To open the files contained in this folder you will need <u>WinZip</u>. You can get it for free, and to view the PDF files, you will also need the free <u>Adobe Acrobat Reader</u>, which you can also download for free.

Once you 'unzip' the files, you will see the following:

- A folder named "**Reseller Website**", which includes a folder named "images" plus your sales page and your download page,
- A folder named "**Product**", which contains the ebook or e-course you ordered
- A file named "**License.pdf** " (which you are reading right now).

Let's talk about the "Reseller Website" folder first.

Open it up, add YOUR information, and upload ALL of the files in your reseller website folder to YOUR server. Once you have done that, you will need to edit the index.htm file with YOUR personal information. You will also need to include your payment button/information on the index.htm (sales page) file.

The next file you will need to edit is the download.htm file. The download links on your "Thank You" page <u>MUST point to your zip file on **your** server</u>.

That's all there is to it. You are ready to start selling "
New Business"... **or** if you just wish to read and enjoy the product then you will find it right inside of the "Product" folder.
