quality of the available books and reports and the ease we experienced in using them.

A Great Resource

The Instant Publisher CD is an amazing resource! The CD contains tremendously valuable information, has a high profit potential, and is actually very easy to use. Every entrepreneur should have a copy of this CD!

The Best Part - The Price!

You would think a product providing the full text and reprint rights to 750 how-to books, reports and manuals would cost hundreds or thousands of dollars.

But not in this case. The asking price is \$149. And, any way you look at it, that's a real bargain!!! Don't pass it up!

**Sales letter for
"How To Create Your Own Information Products"**

How You Can Create A Hot Selling Information Product On Any Subject Almost Instantly ...In Just 2 to 4 Hours!

(You don't need to be a writer
(You don't need to be a recognized expert
(You don't even need to invest much more than pocket change to get started
... and you can be on your way to profits in just one afternoon!

Dear Friend,

If you want to create high-profit, in-demand information products that you can sell by mail, use as retail business builders, or sell back-of-the-room at seminars and speeches, then you need to read every word of this letter very carefully.

Why? Because I'm going to reveal a well-kept secret that will enable you to create hot products in just 2 to 4 hours time... almost INSTANTLY! Products your customers will gladly pay you from \$9.95 to \$25.00 for.

**And here's the best part. Each \$10, \$15 or \$25 product
will only cost you a \$1.00! Sometimes even less!**

That's at least 10 times your cost! That means it's possible to sell these products profitably by direct mail or to use them as business builders. And it means something else, too. It means you can make enormous profits!

So why haven't you been told this secret before?

I'll tell you. Because the secret has been hiding in plain sight! It's been happening right under your nose. But if you're like me, you've been so interested in the contents of these products that you never gave the "how" of the creation process a moment's thought.

And the people selling these products are so busy scooping up their profits that they seldom have the time (or inclination) to talk. Why should they? They're too busy creating more products and depositing more money in their bank accounts.

But now, you can learn the complete process, from beginning to end, so you can create these products quickly, for almost no money! And you'll see how easy it is to do.

In fact, here's everything you need to create your "almost instant" product...

By: Michael Kimble

To create your own information product, all you need is:

- 1. A telephone**
- 2. A tape recorder**
- 3. An expert on any subject to interview**
- 4. And a blueprint to follow**

That's it! See, the product I'm speaking of is an audio tape. But not just any audio tape. I'm talking about creating audio recordings of telephone conversations between you and experts in any field you choose.

Tapes in which experts offer solutions to customers' problems, explain little-known information, reveal their private methods and in brief, spill their guts in recorded conversations that your customers get to listen in on and profit from!

But don't make this fatal mistake:

Don't discount the value of these tapes. Just because they're quick and inexpensive... even fun to produce... don't think for one minute they aren't valuable, hot selling products. Nothing is further from the truth.

The information in these taped interviews can be worth a fortune to your customers... *and worth even more to you!*

I know of a dealer who, last year, sold over \$50,000.00 worth of a set of five interview tapes. That's a product with an investment of less than two days' time. Would you be willing to spend 15 hours on the phone for a \$50,000.00 return? That's like paying yourself almost \$4,000.00 per hour!

And you don't even need to be an expert to create tapes that sell!

In fact, you may be better off by not being an expert. See, having all the answers can actually hinder your interview. Why? Because it's your job to get the expert to talk, and you do that by asking the right questions.

But there are a lot of things you do need to know so you can ask the right questions and extract the hidden profits in these interviews.

See, anyone can record a phone conversation. But there's more to the process than just taping a phone call... that is, IF you want to generate products that satisfy customers and keep them coming back for more!

That's what you'll get with this new step-by-step system, **"How To Create Information Products in 2 - 4 Hours That Customers Want To Buy."** This never-before-released

material is jam-packed with every detail you'll need to easily produce hot selling tapes that make money for you like crazy!

This new manual holds nothing back!

You get every detail, trick and technique you'll need so you can start immediately. You'll create original products to start your own business, add to your product line, or use as premiums for your existing business or service. In fact, if you have a retail or service business, you can use these tapes as gifts, bonuses or incentives. And that's not all...

Here's just a sample of the inside information you'll discover in this new manual and audio tape program:

- How to stack the deck so virtually any expert will see the advantages of working with you... even if you're just beginning in the business.
- **How to approach well-known industry experts with an "offer they can't refuse" and convince them to allow you to sell their interview for FREE!**
- Five techniques that keep your interviews focused and on track, to get the answers your customers need and the best-selling tape you can have.
- **How to create valuable printed material to accompany your tape without having to write a single word.**
- Three steps to make your on-tape nervousness evaporate into "thin air".
- **A little-known secret that is guaranteed to increase your listeners' satisfaction and make them want to buy more tapes from you.**
- Simple techniques to make your experts' ideas crystal-clear for your listeners, so they can understand, apply and profit from what they hear.
- **How you can uncover dozens of hot-selling topics for your audio tapes by answering a few simple questions (that are spelled out for you).**
- The three crucial qualifications any expert absolutely must meet if you want to extract maximum profits from your tape.
- **The single most important question (that almost no one ever asks) that could make or break your tape's profitability!**
- How to literally force your expert to dig deeper than "yes" or "no" answers, to get your listeners the specific details they want to hear.

- **How a little flattery absolutely guarantees that you stay in control!**
- How to avoid legal stumbling blocks without spending a dime on an attorney.
- **The five most common problems that sabotage an interview and how you can easily avoid them.**
- The interview techniques used by the Pros to produce dynamic, information-packed interviews.
- **How, with one inexpensive extra step, you can double the perceived value of your tape and increase your selling price... and your profits!**

...and you get much more! You'll learn what equipment you need -- which brands last longer -- how to get the best recording -- deep discount sources for all your tapes and supplies -- how to save on duplicating costs -- and a lot more. Plus I want you to have this, too:

But you can't model just anybody. Not if you want to be as profitable as possible. You have to model the absolute cream of the crop -- the top one percent of the most successful people in direct marketing.

The problem is how do you get even one of these experts to give up their most closely guarded trade secrets? How do you get them to spill their guts and lay it all out on the table -- including their most profitable ads and sales letters . . . complete details of where the ads ran or what mailing lists were used . . . and fully documented results of the profits produced?

The fact is, your chances are extremely slim!

Unless you can afford a small fortune to hire one of these top guns, you simply won't be privy to the powerful inside secrets that can transform your business into a powerful "money machine" almost overnight.

**Stop Risking All Your Time, Effort, And Money --
Let The Experts Show You Dozens Of Proven Ways To Double
Or Triple Your Profits In Record Time!**

By: Michael Kimble

Now there is an inexpensive way for you to "team up" with the most successful direct marketers in the world. A way to model their most carefully guarded trade secrets and pump up the selling power of all your ads and sales letters.

Experts like Ted Nicholas, Dan Kennedy, Alan & Brad Antin, Bob Bly, Jeff Paul, Ray Jutkins, Brad Petersen, Karen Anderson, Stan Golomb, Dan Poynter, Dan Reynolds, T. Harv Eker, Brian Keith Voiles, and Don Bice.

Why risk your hard-earned money and tons of time and effort "reinventing the wheel" when you can profit from the proven techniques of the most successful people in direct marketing?

Now there is a powerful new resource that's packed to overflowing with actual million-dollar campaigns and hot, proven strategies from more than a dozen of the foremost experts in the world. Each expert will break each campaign down to the finest detail so you can use their secrets to double and triple your own profits.

You'll find it all in **Direct Marketing Hotseat -- Actual Campaigns And Case Studies Of Million-Dollar Direct Marketing.**

Catapult Your Profits To A New Level With These Inside Secrets

This comprehensive insider's guide to increasing your sales and profits is unlike any other marketing course you've ever seen. And it took so much work to create, I can guarantee you that nothing like it will ever come along again!

Your Direct Route To Maximum Sales And Profits

As I've already mentioned, everything in this powerful resource has been proven in the marketplace. There is no textbook theory, no wishful thinking, and no fluff or filler. It's all hard-hitting, proven strategies and techniques that have sold countless millions of dollars worth of goods and services.

Nearly all of the material is set up in case study format showing all the actual concepts, techniques, offers, ads, and sales letters that produced tremendous sales volume. More importantly, the actual mailing lists used, magazines and newspapers the ads were run in, and fully documented results are also given. So you know precisely what results you can expect when you model these campaigns in your business.

This is truly the most detailed guided tour of successful direct marketing you could ever hope to get your hands on. Here's what's included in each chapter, and the powerful benefits it will give you:

Chapter 1: How to Use Dirt-Cheap Postcards to Send Your Sales Through The Roof

In this chapter, Karen Anderson, Stan Golomb, Jeff Paul, Ray Jutkins, Dan Poynter, and

Brian Keith Voiles show you precisely how to use postcards to conquer the high costs and low returns of conventional direct mail.

This powerful chapter is packed with proven examples that show you how to generate more highly qualified leads...cash in by making repeat sales to existing customers and reactivate past customers...make direct sales at a fraction of the cost of traditional campaigns...increase store traffic to profit-breaking levels...and maintain top-notch customer contact that produces even more sales.

This chapter includes seven actual postcards (and documentation of the precise results they produced) that you can model to pack major selling power into your own direct mail.

Chapter 2: A Guided Tour Of A Sales Letter That Sold So Many Pool Cues, They Actually Had To Stop Mailing It!

This is one of my favorite chapters because it focuses on a sales letter that was so successful, the client couldn't produce enough product to fill all the orders. They literally had to stop mailing the letter!

This sales letter was written by Brad Petersen, who is one of the finest and most effective direct marketing copywriters in the business.

Brad takes you on a blow-by-blow account of how the sales letter was created. He pulls no punches, showing you explicitly what should be included in all sales letters - and equally important, what should be avoided at all costs! This candid case study is packed with tips and techniques that will increase the sales and profits of any business.

Chapter 3: How A Powerful Secret Produced An 857% Return On Every Dollar Invested In Marketing

This chapter presents a case study of a super-successful format called the "Pat-On-The-Back Case Study". This format creates more trust with both old and new customers than any other strategy you could think of. And everyone knows that trust is a key component to exponentially increasing your sales.

Written jointly by Bob Serling and Derek D'Angiolini (who is a first-class copywriter in his own right), this letter demonstrates how to make huge increases in sales and profits without investing a penny more than you're already spending on marketing. After modifying Derek's existing sales letter to follow this new format, the results it produced were a lucrative \$8.57 return on every dollar invested in marketing!

Chapter 4: The Fastest, Easiest Way To Add Big Profits To Your Direct Marketing

Would you like to have a foolproof way to make 70% of your customers spend more money every time they do business with you? How about getting 94% of all your customers to up the

amount of every sale.

This chapter reveals everything you'll ever need to know to realize these kind of profits. Best of all, it takes almost no effort whatsoever, and it's one of the lowest cost techniques you'll ever have the pleasure of profiting from!

This powerful money generator is called an upsell. This chapter gives you all the details of how to work this remarkably simple and profitable technique. Plus, you get three actual examples of upsells that produced the 70% to 94% increases I just told you about.

Once you know what to do, there isn't any business that can't have a highly profitable upsell campaign running and bringing in extra profits in the blink of an eye!

Chapter 5: How To Virtually Eliminate Refunds And Returns

Returned merchandise and refund requests can severely reduce your profits. Not only is there the direct cost of lost sales, but there's also the time and effort it takes to handle these wasteful transactions.

The good news is there are proven ways to reduce your returns and refund requests to the bare minimum. Two of the best ways are presented in this chapter. You'll see precisely how other businesses have trimmed the flow of returns and refunds to a minor trickle, and how you can get similar results in your own business.

Chapter 6: How A Direct Marketing Master Creates And Tests Million Dollar Space Ads

Ted Nicholas is widely regarded as the foremost authority on space advertising in the world. And rightfully so, since his space ads have produced over 200 million dollars in sales!

In this chapter, Ted generously lays out the complete details of how he creates, tests, and modifies space ads to produce world class profits. He goes step-by-step through two completely different full page ads for his book, "Magic Words That Bring You Riches".

You'll get a superior education on how to make all your own space ads as profitable as possible. From writing powerful headlines...to media placement...to selecting a high-profit theme...to choosing and homing in on the most profitable benefits...to the best guarantee periods...to closing for maximum sales, Ted leaves no stone unturned.

This chapter alone is a classic that's worth far more than the entire cost of this unique course!

Chapter 7: Increase Your Profits With A Simple Process To Educate Your Customers

In this chapter, Alan and Brad Antin reveal a proven process they've used countless times to

make their clients substantial profits. It's a very simple method of educating your customers they call "try-before-you-buy".

By using this method, any business can give their prospects a tangible sample of exactly what they have to offer. And because your competition never does this, the technique works like crazy.

To demonstrate precisely how this strategy works, Alan Antin guides you step-by-step through an actual letter he and Brad created for a very satisfied client. You'll be able to model this universal example to step your profits up to an entirely new level!

Chapter 8: How To Rewrite Your Copy For Maximum Profits

Rewriting your copy is a crucial task. I've lost track of how many times a good rewrite has added tens of thousands of dollars to my own sales.

In fact, there is no world class copywriter I know of who doesn't invest substantial time in rewriting their copy. Because rewriting really pumps selling power into your advertising copy!

Rewriting is remarkably simple once you understand the "recipe". In this chapter, you'll get all the details of the 17-Step Maximum Profit Rewrite Recipe. Then these steps are applied to an actual sales letter.

You'll see the before and after versions of the letter, which will show you precisely why rewriting is so valuable - because the minor changes made produced a substantial increase in sales! Using the simple, 17-step recipe, you'll be able to build the same kind of increased sales into every ad and sales letter you write.

Chapter 9: How To Convert A Whopping 37% Of Your Prospects To Paying Customers With Cycle Mailings

Most businesses leave over 50% of the potential money they could make sitting on the table. Why? Because they only mail one time to their prospects.

Cycle mailings, which are a regularly scheduled cycle of follow-up mailings to your prospects, are the answer to capturing all of those sales you've been letting slip through your fingers.

This chapter gives you everything you need to set up your own cycle of high-profit mailings. It focuses on a cycle of letters that's used by Judy Meininger.

Judy will show you how she systematically converts 37% of all prospects to paying customers. Considering that the standard conversion rate for all businesses is about 10%, you stand to more than triple your profits by taking advantage of this simple, proven strategy!

Chapter 10: A Direct Marketing Classic That's Produced An 800% Return On Investment - For Over 7 Years Running!

Don Bice has a classic two-step direct marketing campaign that regularly produces over eight dollars for every dollar invested in marketing. But what's even more remarkable is that it's produced these profits like clockwork month after month for over seven years!

For the first (and only) time, Don has agreed to share his secrets of success. Don's entire strategy and full campaign is carefully dissected to show you how to use these ideas to cash in to the fullest.

Everything's here - Don's space ad, his sales letter, his two brochures (and the reasoning behind having two different brochures in the same package), his lift letter, and his order coupon. Don breaks each piece down block by block, revealing his inside secrets you can use to create a perennial, high profit blockbuster of your own!

In Addition To This Multi-Million Dollar, Street-Smart Education - There's More Still!

I think you'll agree that the multi-million dollar ideas I've just told you about are far and away the most comprehensive collection of proven, high-profit direct marketing strategies you'll ever find. But I'm just getting started!

Here are the powerful marketing weapons you'll gain from the rest of the course:

Chapter 11: How To Create Blockbuster Offers That Prospects Simply Can't Refuse

I was talking with a colleague the other day and he asked me how many headlines I write before I choose just the right one for my ads and sales letters. Now, conventional direct marketing wisdom says that the first thing you should do is spend hours writing and rewriting a long list of headlines - the longer, the better. By continually working and reworking these headlines, you'll supposedly come up with one that will far outperform all others.

Sorry, but I think that's a load of manure. I personally never write more than one or two headlines. And I never even begin to think about headlines until after I've crafted an offer that's so enticing, my prospect would have to be a complete fool to pass it up.

You see, years of expensive trial and error have taught me that...

The deal's the thing!

The more enticing you can make it, the more value you can pour into it, the more benefits and components you can stack on top of each other in your deal, the more you're going to sell!

Don't let anyone tell you otherwise. In these competitive times, customers demand more than

what they're paying for. And if you can deliver that, you can write your own ticket to certain wealth.

In this chapter, Bob Serling will show you precisely how he created the blockbuster offer for the original Direct Marketing Hotseat newsletter. You'll get his triple-threat strategy for building offers that are so compelling, people can't help digging into their wallets and sending you money.

You'll see how your headline and all your body copy naturally flow out of your offer. In fact, once you've crafted the right offer, the rest of your copy nearly writes itself.

Most importantly, you'll come away with a comprehensive understanding of how to create offers that sell like wildfire. This skill alone, which few people possess, is easily worth a small fortune.

Chapter 12: 55 HOT Tips For Boosting The Pulling Power Of Your Direct Mail

This chapter is jammed full of proven, inexpensive techniques covering every aspect of your mailing package. And it's been made super easy to use by organizing the techniques according to each specific area of your mailing piece.

You'll have dozens of proven, high profit techniques at your fingertips - ready to use to increase the success of all your mailings. Just plug them in and watch your sales shoot up the charts!

Chapter 13: The Ultimate Direct Mail Secret: How To Pull 8%-22% Response On Every Mailing You Ever Send

Tired of response rates of 2% or less on your direct marketing? A major reason response is so low is you're hitting the wrong prospects through the wrong lists or media.

This chapter reveals four simple, inexpensive, deadly accurate ways to make sure your offer gets to your ideal prospects. And it gives you a remarkable new way of structuring your offer that vastly outperforms all other offers. Together, these strategies regularly produce response of 8% to 22%, as opposed to the lukewarm industry standard 2%.

These strategies have more than quadrupled the profits of my own business in short order. They can do the same for you too!

Chapter 14: The Jeff Paul Interview: Direct Marketing Success Secrets

Jeff Paul is one of the most successful direct marketers in the country. I was absolutely floored by how Jeff lays it all on the line in this interview. He holds nothing back.

Jeff's secrets for doubling or tripling the number of qualified leads you get and convert is well

worth the entire cost of this course. And that's just the beginning. Jeff goes on to show you exactly what to do to sell more of your products more often. Then he reveals how to use his simple plan to easily produce a six or seven figure income year in and year out.

Chapter 15: The Headline Clinic

Powerful headlines are absolutely crucial to maximizing your profits. Since you only have a few seconds to seize your reader's attention and convince them to keep reading your ad or sales letter, you'd better be able to stop them in their tracks.

For this clinic, Dan Kennedy, Ted Nicholas, Bob Bly, Brad Petersen, T. Harv Eker, and Brian Voiles show you everything you need to create the kind of headlines that get optimum results.

You'll discover what's crucial to include in every headline, what to absolutely avoid, and ethical ways to "swipe" headlines from other ads and sales letters. When you're done with this chapter, you'll be a master at creating headlines that sell much more of what you have to offer.

Here's How You Can Personally Cash In By Teaming Up With The World's Foremost Marketing Experts

Sales letter for
"Promotional Merchandise
& Close-Outs" manual

How To Obtain Premiums, Giveaways & Promotional Merchandise At

Discounts So Huge & Prices So Cheap

You'll Feel Like You're Stealing!

Insider Secrets Of The Close-Out And
Promotional Goods Industry . . .

Dear Friend,

I'm about to reveal to you an incredible opportunity to literally, actually turn pennies into dollars, just about at will.

The Promotional Strategy That Never Wears Out, Never Loses Its Power

Even though logic rejects it, we all love to get "something for nothing." The brilliant marketers at Dominos Pizza have picked up on this, with their "Somethin' For Nuthin!" ad campaign. Another marketing model is Bob Stupak of Vegas World. He keeps his hotel and casino over-full every day of the year promoting free vacations and free gifts. Use the "something for nothing" theme -- to attract new prospects to your store or showroom... to obtain sales appointments... to command attention for your sales letters... to motivate action on special offers... and to reward customers -- and you gain enormous competitive advantage. I favor the use of premiums and bonuses rather than discounts. I know bonuses can drive sales.

But -- where do you get great premiums you can afford to give away free? And give away generously?

Let Me Swing Open The Concealed, Secret Door:

The answer is the "close-out industry", a business that savvy insiders have quietly kept to themselves for years.

When you penetrate this industry, you can buy at far below wholesale, even without buying in quantity, and pick from thousands of gift, jewelry, electronic, toy and variety merchandise, books, even "hot" As Seen On TV Products.

Here are just a few examples, to start your Greed Glands sweating:

- \$99 Pierre Cardin Luggage Sets -- for nine bucks
- Bic Executive Pens -- one dollar PER DOZEN
- A beautifully packaged "knock-off" of the famous Triple-Edge Wiper Blade, at \$19.95 Retail -- for 99 CENTS
- Oleg Cassini travel alarm clocks -- \$3
- 35 MM Cameras -- \$8
- Jewelry at 70% below wholesale
- Hit movie video cassettes for a buck

Here Are Some Promotional Ideas

If you run a clothing store -- offer a LEATHER men's wallet or document wallet FREE with any purchase. (They cost you one dollar.)

If you run a restaurant -- how about a Valentine's Day promotion, giving away a top quality Cubicz, Diamond-like Tennis Bracelet to every lady? (They cost you \$2.70)

Own a travel agency? Give away a 35-MM Camera Set, with lens cap, strap, tri-pod, 5 year warranty, boxed with a \$199.95 retail price imprint... yours for ten bucks.

In carpet cleaning? Give away a CEILING FAN with every whole-house job. (The fans -- manufacturer boxed -- cost eleven dollars.)

If you sell printing or office equipment -- give away a back support that fits any office chair... retail price-marked at \$29.95... compares to items in catalogs at that price or higher... your cost: three bucks.

If you can't find a great promotion idea and a dirt-cheap, high value giveaway from the close-out industry's giant variety, you're brain dead.

"How Can Such Bargains Exist?" "Don't I Have To Buy A Train Carload Of Stuff To Get In On This?"

This is a "hidden industry." Each year, it moves BILLIONS of dollars of merchandise and there are warehouses overflowing with huge surpluses, virtually begging for buyers -- yet insiders have jealously guarded this business and do not publicize it. Here's why: ANYBODY can step in as easily as walking through a door, if you know where to go and what to do. There are virtually no barriers of entry. No costly memberships or franchises. No special training. No licenses. And no capital: you do NOT need to buy in big quantities to get these incredibly cheap bargains... in many cases, buying in dozens is all that's necessary.

"Where Does All This Stuff Come From?..."

There are many sources. Manufacturers' overstocks, "old" models, discontinued brands and discontinued items. Bankruptcies and liquidations. Imports from "knock-off manufacturers". Retail chain buy-backs. Unclaimed freight. It all comes into the close-out industry, through a handful of big organizations who do buy in enormous quantities, who buy whole "lots" -- 100,000 discontinued plush toys... a container-load of cameras... a million dollars worth of discontinued brand-name luggage sets. These "big guys" then break up their buys into smaller lots, add a small mark-up, and it spread through the entire close-out industry... thousands of "trading companies" who buy for pennies on the dollar, sell for nickels and dimes on the dollar.

Who do these "middlemen" usually sell to? Mail-order companies. Discount store chains, like the "Everything For A Dollar" stores, MacFrugals, Trader Joes, warehouse clubs like Costco, Price Club. Even swap meet dealers. But there is a way you can step right in and buy -- not necessarily to re-sell, but to fulfill all your needs and your clients' needs for premiums, incentives and giveaway items.

Which is where you come in. As an independent "trader", you can buy from these companies at below-wholesale prices, in small quantities. They'll put you on their mailing lists. They'll FAX you lists of new offers. You can even attend their closed-to-the-public, giant trade shows* and buy on the spot, accepted as an "insider."

(* There are over 50 of these expos to choose from each year.)

"How Do I Get In?"

Originally, everything needed to gain access to this incredible industry was put in a Home Study Course, sold as a business opportunity in and of itself, for \$299.00. And that would be a cheap price to pay to discover all the ins-and-outs of this remarkable business. But, for small business owner and sales professional customers, it's been condensed into a simple, step-by-step Manual I can offer for just \$79.

This manual reveals everything you need to know, where to go, who to call, THE mailing list to get on, so you can IMMEDIATELY take advantage of these unbelievable bargains.

Unfortunately, because this Manual provides confidential information of great value in a condensed form, that could easily be copied, I cannot attach my usual guarantees to this offer. This Manual is NOT returnable for a refund. If all you ever did was buy "samples" for your own use and Christmas gifts, you'd get your \$79 back ten times over. But you are a cinch to find all sorts of fantastic items that spark great promotional ideas for you. This Manual is going to be a big moneymaker for you.

"How Easy Is It To Get Started?"

The same day you get this Manual, you can be accepted as an "insider" and a "professional

trader" in the close-out industry. Within a week, you can be receiving THE most important publications of this industry, giving you unfettered access to hundreds of vendors and thousands of different items in every imaginable merchandise category. And it will not cost you another nickel to get started. There's nothing else to buy, no other investment -- This Manual will literally pick you up and put you in the close-out industry for \$79.

Once you've obtained this Manual, you can:

1. Access everything available through this massive network of close-out liquidators and deep discount wholesalers, so you can obtain "hot" premiums, incentives and giveaways as well as great promotion ideas for your current business or sales career.
2. If you're a retailer of any kind, have a service business, etc., you will probably find merchandise to buy and re-sell to your present customers... giving them exciting discounts and still making inordinately large profits yourself. You may discover entirely new opportunities, new ways to expand your business, better satisfy your clientele and -- simply -- make a lot more money.
3. You'll be able to buy individual "samples" of any of tens of thousands of items for your personal use, your family and friends, at dimes on the retail dollar -- including every conceivable home appliance, gadget or tool, cameras, luggage, jewelry, office equipment, toys and games, camping equipment, sporting goods, the variety just goes on and on and on.
4. You may find a whole new, spare time/part-time money-making opportunity for yourself or your kids.

As you get more and more familiar with direct marketing strategies, you'll see the importance of finding and using "hot" premiums -- this Manual will give you the access you need to the lowest cost premiums available!

To order: FAX your name, address, credit card number, expiration date and signature, and request The Promotional Merchandise & Close-Out Traders Manual to **1-800-368-4740** ... or call 1-800-998-3189, 24 hours, 7 days a week.

Sincerely,

Collin Almeida

Gary Halbert's famous "Coat of Arms" sales letter

(This sales letter generated 7,300,000 cash-with-order customers!)

123 Main Street
Anytown, ST 54321

Phone: 1-xxx-xxx-xxxx

Dear Mr. Macdonald,

Did you know that your family name was recorded with a coat-of-arms in ancient heraldic archives more than seven centuries ago?

My husband and I discovered this while doing some research for some friends of ours who have the same last name as you do. We've had an artist recreate the coat-of-arms exactly as described in the ancient records. This drawing, along with other information about the name, has been printed up into an attractive one-page report.

The bottom half of the report tells the story of the very old and distinguished family name of Macdonald. It tells what the name means, its origin, the original family motto, its place in history and about famous people who share it. The top half has a large, beautiful reproduction of an artist's drawing of the earliest known coat-of-arms for the name of Macdonald. This entire report is documented authentic and printed on parchment-like paper suitable for framing.

The report so delighted our friends that we have had a few extra copies made in order to share this information with other people of the same name.

Framed, these reports make distinctive wall decorations and they are great gifts for relatives. It should be remembered that we have not traced anyone's individual family tree but have researched back through several centuries to find out about the earliest people named Macdonald.

All we are asking for them is enough to cover the added expenses of having the extra copies printed and mailed. (See below.) If you are interested, please let us know right away as our supply is pretty slim. Just verify that we have your correct name and address and send the correct amount in cash or check for the number of reports you want. We'll send them promptly by return mail.

Sincerely,
Collin Almeida

P.S. If you are ordering only one report, send two dollars (\$2.00). Additional reports ordered at the same time and sent to the same address are one dollar each. Please make checks payable to me, Nancy L. Halbert.

Sales letter for
"Web Sites"

Here's the **FREE** Report you requested:

"How To Get Your Very Own Web Site On The Internet (Professionally Designed And Everything) For Less Than \$2 A Day"

**Now You Can Build Your Business
On The Internet!**

Dear Friend,

There's never been a better time for you to get a Web site on the Internet!

You see, the Internet is growing like a wild-fire out of control. In fact, experts estimate that over 150 million people will have a connection to the Internet by the year 2000!

And most of these people are HOT prospects for almost any product or service you can think of . . . INCLUDING YOURS! You can increase your sales and profits by using the Internet as the ultimate business-building tool!

Listen to this:

In less than five years, the number of people connected to the Internet has grown from a mere 750,000 to over 58 million! And new users are signing up at a rate of almost one million per month! They're all prospects for what you're selling!

"Internet Commerce" is barely beginning . . . it's going to do nothing but get better and better . . . and bigger. This means more prospects for you (if you get on the Internet now, positioned and ready for a HUGE explosion in business!).

And the best part of it all is that the quality of the people logging onto the Internet is every business person's dream come true.

**Take A Look At
These Internet Statistics:**

Most Internet users are between the ages of 32 and 57.

Average income is \$78,000. (They can afford to buy the products and services they want.)

By: Michael Kimble

- ◉ Most Internet users have four or more years of college.
- ◉ Almost all users of the Internet have credit cards!
- ◉ Most Internet users are accustomed to, and even prefer, shopping on the Internet.
- ◉ Internet users average 6 hours and 28 minutes a week on the Internet.
- ◉ 84% of Internet users wish they could spend more time on the Internet.
- ◉ Computers are presently outselling TVs.

As you can see, the Internet will give you access to a **huge market of people with money to spend and a desire to spend it!!!** And the fact is, you can reach this market very inexpensively.

The quickest and easiest way to reach this wealthy market is to have your own "Web site" on the Internet.

"What's A Web Site Anyway?"

Simply this: A Web site is your own personal interactive advertising space on what's called the "World Wide Web", which is where business is conducted on the Internet.

A Web Site On The Internet Is Like Having Several Full Page, Color Magazine Ads In Front Of 58 Million Americans!

Owning your own Web site is the least expensive way for you to attract more customers, clients, patients, prospects, etc. for your business!

In fact, your Web site will be up and generating business non-stop, 24 hours a day, 7 days a week for a FULL 12 MONTHS!

Here are just a few of the benefits of having your own Web site on the Internet:

- ◉ You can instantly make your business an international company by selling directly to a world-wide market!
- ◉ You don't have to maintain a physical store or worry about employees, shoplifting, and other headaches that come with owning a "real" store.
- ◉ Your Web site is completely automatic -- and it can be operated without any effort on your part, while giving you the appearance of a large corporation!
- ◉ You can have two-way, interactive transactions with your customers on your Web

site . . . no more being bothered on the phone all the time. They can leave messages for you and tell you what products they want -- all on your Web site!

- ◉ You can sell products and collect credit card payments automatically with no effort on your part whatsoever!
- ◉ With your own Web site, you can quickly and easily test products, promotions, and prices to find out what the market really wants!
- ◉ With your own Web site, you can offer free catalogs and product information. Plus, you can have your Web site capture the name and mailing address of every prospect or customer who visits your Web site!
- ◉ You can run your business from anywhere in the world when you have your own Web site! . . . You're no longer "trapped" in any physical location, you can live where you want and still operate your International Internet business!
- ◉ And perhaps most importantly, with your own Web site, you'll learn what it takes to run a successful business on the Internet . . . A skill that will become more and more valuable over the next few years and into the next century.

NOW is the time to get your business into this explosive marketplace. Even though the Internet is going to be making people money for years and years to come, those who get on the train right now are going to be the most successful.

Right now the Internet is still a novelty . . . It's similar to the situation a few years back when fax machines first came out.

Do you remember that? Fax machines started out small. But within a years time or so, almost every business you knew had a fax machine in their office. And now you can't even imagine being without a fax machine!

Having your own Web site is much the same. Someday soon you're going to have to have a Web site to stay in business . . . before your competition blows you away.

Now Is The Time To Establish Your Presence And Identity On The Internet With Your Own Web Site!

Business owners just like you around the world are already beginning to realize what a great prospecting, business-generating, and money-making tool having a Web site on the Internet is.

And with our service on your side, you don't need to know a thing about computers . . . much less the Internet! We put everything together for you! Turn-key!

**Imagine it! People and prospects
from all across the world will visit
your Web site on the Internet!**

Here's exactly how your Web site will look once it's on the Internet:

When a prospect pulls up your Web site on their computer screen, they'll see whatever you want them to see . . . perhaps color pictures of you, your business, and your products. Or information about you and your business, and the services you offer. (It's like your prospects are looking at full-color, full-page magazine ads of you and your business.)

Then, with one "click" of a mouse, your prospects or customers can look at the other pages on your Web site. On these pages, you can educate them on why they should conduct business with you, or you can show them more pictures -- **whatever you want!**

And, the people who visit your Web site can even print out your Web pages on their printer!

Now, for your prospects to order your products or services or to find out more about what you're selling, they simply need to click on a button that says, "More Information" or "Order Now". It's that simple! They will then go to a page where they can type in their name, address, phone numbers, credit card information, or any other information you want to get from them!

Just think if you've got only 1,000 people a week visiting your Web site and a mere 10% of them decide to click on "Order Now"!!!

That's 100 new customers a week -- and even if they just click on "More Information", you'll be able to capture that interested prospect's name and any other contact information you need. Then you work that lead until they buy from you or prove they're not a real prospect! Do you see why:

**The Internet Is The Ultimate Prospecting
And Business Generating Tool!**

What would an extra 100 qualified prospects a week do for your business? With 58 million Americans connected to the Internet, it's not unreasonable to think you'll get 1,000 people a week visiting your Web site!

And, more than one person at a time can visit your Web site. In fact, you can have 150,000 prospects from around the world looking at your Web site every hour!

They have an open invitation to visit as often as they like, anytime, day or night. (How many sales people do you know who will sell anytime, day or night!?)

You can sell just about anything imaginable on the Internet. Take a look at a few of the things

that are advertised on the Internet even as we speak:

⦿ Cars and car parts	⦿ Musical Instruments
⦿ Job Openings	⦿ Consulting Services
⦿ Boats and add-ons	⦿ Office Equipment
⦿ Life Insurance	⦿ Vitamins
⦿ Books and CDs	⦿ Real Estate
⦿ Magazine Subscriptions	⦿ Financial Services
⦿ Business Opportunities	⦿ Toys
⦿ Marketing Services	⦿ Flowers
⦿ Camping Gear	⦿ Training Seminars
⦿ Newsletters	⦿ Fishing Trips
⦿ Hiking Gear	⦿ Onions by the case
⦿ Travel	⦿ Blueprints for Homes
⦿ All kinds of Clothing	⦿ Peanuts
⦿ Ocean Cruises	⦿ Horses
⦿ Computer Equipment	⦿ Power Tools

It's pretty obvious that almost anything can be sold on the Internet. All it takes is a Web site and you're in business in front of a worldwide audience of millions of potential customers!

From: Jonathan G. Mizel
Publisher, The Online Marketing Letter

Dear Friend,

If you have been looking for solid, realistic information about online marketing from business professionals who are doing it in their own companies every day, listen carefully!

You see, everything you have heard about the Internet is true! You can advertise for free! You can send millions of messages at little or no cost! You can even generate . . . Sales and safely accept payments online . . . if you know what you are doing. Let me tell you the seven immediate benefits to expect when you get online:

By: Michael Kimble

1. **Lower lead costs.** The expense of generating new customers is a fraction of what it is using display advertising and direct-mail. Often times 1/4 the cost. And leads are generated in a matter of days, not months.
2. **Lower customer service costs.** Offer your company's information online and you only have to publish it one time. It's available to new and existing customers around the clock with no cost on your part. You can include customer support information, a questions and answers section, price lists, anything you don't want to physically mail out.
3. **Lower fulfillment costs.** Make sales materials available on your Web site and by e-mail, and you have set up a 24 hour a day sales office! (With no staffing costs!) You might be surprised to learn that some customers want to do business late at night when you are closed (especially international customers). How many additional sales you could make if you never closed?
4. **Greater reach.** Attract customers not normally available through conventional methods like direct mail and display advertising . . . at a much lower cost.
5. **Market research.** Learn more about what your customers want by inviting them to participate in your Web site, asking them for feedback, and tracking what they do and say! Create products you know will sell before you spend any hard-earned money producing them!
6. **Testing.** Using the Internet and commercial online services to test offers, headlines, prices, and new product ideas makes perfect sense. You can determine response before you spend any real money on direct mail or on running ads in magazines. This benefit alone can save you tens of thousands annually if you are a regular advertiser.
7. **Increased sales.** Having a presence on the Internet leads to increased sales and impulse purchases online. Some companies are generating 100% of their income from the Internet.

There are many advantages to incorporating electronic direct-marketing with the existing (and conventional) strategies you use to advertise your business.

- Determine whether direct-response projects are profitable before you spend any precious capital to promote them.
- Discover the demographic "goldmine" on the Internet.
- Post "special" files online (and on the Internet) that can generate a ton of publicity for you and your company! (I have one that's been downloaded over 20,000 times!)
- See income in 48 - 72 hours!

And much, much more.

However, there really is much to know. And the most precious resource -- **your time** -- will definitely have to pay the price. You see, unless you have hundreds of hours to invest in research, I can assure you that you will not work as efficiently as you should.

However, my totally new, completely revised home study course titled **The Online Marketing Power Pack** will show you everything you need to begin reaping some of the huge benefits of online business promotion including:

- ⊙ The seven revenue streams of a Web site. If you understand how to exploit the Internet properly, you can generate cash without even making any sales!
- ⊙ Nine little known ways to drive traffic to your site on the Web. (These secrets are so powerful, they could bring in immediate income!)
- ⊙ How to properly word and format your ad copy for an effective online solicitation. Your ad copy accounts for 90% of the response you receive and is the primary reason your customers decide to give you their money. Know what to say and you can double or even triple your current response rate. (Note: It's common to see one ad out-pull another 10 to 1 just because the offer or headline was different!)
- ⊙ How to combine online marketing and direct-mail to produce a solicitation with explosive results! If you aren't allowing your customers to enter their physical mailing addresses on your Web site, you are walking past a huge second income.
- ⊙ The dirty rotten truth about bulk e-mail and how to really make it pay off big! As controversial as this topic is, I'm going to spill my guts and review companies, software packages, and mailing tools. (How does 2,000 leads in a single day sound?)
- ⊙ Six techniques for using "Fax-On-Demand" and auto-responders to increase conversion rates up to 277%!
- ⊙ Why you need to think "outside the box" and how a Seattle man made \$52,000 in 55 days doing just that!
- ⊙ Exactly where (and how) to post reports, articles, and inquiry-generating files online that can generate a slew of highly qualified leads for free!
- ⊙ How to pre-test your ad copy (and your headlines) for pennies on CompuServe and newsgroups so you roll out with a winner, risk-free!

100% Unconditional "10 Times Your Investment" Money-Back Guarantee

If the Online Marketing Power Pack isn't everything I say it is, if you aren't absolutely thrilled when you open the huge box I'm going to send you, if you are dissatisfied in any way shape or form ever in your entire life, **and if you fail to earn at least 10 times your money on the course price within 12 months of purchasing it**, I'll give you 100% of your investment back, including any shipping charges. Bottom line, I unconditionally guarantee your total and complete satisfaction forever!

Why would I make such an outrageous offer to potentially let you take till you're old and gray to decide? Because I know that once you see what you get, you would be crazy to return it.

I guarantee you the techniques outlined in the Online Marketing Power Pack are the most comprehensive, easiest to use, fastest, and most effective methods for marketing any business online ever developed or your money!

I know it sounds outrageous, but I'm not worried about refunds. I really honestly do teach thousands of people how to promote their businesses online. These proven techniques work! My customers wouldn't even think of sending back these materials! (They're way too valuable!)

Besides, I get virtually zippo returns anyway so I could care less about how long my guarantee period is for. (In fact, I'm quite sure you'll want to subscribe to my newsletter after you have seen it. Most people do!)

\$1,177.00 In FREE Gifts You Can Keep Just For Taking A Peek!...

Just to "sweeten the deal," if you order within the next seven days, I'll include four valuable bonuses worth \$1,177.00 you can have as a gift even if you later decide not you keep my materials.

Free Bonus #1 (\$500 Value)

Recently, I was interviewed for an online entrepreneurial video series regarding how to set up a business on the Internet. (By the way, this is the same material I teach for \$3,000!)

In this particular interview, I shared "The Twelve Key Steps To Implementing An Electronic Marketing Campaign" as well as how to set up an effective Internet presence. At this time, the video is not for sale.

The information on the tape is worth at least \$500. (If you were to hire me, I'd charge you \$750 an hour.) But if you want it, you don't have to pay one red cent! You see, that's the first FREE bonus, a copy of the video!

In fact, just one of the ideas presented in this video could make you tens of thousands of dollars overnight. One of my clients used this material, and he proceeded to make \$37,000 in 60 days on America Online!

Free Bonus #2 (\$180 Value)

One of the first things I ever sold online was a manual titled Direct-Marketing Firepower. When I marketed it, I decided to include six potent profit reports (valued at \$30 each) titled:

- The Secrets Of Direct-Mail!
- How To Test Your New Marketing Idea Without Spending One Thin Dime On Production!
- The Dirty Little Secret About Market Research That Nobody Talks About!
- How To Create An Irresistible Information Package!
- How Special-Interest Information Marketers Can Make Huge Profits Riding On The Information Super-Highway!
- Discover How To Uncover The Secret \$100,000 Goldmine Lurking In Your Business!

If you are marketing or thinking about marketing an information product (or anything for that matter), you really need to read these reports first. (And if you act quickly, you can get

them free!)

Free Bonus #3 (\$250 Value)

I bet a million bucks that you aren't working as efficiently as you should be online. Whether you are new to the world of cyberspace or not, there are quite a few tricks I'm sure you could benefit from. Things like . . .

- ☐ **How to send and manage e-mail quickly and efficiently using the latest online tools that you can download for free.**
- ☐
- ☐ **How to post lead generating ads in newsgroups and on the Internet that can generate a ton of leads for your business.**
- ☐
- ☐ **Basics of Web marketing.**
- ☐
- ☐ **How to discover what your competitors are up to.**

Anyway, last month I produced a brand new video titled **Marketing On The Internet -- Basic Training!** This hour long video shows you how to effectively use the basic tools of e-mail, newsgroups, and the Web to your unfair advantage.

With Internet usage at 35 million people in North America alone, using these techniques to properly promote your business can increase sales as much as three-fold in a matter of days.

The **Marketing On The Internet -- Basic Training** tape is probably worth \$1,000. But just to be reasonable, let's give it a value of \$250.

Free Bonus #4 (\$247 Value)

One of the biggest areas of growth online is bulk e-mail. Unfortunately, few marketers are aware of the true risks (and rewards) of sending unsolicited messages. However, I have just finished a new report and audio cassette which will teach you everything you need to know about how to make money using this almost completely untapped new medium. It's titled:

"Psychopathic Profits - How To Make \$10,000 A Month With Low Budget Bulk E-Mail Projects!"

With this new report and tape, you can easily earn thousands, even tens of thousands of dollars a month for a fraction of what it costs to do business conventionally.

All in all, a total value of \$1,177! Yours to keep regardless of whether you keep my package!

The Online Marketing Power Pack costs just \$697. However, as part of a nationwide

marketing test, and for a limited time, I'm taking \$400 off the price, so you pay only \$297 plus \$7 for shipping.

If you want to make money and promote your business online, and if you are looking to generate an almost unbelievable number of inexpensive, responsive leads quickly and efficiently, go to your telephone and call **SUCCESS STRATEGIES, INC. 24-Hour Order Line at: 1-800-998-3189**.

You can use VISA, MasterCard, American Express, Discover, Checks By Phone, or Checks By Fax.

And for your convenience, you can make "two easy payments" of \$152 spread 30 days apart.

You must be satisfied or you receive 100% of your money back! When the operator answers, say you want to order The "Online Marketing Power Pack".

Remember, you'll receive the manual containing the dirty little online-marketing secrets-of-success, and the \$1,177 Bonus Pack to keep as a gift. Receive the Profit Point video, the six special "info-marketing" reports, the "Basic Training Video," with zero obligation as my gift.

~~ And you save \$400 if you order right now! ~~

Sincerely,

Jonathan Mizel

Jonathan Mizel

PS: I urge you to seriously consider my offer. Either way, you win big. After all, the worst thing that happens is you get the \$1,177 bonus gift package to keep for FREE. Of course, the best thing that happens is that you make so much money, you never have to worry again. Sounds pretty good no matter how you slice it!

PPS: If you are not planning to invest in my package, then please ask yourself this question: "How will I learn what I need to know to become successful?" If you can't answer that, you must call:

**"How To Write Million Dollar Ads, Sales Letters,
And Web Marketing Pieces"**

Dear Friend,

I'm writing you today about a special offer that can substantially increase your sales and profits.

I know, because what I'm about to show you has made a lot of money for my business. And I'm certain it can make your business a lot of money too. So certain that I'll make this unequivocal guarantee:

Give this powerful information a thorough "test drive". Put it through all its paces for 12 full months. If you don't make a small fortune (money you never would have seen without this information), you won't pay a dime!

What exactly is this powerful information? I'll tell you.

Over the past several years I've had the good fortune to work with a marketing consultant named Bob Serling. Bob has created a remarkable new course that shows any business owner how to create million dollar marketing concepts and advertising copy. And he's enlisted 23 of the most sought-after marketing experts in the world to help you increase your sales and profits.

By the way, there's no textbook theory or pie-in-the-sky dreaming in this program. Every strategy and technique has been proven over and over again in the marketplace.

Anyway, I was so impressed with how safely and easily anyone can increase their sales and profits using this course. I wanted to make it available to my own customers.

I'm not going to go into all the details here about what's in **How To Write Million Dollar Ads, Sales Letters, And Web Marketing Pieces**. Instead, I've included a copy of the actual sales letter Bob Serling sends to his own clients. It will give you the complete scoop on how to substantially increase your sales and profits in record time.

For a limited time, I can offer you the exact same deal Bob gives to his best clients. The only change is you'll need to order the program through my office to take advantage of this deal. Bob doesn't accept orders from anyone other than his regular clients.

Our 24-hour order number is 1-800-998-3189. You can also FAX us your order by calling 1-800-368-4740. Please take a few minutes to read Bob's letter. You'll be glad you did. After all, who wouldn't want to substantially increase their sales with almost no effort whatsoever?

Sincerely,

Collin Almeida

Creating powerful marketing pieces is simple when
you team up with 23 of the most sought-after copywriters
and marketing experts in the world and discover...

How To Write Million Dollar Ads, Sales Letters, And Web Marketing Pieces

Dear Friend,

Does every ad, sales letter, and web marketing piece you create produce the results you're really after? Are they as profitable as you'd like them to be?

Even if your ads and sales letters are doing alright... even if you're squeezing out a few sales on the Internet... wouldn't you like to increase your results by as much as 9 times?

As spectacular as this might sound, one of my clients did just that. Using what I'm about to show you, he increased his profits by 917% (it's all documented later in this letter). And many more of my clients increased their profits by 300% or more.

How did they achieve such stellar results? Actually, the answer is quite simple. If you want to improve your sales and profits exponentially, the secret to doing it is:

More powerful concepts and copy

It's just that simple. Look, I don't care how great your product is, how attractive your art work may be, what list you're using, how inexpensively you can reach thousands of prospects on the web, or how unique any other component of your advertising might be.

The bottom line is this: if you don't do an exceptional job of motivating your prospects to take immediate action... if you bore them for one second... if you confuse them... or don't do the strongest job possible of closing them once you have their attention...

You're cheating yourself out of all the profits you could potentially be earning!

I'm sure you know from experience that this is absolutely true. Haven't you run an ad or mailed a sales letter you were sure would sell like crazy - only to have it fail dismally?

I know this painful outcome is all too familiar. Because a full 90% of my clients tell me they've been through this.

Hold on. Maybe you're thinking, "So what. This doesn't really apply to me. I do most of my marketing on the Internet. And since it doesn't cost me anything to advertise, everything I make is pure profit".

Unfortunately, that kind of mushy thinking is killing your sales. While it's true that it doesn't cost much to market on the Internet, the real problem is the competition for customers is staggering.

Right now, there are over 320 million web sites on the Internet! Which means you're in an all out war for "share of mind". Just getting people to discover your web site, much less pay any real attention to it, is an enormous challenge.

Bottom line, ask yourself this question: "If Internet marketing costs so little, how come I'm not making more money with my web marketing?" Because I know from what my clients tell me that the vast majority of people marketing on the Internet are getting lukewarm results at best.

In addition to reporting poor response and results with their online and offline marketing, my clients also tell me they wish they were much better copywriters. Or they knew more about how to effectively judge and improve the copy they get from their copywriters.

Here's How To Put An End To Poor Results And Start Increasing Your Sales And Profits Right Away

If you'd like to put an end to the dismal results you've been getting... if you'd like to be able to write the kind of copy that makes products disappear off the shelves and sells services like crazy... if you'd like to super-charge the performance of every ad, sales letter, or web marketing piece you create, I've got good news for you.

I've just completed a powerful new course that will show you, step-by-step, everything you need to know to craft the tightest, toughest copy imaginable. Copy that sells and sells - and sells some more! It's called the **How To Write Million Dollar Ads, Sales Letters, And Web Marketing Pieces**.

This course is unlike anything you've ever seen. Because I've teamed up with 22 of the most sought-after copywriting and marketing experts in the country to show you, step-by-step exactly how they created some of their most successful marketing pieces.

Each of these experts, gives you a blow-by-blow account of precisely how they conceive and create winning ads, sales letters, and web marketing pieces.

They reveal the secrets they use to develop powerful hooks and strategies that drive winning campaigns...

They track each piece, block by block, and show you precisely how each block was created to deliver maximum sales...

They leave no stone unturned, and literally spill every inside secret you could ever want for packing more selling power into every ad, sales letter and web marketing piece you create.

**Stop Risking Your Valuable Time, Effort,
And Money On Ineffective Marketing - Put
23 Leading Experts On Your Team And Watch Your Sales Soar**

Why spin your wheels with weak, ineffective concepts and copy? Marketing is much too time consuming and expensive to risk getting poor results.

Now there's a better way. Because now you can "team up" with 23 of the most successful marketing experts in the world and use their inside secrets to maximize the selling power of every ad, sales letter, and web marketing piece you create.

Experts like Karen Anderson, Don Bice, Bob Bly, Larry Chase, Marty Chenard, Declan Dunn, T. Harv Eker, Randy Gage, Gary Halbert, Dr. Paul Hartunian, Don Hauptman, Dan Kennedy, Dr. Audri Lanford, Dr. Jeffrey Lant, Ted Nicholas, Mike Pavlish, Brad Petersen, Russ Phelps, Murray Raphel, Bob Serling, Joe Vitale, Brian Voiles, and Pamela Yellen.

I'm proud to announce a comprehensive new resource that's packed with the proven strategies of these leading experts. Each expert painstakingly lays out the complete details of some of their most successful marketing campaigns - space ads, direct mail campaigns, and Internet marketing.

They break each piece down block-by-block and show you what they were thinking, the strategy that drives the piece, and every last detail on how the piece was created. Why is this so beneficial to you? Because I've learned from many years of expensive trial and error that the fastest, easiest, safest way to lock in success is to...

Model someone who is already successful

But the problem is, you can't just model anybody. Not if you want to ensure your own success. You have to model the absolute cream of the crop - those experts who have proven themselves over and over again the only place where it really counts, in the market place.

That's what **How To Write Million Dollar Ads, Sales Letters, And Web Marketing Pieces** gives you. Access to the inside strategies and marketing secrets of the top experts at creating space ads, direct mail campaigns, and web marketing. Here's what you'll find in this powerful resource:

Section 1: How To Write Million Dollar Sales Copy

There are a lot of books on writing copy. Some good, some completely useless. What makes this section (and the entire book) so different than all the other books on writing copy is this:

When I decided to create this course, instead of basing it on what I thought should be in a book on successful marketing and copywriting, I let my clients tell me what would help them the most.

Here's what I discovered. My clients told me they can recognize a good or even great ad when they see one. But they don't know what makes it great. And what they really wanted was to have a copywriter dissect an ad, block by block, to show precisely what they were thinking when they wrote every component.

And that's what makes this book so different, so much more immediately useful than any other book you've ever seen on creating hard-hitting marketing and copy. Each piece is broken down to it's finest detail so you can model it right away in your own successful marketing campaigns.

However, in addition to these "guided tours" of successful ads, sales letters, and web marketing pieces, I've also included a special 65-page guide to writing powerful copy. This will give you a foundation for everything that follows. Here are the components you'll find in this guide:

1. Lock in greater sales with these **4 Major Selling Principles**. Getting your prospects and customers to take the action you want is much easier when you understand and apply these 4 powerful principles. Any one of them can propel your sales to new levels. Combined, they're unbeatable!
2. Increase the selling power of all your marketing and copy by creating maximum response offers. I'll let you in on a major secret. In today's market, your offer makes or breaks your success. Crafting a powerful, highly profitable offer is easy when you understand how. You'll get comprehensive details on how to do just that and start enjoying greater sales volume right away.
3. Pump up your profits with my **Maximum Response Marketing Power Formula**. This is the 14-step "recipe" I use to create all my own copy. You'll get detailed, step-by-step instructions for creating highly profitable ads, sales letters, and web marketing with minimum effort.

Next we move on to applying what you've just learned. To immediately put this information to practical use, you get complete annotated versions of some of my most successful marketing pieces. This includes two space ads, a postcard mailer, a sales letter, and a web marketing piece. Each block of each piece is numbered and explained, block by block, in

complete detail.

This "working tour" of the five sales pieces leaves no stone unturned. You'll see precisely how each piece was created, what structure was used, and the logic behind each critical decision. More importantly, you'll be able to take the lessons from each piece and apply them to your own copy for maximum results.

By the way, earlier I told you about a client who increased his profits by 917% using these techniques. And many other clients who increased their sales by 300% or more. They achieved these results just with the strategies and techniques you get in Section 1. Here are the results they reported in their own words:

"You immediately increased our profits on one project by a very real 917%!"

Phil Kratzer, CEO

National Response Corporation

"Bob Serling's copy is always on target. He's never failed to get results. In a way, I hate to let the secret out, because I know that good news travels fast!"

Marla Covin, Senior Account Executive

Schroffell & Associates

"Bob Serling made copy changes for our catalog. The results were phenomenal. When you consider how much money Bob actually made for us, his services are one of the best bargains I've ever come across."

Ray Melissa, President

Mailer's Software Catalog

"You increased our sales by a whopping 328%!"

With those kind of results in mind - just from Section 1 - let's take a look at how much more you can expect to gain.

Section 2: The Headline Clinic

Powerful headlines are crucial to the success of any marketing piece. Since you only have a few seconds to seize your reader's attention and convince them to keep reading your ad or sales letter, you'd better be able to stop them in their tracks. So I've devoted an entire section to making sure you have all the tools you'll ever need to create successful headlines.

For this clinic, I'm joined by Bob Bly, T. Harv Eker, Gary Halbert, Dan Kennedy, Ted Nicholas, Brad Petersen, Joe Vitale, and Brian Voiles to show you everything you need to create the kind of headlines that get optimum results.

You'll discover what's crucial to include in every headline, what to absolutely avoid, and ethical ways to "swipe" winning headlines from other ads and sales letters. When you're done with this section, you'll be a master at creating headlines that sell much more of what you have to offer.

Section 3: 20 Leading Experts Take You On A Step-By-Step Tour Of Some Of Their Most Profitable Promotions

**Sales letter for "Maximum
Profit Copywriting Clinic"**

Question: What's The Key Secret To Increasing Your Sales & Profits By As Much as 917%?

If you don't know, read on. You'll find out what it really takes to pull more sales and profits from every ad or sales letter you ever use.

Dear Friend:

Do all your ads and sales letters get the results you're really after? Are they as profitable as you'd like them to be?

Even if your ads and sales letters are doing all right -- wouldn't you like to increase your results by as much as 10 times?

One marketer I know did just that. Using what I'm going to show you, he increased his profits by 917%. Many others increased their profits by 300% or more too!

I'm not going to keep you in suspense any longer. I'll cut straight to the heart of the matter. If you want to improve your sales and profits exponentially, the secret to doing it is:

More powerful concepts and copy.

It's that plain and simple. Look, I don't care how great your product is, how attractive your art work may be, what list you're using or how unique any other component of your advertising might be.

The bottom line is this: If you don't do an exceptional job of motivating your prospects to take immediate action . . . if you bore them for one second . . . if you confuse them . . . or don't do the strongest job possible of closing them once you have their attention . . .

**You're cheating yourself out of all
the profits you could potentially be earning!**

I'm sure you know from experience that this is absolutely true. Haven't you run an ad or mailed a sales letter you were sure would sell like crazy -- only to have it fail dismally?

I know this painful outcome is all too familiar. Most of my subscribers have been through this.

And most of them also wish they were much better copywriters. Or wish they knew more

about how to effectively judge and improve the copy they get from their copywriters.

Here' How To Put An End To Poor Results -- And Start Increasing Your Sales And Profits Right Away.

If you'd like to put an end to the dismal results you've been getting... if you'd like to be able to write the kind of copy that makes products disappear off the shelves and sells services like crazy... if you'd like to super-charge the performance of every ad, sales letter, or marketing piece you create, I've got good news for you.

There is a powerful new course that will show you, step-by-step, everything you need to know to craft the tightest, toughest copy imaginable. Copy that sells and sells and sells some more!

It's called the **Maximum Profit Copywriting Clinic -- A Step-By-Step Guide to Writing Million Dollar Advertising Copy.**

One thing you should know. This course is unlike anything you've ever seen.

Until now.

Now, I could tell you about all the great results I know you'll get by using this course. But instead, I'm going to let other marketers show you in hard dollars and cents just how well these copy techniques work.

Here's How Profitable The Copywriting "Power Formula" Has Been For Other Marketers

**Marla Covin, Senior Account Executive
Shroff & Associates**

"Our sales letter was mailed to prospects who have never even heard of us. So far we have a 3% response. Plus, we don't have all of the responses in yet because of a holiday. Not only is that higher than anything we've ever done, it's really something when you consider we're selling a very high-ticket item."

**John Ballantyne, Marketing Director
Rushton International Engineering**

"You increased our sales by a whopping 328%!"

Bruce Elliott, President
The Gold and Diamond Center

The **Maximum Profit Copywriting Clinic** is different. After carefully explaining each step of this powerful formula, the whole process is then kicked up another notch.

You see, the next section of the course is in a workbook format. This gives you a comprehensive demonstration of the entire process.

You'll actually watch the 18 Maximum Profit Copy Steps being used to write a complete advertising piece from scratch. But I don't mean just write it. We'll go over every detail with a magnifying glass. So you can see precisely how to use every tip, trick, and technique to its full advantage.

Here Are Just Some Of The Powerful Advantages You'll Gain From This Unique, Comprehensive Training:

- ◎ **Profit from using the 18 Maximum Profit Steps Of Copywriting.** Advertising has changed drastically in the past few years. Because the world has changed drastically. And because customers have become more sophisticated and much more skeptical when it comes to advertising.

By understanding and applying these 18 simple yet ingenious steps, you'll be able to create powerful advertising copy that gets more leads, makes more sales, and substantially increases your profits. Plus, you'll have a distinct advantage you can use to capture a larger share of your market -- and leave your competitors in the dust!

- ◎ **Increase your sales and profits exponentially when you possess the 4 Powerful New Copy Formats.** Although one or two of these formats have been seen in action, nobody has ever seen all four together.

And you can be sure nobody has ever seen them laid out, step-by-step, and explained in fine detail. You will though. And once you have, you'll instantly understand why these 4 powerful new formats are the next best thing to printing money!

- ◎ **Immediately kick your sales copy up another notch by understanding the one crucial element for producing riveting copy that nearly writes itself.**

You'll be shocked when you discover this element. I'll tell you this: it's by far the most important thing you can do to improve your copy. It's also almost never used by even the most seasoned copywriters!

- ◎ **Gain another crucial advantage by understanding Power Words and Wasted Words.** Some words are absolutely golden and others can instantly flush all your time, effort, and money down the drain.

You'll improve your sales when you know which words are as close to sales magic as you can get and which words to avoid like the plague.

- ◎ **Discover how to avoid crucial copywriting errors that doom your advertising materials to be crumpled up and tossed directly into your prospect's waste basket.** These days, one thing is certain. The marketplace is unforgiving.

If your copy slows your customers down, confuses them, doesn't hammer home the benefits as powerfully as possible, or makes them work too hard -- you're doomed.

Discover which crucial errors you absolutely have to avoid at all costs. And find out how to turn them around and add yet another money-making weapon to your copywriting arsenal.

There's more. Much more, including . . .

insider techniques for writing powerful sentences and paragraphs . . . **how to identify your most compelling benefits** . . . how to make optimum use of visuals and graphics . . . how to write headlines that reach out, grab your prospect by throat and pull him into your copy . . . **how to develop a truly compelling offer that will double your sales** . . . how to check copy to make sure it will sell before you ever invest a cent in it . . . **proven testing methods for squeezing every last dime of profit out of your copy** . . . and even more than I have room to go into here.

You'll discover every last technique and trick that has been used to sell literally millions of dollars worth of products and services. No holds barred.

Let me put it this way. Regardless of whether you're a complete beginner who has never written a single word or a seasoned pro who writes copy for a living, this intensive training will turn you into a master of maximum sales, maximum profit copy.

I got to thinking about a very elusive problem so many marketers are troubled by. They can recognize a good or even great ad when they see one. But they don't know what makes it great.

And, it would help them make more money if a copywriter would dissect an ad, block by block, to show precisely what he was thinking when he wrote every component.

So this course does just that! It takes not one, but five successful ads and sales letters and breaks them down block by block, showing you every last detail of how they were created. This second powerful tool is called the **Direct Response Copy Clinic**.

Here are the components that will kick your copywriting skills up to an even greater level of profitability:

- ◎ **Benefit from the Four Major Selling Principles.** Getting your prospects to take the action you want is much easier when you understand and apply these powerful principles. Put them to work in your copy and watch your leads and sales skyrocket!
- ◎ **Increase the selling power of all your copy by creating maximum response offers.** I'll let you in on a major secret. In today's market, your offer makes or breaks your success. Crafting a powerful, highly profitable offer is easy when you understand how. You'll get comprehensive details on how to do just that and start enjoying greater sales volume right away.
- ◎ **Pump up your profits with the Direct Marketing Power Formula.** You'll get detailed, step-by-step instructions for creating high profit sales pieces with minimum effort.

- © **Complete annotated versions of three sales letters and two space ads.** Each block of each ad and sales letter is numbered and explained, block by block, in fine detail. This "working tour" of the five sales pieces leaves no stone unturned. You'll see precisely how each piece was created, what structure was used, and the logic behind each critical decision. More importantly, you'll be able to take the lessons from each piece and apply them to your own copy for maximum results.

Remnant Review

"Outstanding. You've developed practical methods to increase the net income of any business virtually immediately. I expect to increase my bottom line by 200% or more within the next 6 months."

Phil Kratzer, President

National Response Corporation

Dear Friend,

As you can see, these three marketing giants took home a wealth of money-making information from the **Direct Marketing Power Summit** seminar.

But more importantly, YOU can use the same powerful strategies and techniques to cash in with your own marketing.

Now the seminar itself is over. But every exhilarating minute of it is captured on audio tape. And these tapes will give you all the advanced direct marketing information you need to turn even your weakest campaigns into powerful cash generators.

Here's Why The Information On These Tapes Is So Crucial:

1. **What you'll gain.** For most projects, returns of 2 to 3 times costs are considered extremely profitable. The heart of this seminar focuses on proven, step-by-step techniques that regularly produce eye-popping returns of 168 times cost and more!

2. Our powerful guarantee -- unequalled anywhere in the industry. Quite simply, you're guaranteed a minimum return of 20 TIMES the cost of these tapes in extra profits.

The investment for these tapes is \$577. If after listening to this breakthrough information, you aren't completely convinced that you'll gain at least 20 times your investment -- at least \$11,540 extra profit you never would have seen without these techniques -- I'll refund your entire investment on the spot.

3. An extremely valuable bonus that can easily pay back more than double your investment. When you order these tapes, you'll be granted the rights to sell additional sets of them to your friends and business associates -- at an 85% commission! With your profits of \$490.45 per sale, just three sales will pay you more than double your investment in this seminar.

The Costly Truth About Direct Marketing

There's this myth that it's easy to make big money in direct marketing with almost no risk. Nothing could be further from the truth.

I'll be completely honest with you: the worst losses I've ever taken have been on direct marketing projects. And the worst losses I've ever seen my clients suffer were on direct marketing projects.

This probably comes as no big surprise to you. Because if you've done a mailing or run an ad lately, you know (by the hole in your bank account) that what I've just said is absolutely true.

Here's something crucial you should know:

The reason you've been getting such horrible results is directly connected to the way you've been strategizing and carrying out your direct marketing projects.

You see, the direct marketing techniques people are using today haven't kept pace with the times. They're still based on strategies and concepts that worked 5 or 10 years ago -- but fail miserably now.

I'll tell you something that's a sure bet. If what you're doing now isn't producing the kind of profits you need, it surely won't do any better in the future.

Times have changed so radically and customers' buying habits have changed so drastically, you simply can't afford to keep throwing money out the window on outdated strategies and techniques.

Here's What You Need To Start Cashing In On All Your Direct Marketing Projects

By: Michael Kimble

That's where the **Direct Marketing Power Summit** comes in. This seminar is your direct ticket to restructuring all your direct marketing. The type of restructuring that will produce outstanding jumps in your sales and profits in record time.

This seminar was hosted by direct marketing expert/consultant Bob Serling, who is a master of implementing advanced direct marketing techniques for himself and his clients.

The strategies in the **Direct Marketing Power Summit** are unbelievably effective yet extremely simple to put into action. As you'll see from the three detailed, step-by-step case studies presented at the seminar, they can make you so much money so quickly, your head will spin!

One more thing. These strategies are new and completely different. They are not being written about by anyone else or taught in any other seminar on the market.

Now I realize that I'm making some awfully big promises here. And I certainly don't expect you to just blindly take my word for it.

You've already seen how profitable Gary Halbert, Dr. Gary North, and Phil Kratzer know these strategies are. But you might be wondering how effective they can be in your business. Just listen to what a few of the other seminar participants have to say.

Here Are The Results The Seminar Participants Brought Home -- In Hard Dollars And Cents!

"With just one technique alone, I can triple my business in the next 30 days."

**John Satterfield, President
Project Group, Inc.**

"I'm in awe! I've attended a lot of seminars, given a lot of seminars, and spoken at a lot of seminars, but I wasn't prepared for this. Your material went far beyond anything I've ever seen in both its highly valuable content and organization. I came away with one breakthrough idea after another for my business. And I know the rest of the participants did also, because everyone was taking notes so furiously."

**Raleigh Pinskey, President
The Raleigh Group Public Relations**

"Very profound. I got a number of ideas that will have enormous impact on my business. Just one idea half as good as any of these would make the seminar a tremendous success!"

**Audri Langford, Publisher
NETragic Results! Newsletter**

"A+. I am expecting at least a 200% growth in my business!"

**Dr. Michael Anderson, President
Anderson Seminars**

You could be getting similar or even better results. The **Direct Marketing Power Summit** will give you the new tools you need to get ahead and stay ahead. Right now and in the future.

What Makes This Seminar So Different -- So Much More Profitable -- Than Anything Else You've Ever Seen

As I've already mentioned, this seminar is unlike anything you've ever seen.

Over the past few years, I've become painfully aware of how poorly direct marketing has been performing. Both my own and my clients.

These new strategies have been developed, tested and finely honed into consistently powerful winners that produce maximum sales and maximum profits.

These tapes reveal the step-by-step details for every cutting edge strategy and technique perfected to sell literally millions of dollars worth of products and services. Nothing is held back!

When you're done with these tapes, you'll have mastered a powerful new understanding of what it really takes to make maximum profits through direct marketing.

Here Are The Powerful Advantages You'll Gain From This Unique Seminar

1. The single greatest money making secret for a changing market, changing times, and a changing economy.

This is the heart of the seminar. What you'll learn will open your eyes to an entirely new approach to direct marketing.

Want specifics? Here are the detailed results of a recent direct marketing mailing from using this secret.

Mailing costs were \$356 (printing and postage). Revenue from sales was \$60,000 -- in just ten days. If you divide sales by costs (\$60,000/\$356), the result is **168 times costs**.

Plus, two other mailings have been done since perfecting these techniques. The results? The worst return was 11.5 times costs. And the other brought in a walloping 121 times costs.

I think you're beginning to see why this secret is so exciting!

It gets even better. These mailings were all done one after another. Which means there were three winners in a row.

Now, if you know anything about direct marketing, then you know most experts agree that you can get fat and happy if just one out of every three or four projects is a success. But three out of three? That's almost unheard of!

2. Insider's secrets on qualifying customers and markets for maximum profits.

A simple, low-cost system for determining which markets are losers and which are high profit winners. A number of very savvy business people who attended the seminar were shocked to find out how little they actually knew about high profit qualifying processes. Some said this one point alone was the catalyst for major restructuring of their businesses and marketing procedures.

3. Four key secrets for pumping real selling power into your advertising copy.

Most advertising copy is lucky if it even generates lukewarm results. That doesn't have to be the case. These powerful techniques will put real teeth in your advertising copy and make it pay out substantial dividends.

4. Boost your profits with Opportunity Cycle Selling.

A unique method for making sure you're in front of your customers when they want to buy, not when you want to sell. Your potential in increased profits from this technique alone is truly staggering!

5. Maximizing profits through Precision Marketing Systems.

Complete step-by-step procedures for five proven, money-making systems that take all the guess work out of making big profits. Quite simply, this is the secret to producing truly huge direct marketing fortunes.

6. The maximum profit power-formula.

Most people don't go out of business for lack of capital, they go out of business because they don't understand where the money really is in their market. This proven formula shows where the profits really are and precisely how to tap into them right away.

Includes crucial information on how to "fail successfully". Anyone in direct marketing who tells you they haven't failed is either an amateur or a liar.

The key is to learn from your failures and apply that knowledge to turning out winners. You'll get the inside scoop on how a highly successful venture grew directly out of a costly, dismal failure.

7. The 4-Step Marketing Turn-Around.

The fastest, easiest way to turn any company's sales around. Or make an already successful company even more profitable. This formula is so simple and foolproof, most business owners can't believe they never thought of it themselves.

8. The single most damaging myth everyone still believes about direct marketing.

Huge sums of money are being lost every day in direct mail. This incredibly dangerous myth can put you out of business in short order. But if you recognize it and understand a few simple steps for turning it around, the profits are nearly unlimited.

All eight of these key strategies -- and much more -- are covered in step-by-step detail on these seminar tapes. But that's just the beginning.

Here's Yet Another Powerful Advantage You'll Get For Increasing Your Profits

You see, one of the most critical aspects of benefiting from any new information is the ability to apply it. I've noticed that at most seminars, you leave with a bundle of new ideas but very little understanding of how to make use of them in the real world.

So during one day of the seminar, some of the top marketing experts in the country are brought in to personally help the participants nail down their most profitable strategies and marketing plan.

The entire day was devoted to honing their marketing into finely tuned strategies that can be applied easily and inexpensively. You won't believe your ears when you hear the powerful marketing solutions that were laid out in complete detail for the folks who attended the seminar.

But you know what the truly amazing part was? Nearly every one of the participants said that the solutions created for the other participants triggered dozens of tremendously powerful ideas for their own businesses. And I guarantee they'll do exactly the same for you!

Here's the bottom line. Once you finish these tapes, you'll be fully prepared to hit the ground running and start racking up staggering profits in your own business.

Think about this for a minute. Imagine what it would be like to have the confidence of

knowing your direct marketing is as effective as possible. That it's letting you run circles around your competition.

How would you feel knowing you're one of a very limited few who can count on making huge profits with your direct marketing rather than blowing major holes in your bank account? And rather than worrying about making payroll, having to scramble to hire more employees when everyone else seems to be laying their best people off?

This is precisely what you'll gain from these seminar tapes. In this very real sense, the **Direct Marketing Power Summit** will change your life and your employees' lives forever.

Plus, You Get This Powerful BONUS For Quickly Earning Back Every Cent Of Your Investment

Along with the seminar tapes, I'll give you a package that can make you an immediate \$1,471.35! That's more than double your investment for this powerful information.

Here's how this works. When you order these tapes, you'll be granted the right to sell as many copies as you'd like. I'll provide you with the sales letter and detailed instructions for producing maximum sales.

All you have to do is sell three of these packages. Your share of each sale is 85% -- that's \$490.45! So three sales pays you back \$1,471.35.

I don't have to tell you that three sales is a piece of cake. Anyone with an existing customer list should be able to sell three sets in a week or two. You'll probably sell many, many more than that.

So you see, I'm pulling out all the stops to pack every possible way of boosting your profits into the deal.

Now That You Know What To Expect -- Here's How To Get On A Fast Track To Increased Profits

The cost of these seminar tapes is \$577. This includes 21 audio tapes and an extremely detailed workbook.

Plus, you get my powerful bonus of being able to sell additional sets of the tapes yourself. This alone can quickly and easily pay back much more than the entire cost of the seminar.

But the actual value you get is almost impossible to calculate. What's it worth to you (in both profits and peace of mind) to know with dead certainty that you'll be able to consistently produce direct marketing that will perform beyond your most optimistic expectations?

Can you even begin to measure this? Is it worth a second home -- a get-away at the beach or

in the mountains? Or worth having the necessary funds to actually buy out your fiercest competitor? Or fully fund your children's college education? Or realize any other dream or financial goal you may have set for yourself?

I can't measure this for you. Only you can accurately determine how much this insider's marketing know-how is worth. But, I'll give you this hint: the sky's the limit!

It Gets Better Still -- Your Success Is Completely Guaranteed

I'm completely committed to your success. This seminar overflows with so much vital, specific information for increasing your sales and profits, you'll wish you had known about it ten years ago.

In fact, I'm more than just committed to your success. You see, I absolutely guarantee it! I've already mentioned my unique guarantee in the opening of this letter. But I'd like to take a moment to repeat it again:

Our powerful guarantee is unequalled anywhere in the industry. Quite simply, you're guaranteed a minimum return of 20 times the cost of these tapes in extra profit.

If after listening to this breakthrough information, you aren't completely convinced that you'll gain at least 20 times your investment -- at least \$11,540 extra profit you never would have seen without these techniques -- I'll refund your entire investment on the spot.

You couldn't possibly ask for anything more. All of the risk has been taken off your shoulders and placed squarely on mine. If for any reason you don't feel this information will kick your sales and profits into high gear, you'll get back every cent you invested.

Take Control Of How Profitable Your Business Can Be -- Starting Today!

The time to act is now. You and I already know that if you've read this far, you have a driving interest in making your business as profitable as possible. All that's left is to take the action to do it.

If you want to secure your financial future... if you want to stop gambling on how well your business will do... if you want to take control of how much more profitable your business can be, you owe it to yourself to take advantage of this risk-free offer.

To get out of the old run and breathe new life into your sales and profits, you need to act now.

7 formulas to write killer headlines that sell like crazy!

By: Robert Boduch

Features	Benefits

Formula #1: The Ultimate Benefit - FAST & EASY!

When you've taken the time to list all the benefits of your product or service, it's much easier to begin formulating some excellent headlines. Decide on the most attractive benefit your product offers. What one great advantage does your product give customers? What unique advantage does your product offer? Don't just guess at it-talk to prospects and customers. Give them a short list of 2 to 5 solid benefits your product delivers on, and then ask them to choose just one.

What you hope to achieve with this little exercise, is to get actual prospects and customers to identify the one benefit that is of supreme importance to them. It could be a single benefit or, more likely, the "ultimate benefit" of your product. Try to narrow it down to one powerful benefit and then use that as your starting point.

A headline that's centered around the most appealing benefit has a good chance of attracting far more interest and attention than any non-benefit headline.

Step #1: Identify Your Big Benefit

Step #2: Provide A Quick & Easy Way For Prospects To Experience The Big Benefit

"Quick and easy" satisfies the craving for instant gratification with little or no work. What could be better than that? Not only are you promising the one thing customers want most, but.... you're also offering this in rapid time and without much, if any effort on the part of the prospect. This is how you present the ideal dream solution to your customers and prospects. Make sure your promise is believable.

Specific solutions attainable in less time and with less effort. That's what prospects want ... your job is to give it to them up-front in the headline. One way to do it is to simply add the words "quick and easy". Another technique is to quote specific figures in terms of the time required, such as "10 days to...", "30- day plan for...", "... in just six weeks" or "overnight".

Formula #2: The "Borrow It" Approach

This technique "borrows" ideas, words, phrases, and formats from other headlines and adjusts these to suit. It takes individual components from existing headlines and re-packages them to suit your product, service, or offer. Here, you choose different headlines that you like, combine features of several to create a hybrid. This technique works for both simple and complex headlines. You simply string together a few parts that you like, and substitute your benefit or offer to suit.

Never copy someone else's headline, word for word. That's theft. But no one can take exclusive ownership of any word or phrase. You're always free to use any word or description in your own unique way.

It's an easy way to put together a solid headline in just minutes. The key is to find lots of headlines that you like and to have them ready, in front of you. You'll find plenty of examples within this manual package, but remain on the lookout for others.

You never know when you'll want to adapt a phrase or technique for a headline of your own. With your own file of collected headlines, commonly referred to as a "swipe file", you'll have a virtual resource center of adaptable ideas and techniques.

Following are some examples of simple adaptations from original headlines:

Original- "They Laughed When I Sat Down At The Piano But When Started To Play!-"
(John Caples)

Adaptation:

"They Laughed When I Sat Down At The Piano. They Stopped When I Picked It Up." (Gold's Gym)

Original- Breakfast Of Champions! (Wheaties cereal)

Adaptation:

Breakfast of Millionaires. (Barron's financial magazine)

Original: "What Four-Letter Word Do You Use When You Have To Write A Check For Your High Healthcare Premium?" (Jerry Fisher)

Adaptation:

"What Four-Letter Word Do You Use After Stepping On To The Bathroom Scale?"

Original- "To People Who Want To Write-But Can't Get Started"

Adaptation:

"To People Who Want To Own A Beautiful House-But Can't Get Started With A Regular Savings Plan"

Original: "10 Ways To Lose Extra Weight And Keep It Off!"

Adaptation:

"3 Ways To Rid You Home Of Pests And Keep Them Away For Good!"

You can take virtually any effective headline and adapt it to your own product or service. Try different options and arrangements. Insert a new word or phrase. Try it out. You'll see how easy it is to develop a great headline by using parts of others to develop one that fits your purposes well.

You can add a new and interesting twist to this formula by substituting a few words with powerful, provocative, eye-catching replacements. (Refer to Chapter 9 for specific examples) Sometimes just one word can make a substantial difference in readership and results.

Formula #3: The Brainstorm Technique

The brainstorming technique is an excellent way to generate innovative, breakthrough headlines. This technique can be performed as a group exercise, or individually. Both applications can work well to produce original ideas and concepts that can lead to awesome headlines.

The idea of brainstorming is to completely free the minds of all participants and to simply let the ideas flow --unrestricted and unencumbered- without limitations of any kind. This free-wheeling, creative activity lets you generate an infinite amount of possibilities.

The best way to brainstorm a headline is to think in terms of customer benefits and stick to short descriptions of one to five words. Open up your mind and let the creativity flow. Try to think of single words and phrases that describe the benefits of your product or service.

It's a liberating experience, one that can often provide a fresh new horizon from which to base your promotional efforts upon.

There are 4 simple rules to follow for maximum results in brainstorming:

1. Place a time limit of 5 to 10 minutes on the actual idea generation stage. This is the first step where raw ideas are produced and recorded on paper or chalkboard.
2. All answers should be encouraged. No idea is a bad idea at this stage. Every contribution, no matter how outrageous or ridiculous, should be welcomed and recorded. Do not edit. Keep the ideas flowing. Spit out as many as possible.
3. Stop on schedule. Don't try to prolong a creative session. 5 Minutes is plenty of time to gather lots of good ideas to explore.
4. Now, you can start to edit out some answers that don't appear to be on the mark. Take what's left and work with those to formulate a powerful headline.

Formula #4: The Power-Packed Combination

Here's a technique that adds extra power to any single-benefit headline. It can be used in several different ways, all with the multiplied power of several components working hand in hand. A combination headline could include multiple benefits, a benefit plus and offer, even a benefit, offer and a guarantee. With the "Combination" headline, your options are plentiful, and the one you select should be the one that packs the biggest punch and works well in a particular situation.

The benefit combination approach simply stacks one major benefit on to another in a sequence that usually consists of three separate benefits. The result is a headline with three times the power of a single benefit.

The easiest way to begin generating a power-packed combination headline is to begin with a single benefit statement.

Here's one we can start with-

"Learn To Make Money Like A Millionaire!"

This headline promises a benefit, but could it be made stronger using the combination approach? Before deciding, play around with several different options.

Let's try out a few possibilities:

- Learn To Make Money Like A Millionaire... Invest Like A Wall Street Wizard With Average Returns Of 37%, Or More... And Create A Future Of Style, Comfort And Unlimited Financial Security!
- Learn To Make Money Like A Millionaire! Attend This FREE 2-Hour Seminar And Discover The 13 Key Principles Of Self-Made Riches Guaranteed To Make YOU More Money Than Ever Before! Only 75 Seats Available-Reserve Yours Today!
- Start Your Own Business, Take Complete Control Of Your Future And Learn How To Make Money Like A Millionaire-Starting Today!

See how easy it is? The possibilities truly are endless. But obviously, the angle you take is dependent upon your product the market you're trying to reach, and the venue you're using to communicate your message.

Following are some other combination headlines taken from my collection of ads, sales letters, direct mail packages, brochures and assorted other marketing pieces.

This sample delivers a benefit and offer combination:

- "Free Video Tapes Reveal 11-New Ways To Make Huge Amounts Of Cash... Even During A Recession!"

In the next example, a question is used to first involve the prospect. Next, it's immediately followed-up by an offer and a benefit.

- "Do You Have What It Takes To Succeed At Your Own Business? This Free Book Will Help You Find Out. YOURS FREE! Starting Your Own Business... 12 Steps To Success."

Here's a quadruple-benefit headline. Watch how much more impact it has vs. any single benefit alone.

- "Maximum Profit Direct Marketing! How To Win Tons Of New Customers, Get Them To Buy More Often, Increase The Dollar Amount Of Every Sale, And Double Your Profits In Record Time!"

In this example, there's a strong benefit, a guarantee, and a special offer.

- "Now You Can Easily Double Your Profits By Learning The Jealously-Guarded Marketing Secrets Of The Richest Service Companies In The Country... And I Guarantee Results! Plus... If You Act Now, You'll Also Get Valuable Free Bonuses Worth Over \$975!" (Joe Hammer)

Using the combination technique is an easy way to boost the appeal of any headline. Start by listing a handful of benefits. If you have as strong guarantee, and a compelling offer, list those as well. Then, experiment with different combinations. Vary the order. Try a new angle and soon you'll have the headline you're looking for.

Formula #5: Forget Your Product-Deliver The Dream!

What do your prospects want most? You already know the answer. It's always the benefits that they seek. They want an advantage or a better way of doing things. Solutions to problems and new alternatives that save time, money, and effort. And there's no better option for prospects than the one that does it all. This product is the solution to their dreams.

The idea of this headline technique is to transform your product into an ideal answer to your prospects deepest desires and aspirations.

In order to supply the dream solution, you have to know what your prospects want... their likes and dislikes... their frustrations and disappointments with other apparent solutions. What is it that annoys prospects most regarding your type of product, service or industry?

Armed with this valuable knowledge, it's easy to see what it would take to provide a better alternative. But you don't want to simply settle for being better than the other choices available. You want to be the ultimate solution to your prospect's problem. What would your prospect really like to have, to be, or to accomplish, that his present choices don't provide? What is the perfect solution-- the best-case end result?

So... now it's time to play the role of the wizard. Put on your cape, reach for your wand and create a "magical" solution. Pretend that you have almost God-like powers and that you can give your audience the "ultimate solution"- the big benefit they really want.

Your job is to bridge the gap between where your prospects are and the place they want to go. Imagine the perfect end result. Create the vision of the underlying desire your prospects hold within. Then, present your message as the ultimate answer-the ideal solution. Fulfill that desire with your miracle product.

Examples:

In the following example, the writer obviously knew his audience well. Most people who attempt new diets, have tried others before without much, if any success. Talk to anyone who has been on a diet and they'll often tell you that afterwards, they gained more weight than they previously had lost! Yet the search goes on for the perfect diet-one that delivers results without taking away one of life's greatest pleasures. How could any dieter resist?

Here's how copywriter, Jerry Fisher created a dream solution:

- "Lose 30 Pounds In 30 Days On Strawberry Shortcake!"

In the next example, direct marketer, Ted Nicholas shows his thorough understanding of the prospects he wanted to target. Anyone who has ever given a speech, has the goal of delivering a stellar performance. What better way to feel the accomplishment than with a standing ovation?

- "How To Get Enthusiastic Response --Even A Standing Ovation- Every Time You Speak!"

In the next example, marketer Gordon Alexander knew something about his audience before he conceived the headline below. I'm sure you've heard the line, *"Give a man a fish, you feed him for a day... but, teach him how to fish, and you feed him for life."* Learning how to make extra money one time, is appealing to many opportunity seekers, but... learning how to do it as often as they'd like has much more appeal.

- "12 Weeks To Freedom. Make \$5,000 Within The Next 3 Months- And Never Look Back. Learn How You Can Earn \$5,000 In The Next 12 Weeks, And Then Make \$1,000 or \$2,000 or Even \$3,000 Or More --IN CASH-- Every Week For The Rest Of Your Life!"

Be a dream provider and your headline will attract more qualified and interested prospects and your sales will skyrocket as a result.

Formula #6: Use Your Customer's Own Words

The actual words of satisfied customers holds a lot of weight with prospects in virtually all markets. Somehow, the words of others --people who once were in the same situation, as the prospects themselves--has greater power to influence a prospect's decision to buy.

Gather any feedback that you may have already collected from customers. Review all the letters, faxes, words or appreciation and general comments you've heard in the past. Survey past customers for additional feedback or solicit a review by a well-respected authority in your field. The more material you have to draw from, chances are, the better and more explosive your headlines will be.

If you don't have such a collection, now would be a good time to start one. Record all words, phrases, reviews and comments and attach the attributed real name of the actual person who made the statement. Jot these comments down on a card, and send it off in the mail to the customer requesting permission to use their words in your marketing material. Most customers are happy to help out this way and they appreciate being asked for their permission first.

Using testimonials gives you a different perspective- one that prospects can more easily relate to. A good testimonial headline speaks to the prospect in a language he understands, about something he truly desires.

Examples:

Let's start with an actual excerpt I received from a customer who had just received my booklet on writing successful classified ads.

- "One of, if not the best investments I have ever made! This information is not only timely and informative, but it actually works. I learned more from your advertising book than all of those \$39.99 to \$200.00 courses you see on TV!"

Some additional examples:

Another form of endorsement headline you could try, is an indirect testimonial headline. It works best in cases where there's a "voice of authority" suggesting an endorsement.

- "Police Say Buy It"
- "8 out of 10 Dentists Surveyed Actually Recommend EasyChew Gum For Cleaner, Whiter Teeth."
- "All-Night Donuts-Rated Number One For Taste By Those Who Ought To Know-. Police Officers and Tow-Truck Operators"

Formula #7: Fill In The Blanks

This formula is amazingly simple to use. Just take any or all of the samples provided and adapt them for your own use. Simply fill in the blanks with the appropriate description, expression, action word, or benefit. Once you get the hang of it, you'll want to refer to this section again and again. Not only is it easy, it's also a lot of fun.

Don't feel limited by these suggestions. You could literally adapt any headline found anywhere, and do the same thing. Simply transfer your benefits, offers, guarantees, etc., to a headline that grabs your attention. This is a great way to generate a dynamite headline in a matter of minutes. Any one of these fill-in-the-blank formulas could help you create a winning headline for your product or service.

We'll start with the easiest first. All of these formats assume that you've clearly identified the major benefits of your product. If you don't know what the big benefits are, you'll have a tough time—even with these easy, fill-in-the-blank headline formats.
